

**01**  
Bespoke purpose made service entrance gate with distinctive archway suitable for high sided vehicles. Colour of Unit is to be black to match existing railings.

**02**  
Directly in front of Gates and Archway provide and install a 3100mm wide x 10.5 metre tarmac hardstanding for service vehicles to park in wet conditions.

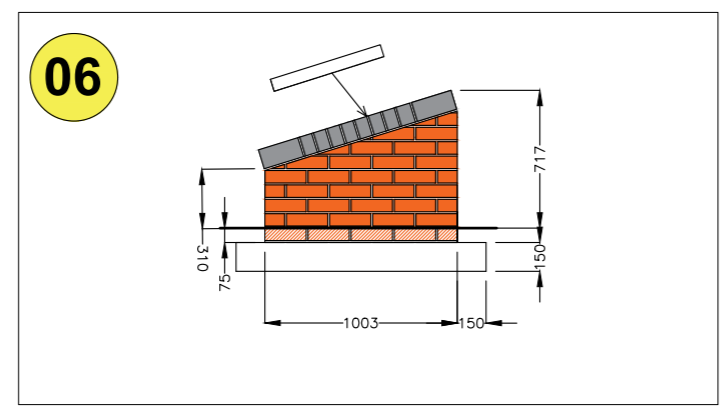

**03**  
KBI FLEXI-PAVE HD 1500 Laid by specialist contractors. Flexipave is similar in appearance to Tarmac but is suitable to be laid near to and around Trees.

**04**  
South West Boundary wall is to be repointed where necessary. Pointing is to be Ribbon pointing as shown on photograph, in addition sections of the stonewall need to be repaired.

**05**  
Inclined interpretation board suitable for people to read who maybe in a wheel chair. Board is also located on a flexible hardstanding.

**06**  
Inclined plinth to house memorial plaque. Plinth will be constructed of Red and blue engineering brick and will be constructed to protect the the existing stone plaque.

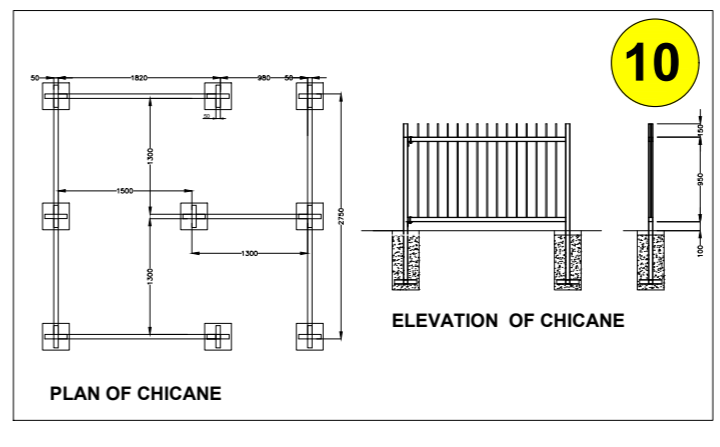

**07**  
St John's Memorial to be relocated in new centralised location, as shown on site plan.

**08**  
Replace two number park lights with two new Victorian style low energy Street lights.

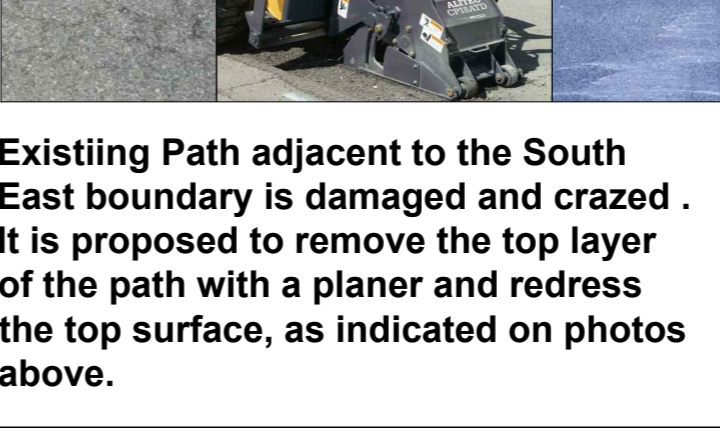

**09**  
Bollards to be repainted.

**10**  
Provide and install small Chicane to main entrance to park opposite Church Road.

**11**  
Provide and install new Tarmac path 1500mm wide and edged with concrete pre-cast edging.

**12**  
Existing Path adjacent to the South East boundary is damaged and crazed. It is proposed to remove the top layer of the path with a planer and redress the top surface, as indicated on photos above.

**13**  
Provide and install new Stainless steel hand rail above existing steps.

**14**  
Existing Fence to be professionally Repainted, and wall repointed and repaired as necessary.
