

NP3 Communications Group Update, May 2017

1. Quarterly meetings

The last group meeting took place in January. It was agreed not to meet in April as there is currently no clear message to communicate to residents other than that NPs are being discontinued.

2. May Forums

A poster advertising the Henleaze Forum was circulated to NP Councillors and Ward Representatives on 25 April so that it can (if required) be adapted for use in Westbury-on-Trym and Stoke Bishop.

3. Actions to be taken

As and when we have clarity about the way forward, the following actions (as a minimum) will be necessary.

- a) *Data*: We are awaiting a response from Bristol City Council about the transfer of mailing lists to any new groups that may be formed. It is noted that the General Data Protection Regulation comes into force on 25 May 2018 and this should be taken into account when/ if mailing lists are transferred.
- b) *Media*: Editors of local publications need to be updated and advised of future ward/ group contacts.
- c) *Website*: The NP3 website has been updated with currently available information. Consideration needs to be given as to how long the current site should be maintained and about any links to other/ newly created websites that may be necessary.
- d) *Facebook*: A NP3 site was set up last year by Gary Brentnall. The site is no longer managed and receives only a few visitors. A way forward needs to be agreed.
