## 5. PARTICIPATORY DEMOCRACY

The Neighbourhood Partnership received a presentation from Jo Howard (Agenda Item No. 5) on key finding from research and discussion.

During detailed discussion the following points were highlighted:

- Noted that the study was based on democracy in the Ashley, Easton and Lawrence Hill Neighbourhood Partnership Area given the history of regeneration and participation;
- The study focused on five areas of findings:
  - Representation;
  - Decision making;

- Inequalities and how they are addressed;
- Balancing representative democracy (Councillors and Resident participation); and
- Power relations
- In response to a question on how comparisons were made, it was noted that it has been based on knowledge of governance arrangements in other parts of the country and some knowledge of other neighbourhood partnerships in the city;
- Jo Howard noted that the successes for the partnership have been collective decision making, inclusive partnership board and representing the needs of less powerful community groups in the Area;
- Consideration will need to be given to the management of residents participation and the more formal method of decision making;
- Need to identify how neighbourhood partnership can have a more strategic role – how partnerships can learn good practice from one another;
- Councillor Hoyt, Assistant Mayor, Neighbourhoods indicated that there was some initial work was being done to look at whether Bedminster and Ashley, Easton and Lawrence Hill Neighbourhood Partnerships could be used as pilots for a scheme of participatory budgets; and
- The Partnership noted that the report would be considered further a local democracy week event to be held at City Hall, 6.00 pm – 8.00 pm on Tuesday, 15<sup>th</sup> October 2013, and there was also a presentation for representatives from the University of Mexico City.

Maryanne on behalf of the Partnership thanked Jo Howard for her presentation and attendance at the meeting.

**RESOLVED –**

**That the presentation relating to Participatory Democracy be noted; and Penny to circulate details of the Democracy Week event.**

**6. FOOTWAY SCHEMES**

The Neighbourhood Partnership received a report from Shaun Taylor (Agenda Item No. 6) relating to footway schemes in the area updating on the local highway schemes and requesting an additional £5,000 be allocated to complete the Redfield South scheme.

During consideration of the item the following points were highlighted:

Footways

- It was noted that Claremont Street had been identified as priority of the last few years, and it was recommended that works to this road be undertaken this year following consultation with residents;

- The Partnership noted that a pause had been agreed in decisions on Footway schemes to enable outstanding local traffic schemes to be completed;
- Members of the Partnership welcomed the appendices outlining the assessment process, and the balance being demonstrated between high footfall areas and assesment need;

### Local Highways Schemes

- In response to a questions clarifying funding for schemes, it was noted that there were some schemes which had been identified and completed as part of the Citywide priorities i.e. Park Street;
- Jo Curtis wanted to know why £1,700 of the £5,000 for Victoria Parade had been used for road closure when residents get a road closure for free for community activities. Shaun indicatedt that this would need to be further investigated;

The Traffic and Transport Group sought clarification on how funding was used – proportions spent on legal costs, consultation etc;

- The Partnership noted that all schemes are estimates and were dependent on what is found under the roads; and
- The Partnership expressed concern that additional funding had been requested for the Redfield South Scheme without any prior discussion or informaton at the Traffic and Transport Sub Group, but noted that the works could not continue unless the funding was approved.

### **RESOLVED –**

**(1) The Neighbourhood Committee approved the 2013/14 work programme for footway maintence:**
