| Total Surplus on the HRA | 0.5 | -8.4 | -8.9 |

The HRA revenue account is showing a surplus for the year of £8.4m which is mostly as a consequence of slippage in the capital programme funded from revenue (£7.6m)and a forecast underspend in Repairs & Maintenance (£1m) mostly due to the change of life cycle for the paint programme from 7 to 10 years. There is an expected draw down from reserves of £1.9m to offset the forecast in year costs of implementing the replacement housing management system.

3. Debt

The HRA currently has rental arrears of £11.14m and a provision of £9.2m (83%). The arrears have increased throughout the year as a result of various factors relating to welfare reform. The rent arrears policy is being reviewed to support a clear RENT FIRST message to tenants and a further impact assessment is underway for Universal Credit Full Service roll out from March 2018.

The HRA Capital Programme is forecasting a £7.5m underspend. This is due to an underspend in Investment in Blocks of £5m, where planned investment on some blocks is on hold pending following Grenfell and further investment appraisals. Investment in New Build is £0.8m underspend. There are 2 sites where there have been issues with planning, and getting the site cleared prior to being able to start the work. Investment in Planned Programmes is forecasting a £2m underspend. This is due to a £0.4m slippage in the roofing programme following issues regarding the tendering process, and £1.6m relating to delays in the major repairs programme which is also awaiting outcomes from Grenfell and a further decisions in investment. In addition, this month there has been an increase on disabled adaption work of £0.4m but a reduction of £0.2m on the kitchen programme due to lower costs.
