

Draft 19/03/2012

Draft
Delivery agreement
Safer Bristol
Community Safety Officer

- Safer Bristol will work with the Neighbourhood Partnership to develop its Action Plan around community safety priorities (crime/disorder, drugs and alcohol harm and anti social behaviour) and deliver a programme of work in 2012/2013 to address the community safety issues identified through the Action Plan.
- Safer Bristol will report back on this Agreement at a NP meeting once a year, the date to be agreed by the NP.
- The Community Safety Officer acts as a single point of contact to wider Safer Bristol services and support for the Neighbourhood Partnership. The CSO will work within the NP area to gather local priorities to help inform the production of the Neighbourhood Profile within Safer Bristol's annual Crime & Disorder Strategic Assessment.
- The CSO acts as the problem-solving advisor to the NP, using the ID PARTNERS problem-solving process. The CSO will provide briefings on the Problem Solving Process on request.
- The CSO will support the delivery of Neighbourhood Forums and the forum process, tackling crime and community safety issues raised when appropriate.
- The CSO will work with communities and partners to resolve community issues around Crime and Community Safety - as identified through NP groups, other local groups and residents.

Community Safety Priorities for the area:

The Safer Bristol Strategic Assessment provides recommendations for the Neighbourhood Delivery Teams across Bristol. The recommendations for the North Bristol NDT covering Avonmouth and Kingsweston areas from the assessment are: tackle illicit drugs use and supply; reduce anti-social behaviour and its impact; address domestic violence and abuse.

Total recorded crime in the Neighbourhood Policing Area has reduced in recent years, in line with the citywide trend. A total of 50,495 crimes were recorded by the police in 2010/11, a decrease of 6.2% from the previous year. Moreover, in the year-to-date period from April to December 2011, there were 36,739 crime recorded, a further decrease of 5.1% compared to the same period in the previous year. From these figures it is estimated there will be around 49,000 crimes by the year end. Our strategic aim is to reduce total crime by 15% by 2014 (i.e. no more than 43,310 recorded incidents from the 2010 baseline).

In 2010/11 there were nearly 61,000 incidents of anti-social behaviour reported to the city's authorities, down 12% on 2009/10 figures. The Redland and Lockleaze Neighbourhood Policing Area had nearly 6,000 reported incidents of ASB in the period (a rate of 93 incidents per 1,000 population).

The Safer Bristol Strategic Assessment recommends that Dwelling Burglary and Theft From Motor Vehicle are targeted.

The common Neighbourhood Forum issues across the NP area are Traffic and Environment related. Issues relating inappropriate speeds of vehicles and cycling on the pavements have also been raised.

The CSO will support the area's NDT to act responsively to issues as they emerge by providing support around using the IDPARTNERS joint problem solving process and assisting in the development of problem solving plans.

Bishopston, Redland and Cotham Neighbourhood Partnership.
Community Safety Officer Delivery Agreement

	Priority/ Issue		Proposed Action	Who is responsible – lead agencies and/or people	Timescale	Measure / Monitoring	Update
