

BRISTOL CITY COUNCIL

Business Change and Resources Scrutiny Commission

28th September 2015

Report of: Patsy Mellor, Service Director Citizen Services

Title: Phoenix Court Citizen Service Point – Service Offer

Ward: Citywide

Officer Presenting Report: Patsy Mellor

Contact Telephone Number: 0117 3526218

RECOMMENDATION

The Commission are invited to monitor the impact of changes to the service offer at Phoenix Court Citizen Service Point (CSP) to reflect decreasing demand due to the transition of services from Phoenix Court CSP to 100 Temple Street CSP. This is part of a stepped approach to the transition of services and further detailed assessment of potential service delivery options in the future..

Summary

The new Citizen Service Point at 100 Temple Street opened in December 2014. Based on citizen insight with citizens at its heart, the new Temple Street CSP offers a significantly improved service offer for citizens. In addition to 'Assisted Digital' and enquiry resolution and advice from Citizen Service Advisors, the new service offer includes access as needed to specialist officers from 'back office' services that have relocated to 100 Temple Street as part of the Bristol Workplace Programme.

To enable more citizens to access the improved service offer at Temple Street CSP and increase the footfall and utilisation of the new CSP, we have been transitioning services from Phoenix Court CSP to Temple Street CSP on a gradual basis. Following the success of this approach, Change Board and Cllr Geoff Gollop (Deputy Mayor) have approved proposals to:-

- a) Continue to reduce service offer at Phoenix Court to further reduce footfall, leaving Housing Benefits as the remaining service 'by appointment'
- b) To close Phoenix Court 1 day per week on a Wednesday to enable the analysis of impact and trends. This will help inform further detailed analysis of potential service delivery options in the future..

The significant issues in the report are:

The Commission are invited to monitor the impact of changes to the service offer at Phoenix Court CSP including the transition of services from Phoenix Court CSP to 100 Temple Street CSP to date and further plans to continue this approach. This being, to reduce the service offer at Phoenix Court CSP 1 day per week to support detailed analysis to help inform future service delivery options..

Policy

1. The proposals support the council's corporate plan to be a flexible and efficient council which enables people to seek information, request services and engage with the council in a way that meets citizen needs at a time when the council has less money and needs to deliver efficient services.

Context

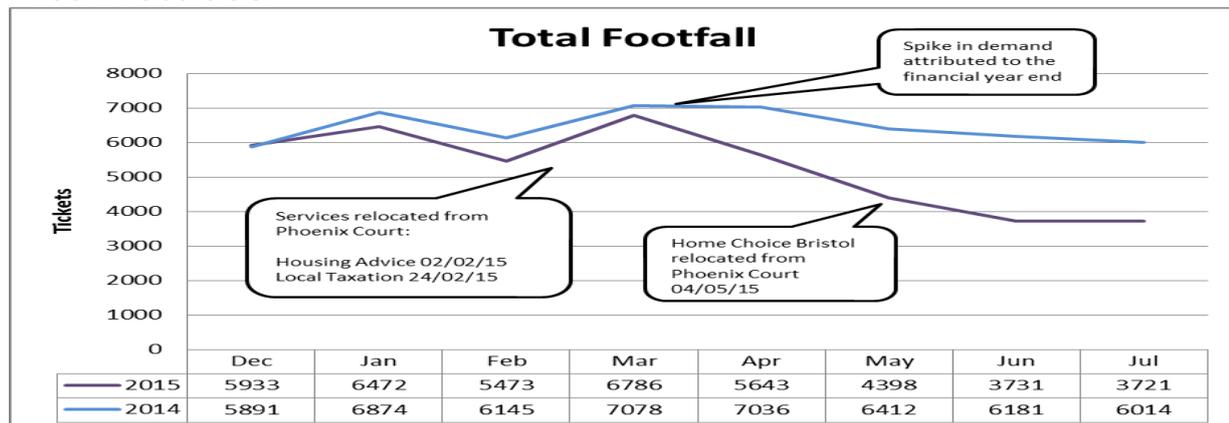

4. The new Citizen Service Point at 100 Temple Street opened in December 2014. Based on citizen insight with citizens at its heart, the new Temple Street CSP offers a significantly improved service offer for citizens. In addition to 'Assisted Digital' and enquiry resolution and advice from Citizen Service Advisors, the new service offer includes access as needed to specialist officers from 'back office' services that have relocated to 100 Temple Street as part of the Bristol Workplace Programme.
5. CSP 100 Temple Street offers a new approach for citizens. This includes an open plan layout with 'floor walker' hubs where Citizen Advisors are ready to greet citizens rather than the traditional counter or desk bound layout. A variety of seating options are available depending on need with the majority of citizen contacts taking place in the main office location rather than more formal meeting rooms.
6. Citizen & staff feedback about their experience in accessing services and working in the new CSP has been extremely positive. Comments from citizens include 'why can't it always be this easy', 'I didn't know that I could do that for myself, thank you for showing me' & 'this is so open and friendly'. Comments from Citizen Advisors include, 'It's really good to be able to communicate without barriers with everyone involved in a transaction' & 'the flexible working space is great to work in and seems to have a positive effect on everyone's mood'.
7. It is the case that the number of incidents of violence and aggression are significantly less at CSP Temple Street, even though the Homeless Advice Team (HAT) relocated their services from Amelia Court to Temple Street to coincide with opening in December. The Homelessness service at Amelia Court experienced very high levels of incident so is a demonstrable sign that the new layout and operating model is driving better behaviours in addition to improved citizen experience.

8. This also contrasts with the building design and layout at Phoenix Court CSP and limitations in capacity that has previously resulted in very long waiting times, frequent queuing outside on the pavement and a more formal traditional counter and desk based customer service and poor citizen experience. This has also resulted in incidents of violence & aggression.

9. To enable more citizens to access the improved service offer at Temple Street CSP and increase the footfall and utilisation of the new CSP, we have been transitioning 'appointment based' services from Phoenix Court CSP to Temple Street CSP on a gradual basis whilst still providing a 'drop in' service for 'quick' enquiries or signposting to other services as part of our commitment to excellent customer service and first contact resolution. Services that have transitioned are Housing/Homeless Advice, Home-Choice Bristol, Local Taxation and more recently parts of Estate Management & Travel and Transport.

10. The table below shows the level of footfall at Phoenix Court CSP from the time 100 Temple Street CSP opened in December 2014 to date in comparison to the same period in 2014. Overall the level of footfall has reduced from April 15 to date by 32% compared to the same period in 2014, and by 40% in June and July 15, compared to June and July 14.

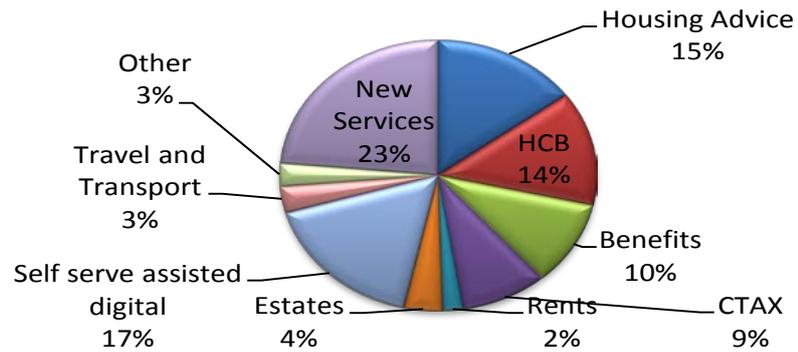

Phoenix Court CSP

11. In addition to the transition of services from Phoenix Court CSP, 'new' services have also been transitioned to Temple Street CSP as services have relocated from other buildings to Temple Street as part of Bristol Workplace Programme. The combination of footfall transitioned from Phoenix Court CSP and the new footfall from services relocating to Temple Street as part of Bristol Work Place Programme means that Temple Street is now the CSP with highest overall level of demand

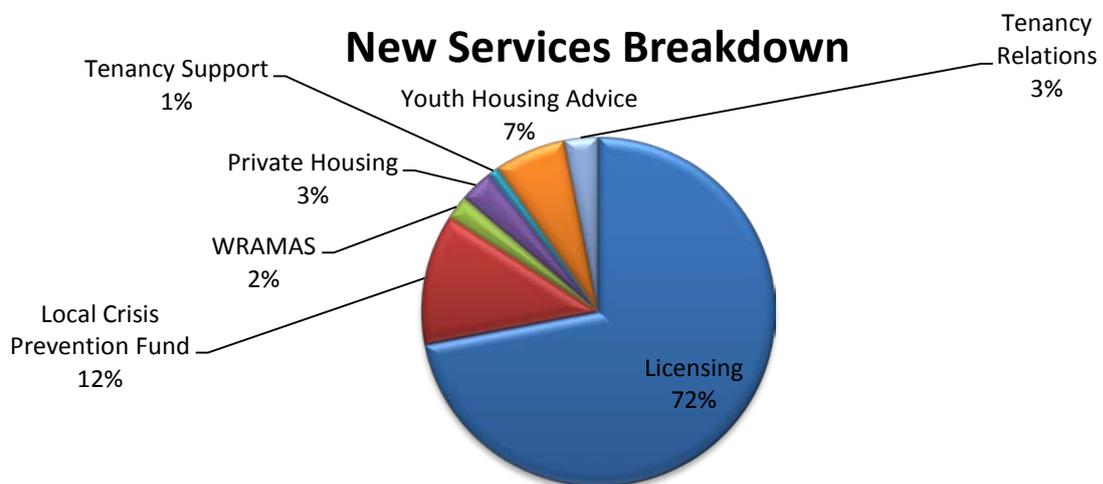

12. The chart below shows the 'Enquiry type' breakdown at Temple Street CSP and shows that 23% of the footfall relates to 'new' services.

Service Type Breakdown

13. The chart below shows the 'New Service' breakdown at Temple Street CSP and shows that 72% of the footfall relates to Licensing.

New Services Breakdown

14. Following the success of Temple Street CSP and the success of the transition of services from Phoenix Court CSP to Temple Street to date, Change Board and Cllr Geoffrey Gollop (Assistant Mayor), have approved the transition of the remaining Estate Management service which consists of appointments relating to ending a tenancy or issues relating to disputes, antisocial behaviour, Hate Crime and Domestic violence to reduce footfall further, leaving Housing Benefits as the remaining 'by appointment' service at Phoenix Court.
15. In addition, approval has been given to close Phoenix Court 1 day per week on a Wednesday to enable the analysis of impact and trends. This will help inform detailed analysis and assessment of potential service delivery options in the future.
16. Wednesday has been proposed as this coincides with a later opening time for staff training and development and is based on the assessment that sufficient capacity remains across other days of the week. It will also enable staff resources to be re-directed to Temple Street CSP and potentially Fishponds CSP to mitigate any impact from this change in addition to the potential for resource to be re-directed to support telephony services. It is envisaged this change will be from October, to allow sufficient time to inform citizens of the change.
17. Business Change Scrutiny Commission are invited to monitor the impact of the changes described above.

Other Options Considered

18. No other options have been considered.

Risk Assessment

19. No specific risks are identified other than a potential for increased demand on other days at Temple Street, Phoenix Court & Fishponds CSP's. This will be mitigated by close monitoring and ability to allocate resource flexibly and swiftly and if necessary Phoenix Court can reopen on Wednesday's.

Public Sector Equality Duties

- 8a) Before making a decision, section 149 Equality Act 2010 requires that each decision-maker considers the need to promote equality for persons with the following "protected characteristics": age, disability, gender reassignment, pregnancy and maternity, race, religion or belief, sex, sexual orientation. Each decision-maker must, therefore, have due regard to the need to:
 - i) Eliminate discrimination, harassment, victimisation and any other conduct prohibited under the Equality Act 2010.
 - ii) Advance equality of opportunity between persons who share a relevant protected characteristic and those who do not share it. This involves having due regard, in particular, to the need to --
 - remove or minimise disadvantage suffered by persons who share a relevant protected characteristic;

- take steps to meet the needs of persons who share a relevant protected characteristic that are different from the needs of people who do not share it (in relation to disabled people, this includes, in particular, steps to take account of disabled persons' disabilities);
- encourage persons who share a protected characteristic to participate in public life or in any other activity in which participation by such persons is disproportionately low.

iii) Foster good relations between persons who share a relevant protected characteristic and those who do not share it. This involves having due regard, in particular, to the need to –

- tackle prejudice; and
- promote understanding.

8b) An Equalities Impact Assessment was completed at the time Temple Street CSP opened and did not identify any issues that couldn't be reasonably addressed. This has been reviewed and no new issues identified.
