Female Genital Mutilation (FGM) Delivery and Safeguarding Children Partnership Terms of Reference

1 Introduction

FGM is a form of Child Abuse and is against the law. It is everybody's duty to report safeguarding information to social care and the police so women and girls can be protected. We all need to work together to share intelligence to reduce the risk of this form of abuse continuing. Our aim is to prevent FGM but we also need to be vigilant to cases where FGM has happened and the risks to other family members

The Female Genital Mutilation (FGM) Delivery and Safeguarding Partnership is a group of statutory agencies, voluntary groups, charities and members of Bristol's local communities working together with the common goal of stopping FGM.

This group reports to the Bristol Safeguarding Children Board (BSCB) and the Bristol Domestic and Sexual Abuse Strategy Group coordinated by Safer Bristol Partnership.

Purpose

- To provide a Bristol-wide, multi-agency response to Female Genital Mutilation that aligns with national policy and local need
- To ensure multi-agency co-ordination of all work relating to FGM in Bristol
- To ensure that all work relating to FGM is communicated to and linked with the Bristol Safeguarding Children Board and the Bristol Domestic and Sexual Abuse Strategy Group
- To raise the profile of the FGM Delivery and Safeguarding Partnership and partner agencies' work

Objectives:

- To review and support the development and provision of all local work around FGM
- Work with and empower people from affected communities including women, young people, men and people of influence within the communities
- To support and work with all activities which aim to either prevent FGM and/or support those who have already undergone FGM
- To raise awareness of the health implications of FGM amongst professionals and the public.

- To raise awareness of the illegality of FGM amongst professionals and the public.
- To develop and revise guidelines and training for professionals relating to FGM in line with local and national guidance and legislation.
- To identify gaps in agencies' knowledge.
- To encourage detection and referrals and multi-agency sharing of information related to FGM.
- To coordinate the annual FGM summer campaign and the FGM Zero tolerance campaign in February
- To share local learning and expertise further afield.
- To provide an annual report to the Bristol Safeguarding Children and Adult Boards and the Bristol Domestic and Sexual Abuse Strategy Group on activity around FGM.
