1	Tom Horn	Proposal for bike parking enhancement at Kingsway Parade
2	Harry Simpson	Proposals for St Matthias and the Dings parks improvements

Proposal for bike parking enhancement at Kingsway Parade utilising section 106 funds

As a concerned and proactive resident of the vicinity of Nags Head Hill, St. George, I wish to propose the utilisation of Section 106 funds from the development project (*Planning reference: 06/05045*) at 77 and 97 Nags Head Hill, for the establishment of robust bike parking facilities at Kingsway Parade.

Kingsway Parade, being a publicly owned open space, presents an excellent opportunity for enhancing bike parking which in turn encourages cycling, reduces traffic congestion, and contributes to a healthier, more sustainable community. The specified funds aimed at improving parks and open spaces within a mile radius of the mentioned development project can significantly contribute towards this initiative, aligning with the broader goals of promoting eco-friendly transportation solutions in our area.

This proposal underscores the community's need for better cycling infrastructure while making efficient use of available resources to create a more sustainable and accessible urban environment. I am hopeful that the Area Committee 4, in collaboration with other local stakeholders, will consider this proposal for the betterment of our local community and the promotion of greener transportation alternatives.

Thank you for considering this proposal.

Tom Horn

"Old Market Community Association appreciates having our proposals for St Matthias and the Dings parks improvements, AC423P21 and AC423P23, being awarded the highest priority by councillors, and encourage the area committee to progress these proposals to the Full Project Proposal stage. We would appreciate guidance and advice from the transport department if they are progressed. Improving the Dings park and pedestrianising St Matthias Park will greatly benefit and protect vulnerable residents by providing residents with improved play equipment, repairing community assets, protecting vulnerable road users and providing shaded public space."

Thanks for all your help Allison.

Kind regards,

Harry Simpson (he/they)
