

DUNDRY VIEW NEIGHBOURHOOD PARTNERSHIP

21st March 2016

Title: Dementia Awareness Report

Officer presenting report: Tony Hall

Recommendation:

To gain a better understanding of Dementia within our community and beyond.

1. Background

Dundry View has seen several events covering the theme of dementia over the last few months. These events have sparked interest in the community and some of the Partnership members have attended and indicated that it would be of interest to the wider Partnership to know a little more on the subject.

2. Presentation

Tony Hall from the Bristol Dementia Action Alliance will be delivering a 10 minute presentation.

3. The future and why this is important to Dundry View

Within the Neighbourhood Plan we have priorities including

- a) Increasing emotional resilience that includes stigma around mental health and also promoting social inclusion.
- b) Addressing inequalities across all groups of residents
- c) Well trained, knowledgeable and informed residents and stakeholders.
- d) Tackle Hate Crime through activities such as Diversity Month

Increasing our knowledge and skills through presentations and training will enable us to better implement work and projects within our plan that aim to tackle an illness which is affecting a growing number of our local population.
