Emerging issues and developments

Councils must continue to adapt to meet the needs of local people

Audit Commission research - Tough Times 2013

The Audit Commission's latest research, <http://www.audit-commission.gov.uk/wp-content/uploads/2013/11/Tough-Times-2013-Councils-Responses-to-Financial-Challenges-w1.pdf> shows that England's councils have demonstrated a high degree of financial resilience over the last three years, despite a 20 per cent reduction in funding from government and a number of other financial challenges. However, with uncertainty ahead, the Commission says that councils must carry on adapting in order to fulfil their statutory duties and meet the needs of local people.

The Audit Commission Chairman, Jeremy Newman said that with continuing financial challenges 'Councils must share what they have learnt from making savings and keep looking for new ways to deliver public services that rely less on funding from central government'.

Key findings:

The Audit Commission's research found that:

- the three strategies most widely adopted by councils have been reducing staff numbers, securing service delivery efficiencies and reducing or restructuring the senior management team;
- three in ten councils exhibited some form of financial stress in 2012/13 – exhibited by a mix of difficulties in delivering budgets and taking unplanned actions to keep finances on track;
- auditors expressed concerns about the medium term prospects of one third of councils (36 per cent)

Issues to consider/challenge questions:

How have members satisfied themselves that the Council can deliver a balanced budget, that the medium term strategy/budget has been subject to appropriate challenge and that the Council's finances are resilient over the medium term (3 years) and beyond?

Councils choosing their auditors one step closer

Local government guidance

Local Audit and Accountability Act

The Local Audit and Accountability Act received Royal Assent on 30 January 2014.

Key points

Amongst other things:

- the Act makes provision for the closure of the Audit Commission on 31 March 2015;
- arrangements are being worked through to transfer residual Audit Commission responsibilities to new organisations;
- there will be a new framework for local public audit due to start when the Commission's current contracts with audit suppliers end in 2016/17, or potentially 2019/20 if all the contracts are extended;
- the National Audit Office will be responsible for the codes of audit practice and guidance, which set out the way in which auditors are to carry out their functions;
- Local Authority's will take responsibilities for choosing their own external auditors;
- recognised supervisory bodies (accountancy professional bodies) will register audit firms and auditors and will be required to have rules and practices in place that cover the eligibility of firms to be appointed as local auditors;
- Local Authority's will be required to establish an auditor panel which must advise the authority on the maintenance of an independent relationship with the local auditor appointed to audit its accounts;
- existing rights around inspection of documents, the right to make an objection at audit and for declaring an item of account unlawful are in line with current arrangements;
- transparency measures give citizens the right to film and tweet from any local government body meeting.

Issues to consider/challenge questions:

- Have members considered the implications of the Local Audit and Accountability Act for the Council's future external audit arrangements?

Joint Health and Social Care Plans to be in place by 4th April

Local government guidance

Better Care Fund

In the June 2013 Spending Round the Government announced the prospective implementation of the Better Care Fund (formerly the integration transformation fund). The key aim is to ensure a transformation in integrated health and social care through local single pooled budget arrangements. Pooled budget arrangements are formally underpinned by Section 75 of the NHS Act 2006.

Key issues

- £3.8 billion for funding will be available from 2015/16, largely through a top slice of existing Clinical Commissioning Group (CCG) budgets;
- Local Authorities with Adult Social Services, CCGs and NHS Trusts will need to collaborate through a single pooled budget arrangement to support the delivery of health and social care services in their designated local areas;
- finalised joint health and social care plans must be in place setting out how pooled budgets will be spent – draft plans must be formally signed off by each statutory Health and Well Being Board and submitted to NHS England area teams by 14 February, with a 4 April 2014 deadline for submission of finalised plans

Issues to consider/challenge questions:

- Is the local Health and Wellbeing Board on track to finalise and sign off the joint health and social care plan for submission to the NHS England area team?
- Has the size of the pooled budget been clarified?
- Is the Authority collaborating with its partner bodies to work through funding and delivery arrangements?
- Have roles and responsibilities been defined and understood for the Authority and its partner CCGs, NHS Trusts and the Health and Wellbeing Board?

Austerity continued – further cuts in spending powers

Local Government Guidance

Final local government finance settlement 2014/15

On 5 February 2014 the government published the final local government finance settlement for 2014/15. This confirmed the proposals laid out in the provisional finance settlement. The government has proposed that any council tax increases made by billing or precepting authorities of 2 per cent or more will be subject to a referendum. This proposal needs to be accepted by Parliament.

Excluding the Greater London Authority, the spending power for local authorities in England will fall by 2.9% in 2014/15 compared to 2013/14. As in previous years, councils will have their funding reduction capped at 6.9%. Indicative funding levels for 2015/16 have also been provided to assist local authorities with their medium term financial planning. The settlement will be finalised in February 2014.

Challenge questions:

- Has your Head of Finance reviewed the proposed settlement and assessed the impact on your Council?

79% of Councils anticipate Tipping Point soon

Grant Thornton

2016 tipping point? Challenging the current

This report http://www.grant-thornton.co.uk/Global/Publication_pdf/LG-Financial-Resilience-2016-tipping-point.pdf is the third in an annual series which assesses whether English local authorities have the arrangements in place to ensure their sustainable financial future.

Local authorities have so far met the challenges of public sector budget reductions. However, some authorities are predicting reaching tipping point, when the pressure becomes acute and financial failure is a real risk. Based on our review of forty per cent of the sector, this report shows that seventy nine per cent of local authorities anticipate some form of tipping point in 2015/16 or 2016/17.

Our report rates local authorities in four areas - key indicators of financial performance, strategic financial planning, financial governance and financial control. It also identifies a series of potential 'tipping point scenarios' such as local authorities no longer being able to meet statutory responsibilities to deliver a range of services.

Our report also suggest some of the key priorities for local authorities in responding to the challenge of remaining financially sustainable. This includes a relentless focus on generating additional sources of revenue income, and improving efficiency through shared services, strategic partnerships and wider re-organisation.

Challenge questions

- Our report includes a good practice checklist designed to provide senior management and members with an overview of key tipping point risks. Has the Head of Finance completed the checklist and reported it to the Audit Committee?
- The report also includes good practice case studies in strategic financial planning, financial governance and financial control. Has the Head of Finance reviewed these case studies and considered whether there is scope to adopt these?

Alternative Delivery Models – are you making the most of them?

Grant Thornton

Alternative delivery models in local government

This report: <http://www.grant-thornton.co.uk/en/Publications/2014/Responding-to-the-challenge-alternative-delivery-models-in-local-government/> discusses the main alternative delivery models available to local government. These are based on our recent client survey and work with local government clients. It aims to assist others as they develop their options and implement innovation strategies.

Local government has increased the variety and number of alternative delivery models it uses in recent years including contracts and partnerships with other public bodies and private sector organisations, as well as developing new public sector and non-public sector entities. With financial austerity set to continue, it is important that local authorities continue innovating, if they are to remain financially resilient and commission better quality services at reduced cost.

This report is based on a brief client survey and work with local authority clients and:

- Outlines the main alternative delivery models available to local authorities
- Aims to assist other authorities as they develop their options and implement innovation strategies
- Considers aspects of risk.

Challenge question

- Our report includes a number of case studies summarising how public services are being delivered through alternative service models. Has the Authority reviewed these case studies and assessed whether there are similar opportunities available to it?
- Our report includes three short checklists on supporting innovation in service delivery, setting up a company and questions that members should ask officers when considering the development of a new delivery model. Are the checklists being considered as part of the development of the Authority's commissioning strategy?

Welfare reforms – what you think of it so far?

Grant Thornton

Reaping the benefits: first impressions of the impact of welfare reform.

The potential scope of this topic is broad, so our report, <http://www.grant-thornton.co.uk/en/Publications/2014/Reaping-the-benefit-First-impressions-of-the-impact-of-welfare-reform/> focuses on the financial and managerial aspects of welfare reform. This involves:

- Understanding the challenges currently facing local government and housing associations in regard to welfare reform and what organisations have been doing to meet this challenge in terms of strategy, projects and new processes.
- Reporting on the early indications of effectiveness following the implementation of these measures and the impact of reform.
- Providing early insight into challenges facing these organisations in the near future.

We have pulled together information from a variety of sources, including our regular conversations across the local government and housing sectors and surveying local authorities and housing associations in England.

We found that:

- In general, organisations have been very active in engaging with stakeholders and putting in place appropriate governance arrangements and systems to implement specific reforms. A minority of organisations did not fully exploit all the options open to them in preparing for reform.
- So far, the indication is that the impact of reform experienced by local authorities and partners has been managed effectively. This may be because the full impact has not yet been felt. Some worrying signs are emerging, including rising rental arrears, homelessness and reliance on food banks, which may be linked to the reforms.
- Looking ahead, further reforms, such as the implementation of universal credit and the move to direct payments present significant uncertainties and challenges over the next few years.

Challenge questions

- Has the Head of Benefits kept members informed of progress with stakeholder engagement and changes to governance arrangements to implement specific reforms?
- What impact assessment is the Authority carrying out on council tax localisation, the benefit cap and housing benefit, the spare room subsidy and changes to the Social Fund?
- Does the Authority have a plan in place or in development for the introduction of universal credit?
