

**BRISTOL CITY COUNCIL  
AUDIT COMMITTEE  
15 JANUARY 2010**

**REPORT FOR INFORMATION**

**Report of: Strategic Director (Neighbourhoods)**

**Title: Thriving Neighbourhoods Board - Risk Register**

**Ward: Citywide**

**RECOMMENDATION**

That the Committee notes the risk register which has been prepared for consideration by the Thriving Neighbourhoods Board at its meeting on 20<sup>th</sup> January 2010.

**Summary**

The risk register which is attached as Appendix A represents an initial assessment of risks to be managed by the Board, and whilst it has already been circulated to Board members for comment, the final version, complete with a timed action plan, will not be produced until it has been fully considered at the next meeting on 20<sup>th</sup> January 2009.

**Policy**

1. The Council's Corporate Plan states: "Working in Partnership: Our City's priorities cannot be delivered by the council alone ... major issues need to be tackled in partnership with other agencies and stakeholders."

**Consultation**

2. None necessary.

**Background**

3. The preparation and adoption of a risk register was identified through the completion of the partnership checklist, and although it was originally intended to produce and review this at the Board's meeting on 25<sup>th</sup> March (to coincide with the commencement of its annual review), this timetable was brought forward and consequently a first draft was presented at the last meeting on 15<sup>th</sup> December.

4. Unfortunately, it was not possible at that meeting to discuss the register in any detail because of the weight of the agenda. However, it was agreed that it be circulated to the membership for comment in order that it could be fully considered at the following meeting on 20<sup>th</sup> January 2010.
5. The intention is not only to adopt a revised risk register at that meeting but to agree on a timed action plan where mitigating actions are identified.

**KEY RISKS SUMMARY**

					<u>Residual Risk</u> (Impact/Probability) (Red/Yellow/Green)		
1	7	Failure to effectively deliver against the Bristol Partnership's 20:20 Plan	M/M	<ul style="list-style-type: none"> <li>• Full consideration of the Plan and its implications for the TNB</li> <li>• Specific tasks identified and managed utilising project management methods where appropriate</li> </ul>		M/L	<b>NEW RISK</b>
1	8	Failure of NPs to form as independent effective and sustainable bodies	M/M	<ul style="list-style-type: none"> <li>• Guidance notes distributed (BCC)</li> <li>• training for councillors in hand (BCC)</li> <li>• community engagement team available for support (BCC)</li> <li>• close monitoring of development with regular health checks (BCC/BP staff)</li> </ul>		M/L	

**NEIGHBOURHOODS DEPARTMENT – MEASURING OF RISKS GUIDANCE (TAKEN FROM  
“GUIDANCE FOR OFFICERS ON RISK ASSESSMENT IN THE DECISION MAKING PROCESS”)**

**How do we rate risks?**

The methodology for assessing risk is simple and easy to use. It looks at each risk and assesses the probability and potential impact of the risk, rating them as either HIGH, MEDIUM or LOW. It is important again that this stage looks at the inherent risk (ie the risk before any mitigating factors such as controls, insurance coverage etc. are taken into account).

The grid below shows how this methodology works.

<b>I M P A C T</b>	<b>HIGH</b>	<b>4</b>	<b>7</b>	<b>9</b>
	<b>MED</b>	<b>2</b>	<b>5</b>	<b>8</b>
	<b>LOW</b>	<b>1</b>	<b>3</b>	<b>6</b>
		<b>LOW</b>	<b>MED</b>	<b>HIGH</b>
	<b>PROBABILITY</b>			

The line between the red and the yellow defines what we describe as Bristol City Council’s appetite for risk (i.e. the level of risk we are prepared to accept). The red area is outside of our risk appetite and is where the highest impact and probability risks fall and will require some action to manage the negative risks. The green area is where risks are very well managed.

Positive risks that fall within the red area could represent opportunities to improve services. These opportunities need to be maximised by identification of critical success factors and mitigation to ensure these are achieved.

The ultimate intention is to reduce risk to an acceptable and cost effective level, and to maximise the opportunity benefit. By cost effective we mean that there must be some consideration of the cost of the risk mitigation action to determine whether the risk justifies the cost.

In measuring the probability and impact of risks, the following guidance over page will be applied:

## Severity of Impact Parameters

	Severity of Impact		
Nature of Impact	Low	Medium	High
<b>Effect on Service Provision</b>	<p>Little or no effect (positive or negative) on service provision.</p> <p>Impact can be managed within normal working arrangements.</p>	<p>Noticeable and significant effect (positive or negative) on service provision, a corporate plan priority area or on more than one service.</p> <p>Effect may require additional resource and will impact on key target achievement. However effect will be managed within a reasonable timeframe and will not require a major strategy change.</p>	<p>Catastrophic effect on service provision or a Corporate Plan priority area; or significant enhancement of service provision/strategy change.</p> <p>Effect could not be managed within a reasonable timeframe or by a short term allocation of resources or may require major strategy changes.</p>
<b>Financial/Business Effect/ Fraud Risk</b>	<p>Likely loss or benefit of less than £50K</p> <p>Fraudulent loss of less than £5k</p>	<p>Likely loss or benefit of between £50K and £500K</p> <p>Fraudulent loss of between £5K and £25K</p>	<p>Likely loss or benefit of more than £500K</p> <p>Fraudulent loss of more than £25K.</p>
<b>Reputation</b>	<p>Little public interest and limited opportunity to enhance reputation.</p> <p>Matter contained within section or department.</p>	<p>Some potential for enhancement of or damage to image.</p> <p>Local or national interest.</p> <p>Local MP involvement.</p>	<p>Significant potential for enhancement to image.</p> <p>Intense media attention.</p> <p>Public enquiry or poor external assessor report.</p> <p>Officer member forced to resign.</p>
<b>Legal</b>	Claim or fine up to £50K for non compliance	Claim or fine £51K - £250K for non compliance	Claim or fine - > £250K for non compliance
<b>Environmental</b>	No lasting effect (positive or negative) on the environment and community.	Serious local discharge of pollutant or source of community annoyance that requires remedial action.	Long term effect (positive or negative) on the environment and community.

	<b>Severity of Impact</b>		
<b>Personal Safety</b>	Minor Injury to service users or staff may result or can be prevented. No significant long-term effects and no significant absence from work	Significant Injury/ill health of service users or staff may result or can be prevented. Short-term disability/absence from work (over three days)	Major Injury, death or ill health of service users or staff may result or can be prevented. Long-term disability/absence from work.

### **Probability**

	<b>Probability</b>
<b>High</b>	Likely (occurring once or more in 3 years)
<b>Medium</b>	Possible (occurring once in 4 - 10 years)
<b>Low</b>	Unlikely (occurring once in 10 years or more)
