Well Connected:

17

Take bold and innovative steps to make Bristol a joined up city, linking up people with jobs and with each other.

Wellbeing:

More about this Business Plan

The aim of this business plan is to show what actions we will take in 2018/19 to make progress on the commitments that we have made. Some actions will start within this period but continue beyond it. Where this is the case, it has been indicated. The actions will make sure we spend our money, time and resources as effectively as possible. To keep this plan relatively short and simple, only the top level actions and most important measures of our success have been included. Some actions may relate to more than one commitment, but are listed below next to the most relevant one.

In some cases we are anticipating actions we might take, but these are subject to full consideration and a decision being made by the council's Cabinet. We have indicated where this is the case.

The actions are organised under the four strategic themes. Our hope is that any citizen of Bristol, partner or council colleague will be able to read this plan and understand what we are doing to achieve our commitments and vision.

This plan covers a significant amount of work – all of our colleagues and a range of partners are contributing to it.

To help make the plan as easy as possible to understand, we have:

- Shown which lead department and cabinet member are responsible for making sure each action is taken
- Included links to strategies or policies that the actions refer to
- Included a glossary of useful terms – these are indicated with an* throughout the document.
- Shown how we are going to know that our actions are taking place and making a difference.

Part of the council's role is to meet what are called statutory and regulatory obligations and other requirements set through national legislation or policy. Examples include highways maintenance, waste collection or providing school places. To keep this plan brief, the actions only refer to these where they are relevant to a key commitment, but you can take it as read that a significant amount of our time and resource will be spent ensuring we comply with these legally required obligations.

Underpinning all of our work is the need to innovate and deliver our priorities to the highest standards. Further information on how we achieve this is detailed in a section at the end of this plan called Corporate Services and Organisational Support.

Empowering and Caring:

Work with partners to empower communities and individuals, increase independence and support those who need it. Give children the best possible start in life.

This theme focuses on providing targeted care, support and protection to our most vulnerable citizens. It also emphasises empowering and enabling people to be independent and self-sufficient wherever possible. It covers areas of our work such as Children's Services, tackling homelessness, Adult Social Care, Public Health and Community Development.

What are our key aims for the city, relating to this theme?

Working with the city and our partners wherever possible, we are

- Making sure that every child gets the best possible start in life
- Minimising rough sleeping and homelessness in Bristol and enabling citizens in need of housing to access affordable, appropriate accommodation
- Making sure that vulnerable people in the city continue to be protected and cared for
- Working with citizens and partner agencies to enable people to be involved in and help develop community activity.

There are a number of challenges involved in this. These include:

- Population growth which leads to an increased demand for the services we provide
- Supporting people to be involved in their communities requires input and resources that are limited
- Changes in the law that could impose new or additional responsibilities or pressures on services (for example, Welfare Reform; The Care Act)
- Working with a wide range of partners and organisations, both inside and outside Bristol's boundaries (e.g. in Health and Social Care) that needs to be effective and takes time and effort on all sides to get right
- Inequalities that exist across the city and impact on the health, education and quality of life for many people, and that take time to change.

- Increase the percentage of local authority tenants who are satisfied with the service they have received from the council to 77% from 74% in 2017/18

Developing and maintaining the council and city's infrastructure under this theme will include:

1. Providing enough suitable school/education places to meet growing demand. This will involve building new schools and providing new spaces in existing facilities
2. Using government grants to make sure that school buildings are fit for purpose
3. Supporting local communities to take over or help run local assets such as buildings and services where appropriate
4. Creating more educational spaces for people with Special Educational Needs and Disability (SEND).

Fair and Inclusive:

Improve economic and social equality, pursuing economic growth which includes everyone and making sure people have access to good quality learning, decent jobs and homes they can afford.

This theme focusses on tackling inequality – a significant issue in Bristol that is addressed throughout our Corporate Strategy. It includes providing more affordable housing, supporting economic growth that benefits everyone, improving educational outcomes for all children, and dealing with any unwelcome consequences of gentrification*.

What are our key aims for the city, relating to this theme?

Working with the city and our partners wherever possible, we are:

- Building more affordable housing to meet demand
- Improving attainment in education, making sure all children from all backgrounds are supported to reach their potential and making sure there are enough school places
- Developing a diverse and inclusive local economy
- Building communities where everyone feels welcome and tackling any negative effects of gentrification.

There are a number of challenges to making this happen. These include:

- Population growth which leads to an increased demand for the services we provide
- Changes in the law, such as Welfare Reform, that will impact on the incomes of some residents and what they can afford to spend on housing
- Issues such as gentrification that are linked to a housing market where demand far outstrips supply. The less welcome consequences of this include rises in local house prices and in private sector rents. Addressing these issues will require input from a range of landlord, agent, advice and tenant organisations to make sure that accommodation for private tenants is safe, well-maintained and affordable
- Practical challenges that impact on providing more housing. These include the lack of large, suitable sites for housing; reduced revenue for registered providers of social housing; and credit restrictions that make it more difficult for people to get mortgages
- Having suitable levers/controls to affect and improve economic growth
- Uncertainty around Brexit that has implications for future investment in the city
- The requirement for partner organisations to support some of our commitments that the council cannot deliver alone
- Inequalities that exist across the city and impact on the health, education and quality of life for many people, and that takes time to change.

Well Connected:

Take bold and innovative steps to make Bristol a city which is better connected, linking up people with jobs and with each other.

This theme focuses on transport and transport-related issues, as well as other forms of connectivity – addressing issues such as social isolation, unemployment and lack of access to the internet. It also looks at how to engage more people in civic life, by providing information that will help them make decisions, and by helping people make their voices heard about matters that concern them.

What are our key aims for the city, relating to this theme?

- Giving people a range of transport options that connect them to jobs and related opportunities such as education, training and cultural activities
- Making progress towards being the best digitally-connected city
- Reducing social and economic isolation
- Helping people develop a sense of belonging to their city and show that we are responding to their needs.

There are a number of challenges to making this happen. These include:

- Population growth which leads to an increased demand for the services we provide and has impacts on the city's capacity. For example, car ownership in the city rose by an additional 25,000 cars between 2001 and 2011
- The geography of Bristol (hills, river crossings, rail lines, an historic road layout), that presents challenges when seeking to improve easy travel. A hilly city can present issues, for example when trying to promote alternative modes of travel, such as cycling, or when considering such issues as becoming an 'age friendly city' (to reduce social isolation)
- Attracting funding that we need for further investment in our transport infrastructure and which cannot be guaranteed
- Issues, such as digital exclusion, that can be made harder to address because of the impact of budget cuts elsewhere, such as a reduction in the number of community buildings/facilities
- Having suitable levers/controls to improve transport connectivity at a city-wide and sub-regional level
- Inequalities that exist across the city and impact on transport options for many people, and which can contribute to issues such as social isolation and digital and economic exclusion.

Well Connected in 2018/19

Wellbeing:

Create healthier and more resilient communities where life expectancy is not determined by wealth or background.

This theme tackles the wellbeing of Bristol citizens. Wellbeing cuts across many areas of our work, all of which must consider their impact on the health of people living and working in Bristol. It includes tackling health inequalities and the harmful effects of poverty and low income; protecting the environment and air quality; and the provision of cultural and sporting services to enhance wellbeing.

What are our key aims for the city, relating to this theme?

- Embedding health in all our policies, in order to reduce inequalities that exist across the city and reduce the demand for acute services*
- Reducing our environmental impact by using clean energy, improving air quality and reducing waste and pollution
- Tackling food and fuel poverty
- Improving wellbeing by making sure that sporting and cultural activities are available to all.

There are a number of challenges to making this happen. These include:

- Population growth which leads to an increased demand for the services we provide
- Inequalities in both physical and mental health that are deeply entrenched and have not shown any clear signs of reducing in the last 10 years
- Air pollution that adversely affects people's health and can contribute to premature death
- Climate change and the risk it poses for the future resilience of our city (for example in terms of increased flood risk)
- Uncertainty around Brexit and how potential changes to legislation will impact on services (such as EU targets around waste and recycling)
- Changes in the law, such as Welfare Reform, that will have widespread implications and are likely to impact on issues such as food and fuel poverty
- The requirement for partner organisations to support some of our commitments that the council cannot deliver alone.

Glossary of useful terms

Words included in this glossary are shown with an asterisk (*) in the Business Plan

Empowering and Caring

Key Commitment 2

Social impact bonds – Formal contracts that bring investment from the private sector into social welfare programmes to help solve complex social issues. For example, an NHS Trust might fund an early intervention programme (e.g. to alleviate fuel poverty) run by the voluntary and community sector by committing some of the future savings expected from reduced hospital admission costs as a result of this programme.

Outreach team – Staff who work with people who are rough sleeping and try to help find them find temporary and/or permanent accommodation.

Charity Guardianship schemes – When live-in guardians, recruited by the charity sector, occupy, protect and manage empty properties.

No first night out model – This pilot project aims to prevent people from ever spending a night rough sleeping by offering intensive support and interventions to either keep them in their existing place or to identify other accommodation options.

Affordable housing - Social rented, affordable rented and intermediate housing, provided to eligible households whose needs are not met by the market. Eligibility is determined with regard to local incomes and local house prices.

Key Commitment 3

Better Lives – This programme of work brings together a range of existing and new projects to deliver the new vision for how Adult Social Care is delivered. People will get the right help at the right time to promote independence and to reduce the need for long-term support.

Reablement – A short and intensive service, usually delivered in the home, which is offered to people with disabilities and those who are frail or recovering from an illness or injury.

Assistive Technology – Equipment or devices designed to improve a person’s capabilities and independence, often used by people with disabilities.

Tier 1 and 2 services – These are part of the “3-tier model for care and support” in Adult Social Care. Tier 1 services are available to everyone (Help to help yourself) and Tier 2 services are short term and reablement services for those who need specific support (Help when you need it). The 3rd tier includes long-term personalised support where this is required (Help to live your life).

Fair and Inclusive

Gentrification – When wealthier people move into poorer parts of a city or community, and the nature of that community changes as a result. This can have positive effects, such as bringing services and shops back to a community or neighbourhood, but it can also have negative effects, such as increasing prices and rents in the area. It can make people who have lived in an area for a long time feel isolated from familiar services, cultures and friends.

Key Commitment 1

Housing Revenue Account – This records all expenditure and income relating to the accommodation and related services that we provide. The Local Government and Housing Act 1989 (section 74) requires us to complete this.

Key Commitment 2

Attainment 8 and Progress 8 became the lead Department for Education (DfE) measures of pupil performance in 2016, for pupils at the end of Key Stage 4 (age 16). Attainment 8 is a measure of overall GCSE performance across 8 subjects, including English and maths. DfE explanation is at:

Key Commitment 4

Equalities Charter – A shared agreement that sets out how organisations across the city will help to build a fairer future for all Bristol’s citizens.

Well Connected

Key Commitment 1

The council’s Operations Centre project – This brings some of Bristol’s critical support services together within one building. These include the Emergency Control Centre, Traffic Control Centre and Community Safety (CCTV) Control Rooms.

Mass transit system – this is a high frequency system able to transport large numbers of people quickly around the city without being affected by unexpected delays caused by congestion

Wellbeing

Acute services – Medical and surgical treatment provided mainly in hospitals and minor injury units, i.e. short-term treatment for a severe injury or urgent medical condition.

Key Commitment 1

Delayed Transfers of Care – When a patient is ready to leave a hospital or similar care provider but is still occupying a bed. Delays can occur when patients are being discharged home or to a supported care facility, such as a residential or nursing home, or are awaiting transfer to a community hospital or hospice. This can cause considerable distress and unnecessarily long stays in hospital for patients. They also affect waiting times for NHS care, as delayed transfers reduce the number of beds available for other patients.

Key Commitment 2

Particulate air pollution – a specific aspect of air pollution, regarding air that is contaminated by particles such as dust, pollen, soot, smoke and liquid droplets. Many of these can harm our health, especially very small particles that can enter deep into the lungs.

Key Commitment 3

Food poverty – The inability to afford, or to have access to, food to make up a healthy diet. There are several definitions of food poverty, but overall if people have a poor quality diet AND do not have the resources or access to sufficient or appropriately nutritious food necessary for a healthy life, then they are experiencing food poverty.

Fuel poverty – when people cannot afford to keep their homes sufficiently heated when the weather is cold. This can be due to a combination of low income, poor household energy efficiency and/or high energy prices.

Corporate services and organisational support

Social Value – A way of thinking about how scarce resources are allocated and used when commissioning services or awarding a contract, in order to support micro, small and medium- size businesses, social enterprises and voluntary / community organisations.
