

## AGENDA ITEM NO. 10

### STOCKWOOD, HENGROVE & WHITCHURCH NEIGHBOURHOOD PARTNERSHIP 9<sup>TH</sup> DECEMBER 2015

**Title:** Local Traffic Schemes & Minor Works 2016/17

**Report author:** Ariaaf Hussain – Neighbourhood Partnership Coordinator

#### RECOMMENDATION

To agree the allocation of the 2016/17 Highways budget allocation

Budget (overall)

Traffic Scheme

Minor Signs and lines

Minor works

To note future traffic schemes (subject to discussions with Highways Team)

To note the Minor Works requests

1. The Partnership has £17,143 to allocate towards minor lines and signs, a Local Traffic Scheme and Minor Works for 2016/17
2. Previously the Partnership has approved £1,500 for minor lines and signs (to be spent at officer's discretion) and £3,000 for minor works, with the remaining to be allocated to a local Traffic Scheme
3. The suggestion for 2016/17 is that the Partnership allocates the budget as follows:
  - Minor signs and lines - £1,643
  - Local Traffic Scheme - £15,500

- Minor Works – to be allocated from the Neighbourhood Budget as schemes are identified through reports to the Partnership

4. The Partnership is required to identify a traffic scheme for delivery by highway for 2016/17

- The partnership can only take forward one scheme for progress per financial year
- It can identify additional schemes for future years
- There is no restriction on the number of Minor Works that the Partnership can suggest. The issue would be the budget available for delivery of the Minor Works requests

5. Members of the Partnership met on 6<sup>th</sup> October 2015 to discuss the Highways issues that have been raised and identified on the Traffic Choices web portal.

- The Partnership has identified for recommendation future traffic schemes in the tables below (depending on budget availability)
- The Partnership with the Highways Team has identified potential Minor Works raised with in Traffic Choices website up to November 2015.

6. Minor works are measures that do not need significant design, consultation or legal work. Examples could include footway bollards, coloured surfacing, benches or dropped kerbs to aid pedestrian access. All requests will be reviewed by highway officers and reported for approval at the next Neighbourhood Partnership meeting.

### **Equalities impact assessment**

5. An Equalities Impact Relevance Check has been undertaken and determined that due to the fact that this decision has no impact on those with protected characteristics in the following ways a full equalities impact assessment is not required:
  - access to or participation in a service;
  - levels of representation in BCC workforce; or
  - reducing quality of life (i.e. health, education, standard of living)
6. Further Equalities Impact Relevance Checks will be undertaken during the development of each scheme so that the specific impact of that scheme can be considered as the detail evolves.
