4	Written response received from Avon Wildlife Trust (AWT) who manage the adjacent nature reserve. AWT acknowledge that the site is not in optimal condition for habitats associated with SNCI, but are concerned that the long term management agreement of the wildlife area and species/habitat surveys should be completed prior to any approval of the development (full comments attached). <i>It should be noted that there are pre-commencement conditions suggested as part of the recommendation for approval, that relate to wildlife area management and species surveys.</i>
1	An additional neighbour consultation response was received, 23.06.15, which reiterates concerns previously raised.

	<p>Two additional representations from a local residents have been received objecting to the application:</p> <p>"This email is intended for the Development Control Meeting on 24 June when external lighting for Christ Church Primary is considered.</p> <p>I have previously submitted comments on the application for lighting of the multi use games area at Christ Church Primary. These are still valid but I now also wish to comment on the new proposal from the Planning Officers to allow the area to be lit one evening a week from 6pm to 9pm.</p> <p>In the consultation process with the school, the school stated that they only wished to "occasionally" light the area for evening use after 6pm. Allowing a weekly use is far more than occasional and opens the door for a regular weekly let which would be aimed at profit for the school rather than educational value for pupils.</p> <p>This is unacceptable in terms of disruption to local residents but most particularly it would make a mockery of the consultation process if what residents were promised</p>

	<p>by the school in good faith is overturned at thus stage of the process.”</p> <p>“Until the sports facility is up and running and being used with the lights, particularly in winter, it's hard to assess how much of an impact the lighting and noise is going to have on those of us who live close to the school and specifically close to where the facility is going to be. Wouldn't it be sensible to build in a mandatory review in, say, March 2016? Having a sports facility for use by the school and third parties is a great idea, but there should be an opportunity for neighbours and interested parties to be consulted further down the line and, as necessary, the parameters for usage amended.”</p>
