

Agenda item No: 3

Public Resolution

“The BS3 Planning Group asks GBCP to note that the population of the area has increased and will increase, especially as more brown-field sites in BS3 are developed for housing. We are concerned that this will place still further pressures on the infrastructure of the area, including on doctors’ surgeries, parks, young people’s organisations and nursery and school provision.

We urge GBCP to request a report from BCC setting out the background to these developments, an assessment of the pressures on infrastructure and proposals for mitigation.”

I’ve included the GBCP Board and others for information.

The BS3 Planning Group also includes Windmill Hill ward and we request that the same resolution should go to the next meeting of Windmill Hill’s NP.

Ben Barker on behalf of BS3 Planning Group
