Recommendation

That Members consider and comment on the draft Corporate Strategy 2017-2022.

Summary

Bristol City Council launched its draft five-year Corporate Strategy and Medium Term Financial Plan, along with a draft one-year 2017/18 Business Plan, on 13th October 2016. Following the consultation period, a revised Corporate Strategy has been produced and is attached to this report at Appendix A.

Contained within the revised Strategy are details of the City Council's direction of travel for the next five years (see pages 9 onwards). This includes information regarding various models, which begins to articulate how we will achieve our objectives in light of the opportunities and challenges that we face.

For details of the savings proposals relating to the Corporate Strategy, please see the report at item 7 on this agenda.
