

## Eco Impact Checklist

**Title of report: Bristol Community Links**

**Report author: Sonia Moore**

**Anticipated date of key decision 4<sup>th</sup> December 2017**

**Summary of proposals:** In order for the service to operate within its revised budget from April 2020, a number of changes are recommended to the current operation of the service. Specifically these are to:

1. Transfer the provision of transport to and from the Links Centres to BCC Passenger Services from 1<sup>st</sup> April 2018.
2. Remove automatic entitlement to transport provision, on a case by case basis. Where there is appropriate transport available (either personal or public transport), it will be assumed that the service user will use this as a first option. People who receive higher rate mobility disability allowance will be expected to apply and use this as and when appropriate according to assessed needs.
3. Undertake the relevant Management of Change processes to achieve efficiencies from the staffing budget, while maintaining service delivery for vulnerable adults. The detail is yet to be agreed and will be fully consulted on following a Cabinet Decision.
