Comments

5 – Explore the possibility of producing the books digitally as well as hard back

6 – Funded half the amount with the other to be sought by the Residents group through fund raising or in kind gestures

7 – Private company, expensive costings for equipment and refreshments. Can a project like this be run in the community in community venues or libraries instead of a private home?

10 – Funded on the proviso that they include people from the GBCP area as well as cross boundary work. Also clarification needed to what will happen to the LEGO after the event and will they look to re-launch the project.

11 – Explore the possibility of delivering events at community events rather than Playing Out. E.g – Best of Bedminster Show & linking in with other specific festivals that are going on.
