

Clean Streets Enforcement Contract- change of contactor

Lindsay Hay, Neighbourhood Services
Manager

Clean Streets enforcement

Background

- Pilot project with Kingdom Environmental Services to tackle environmental enforcement started 6 November 2017
- Longer term contract with 3GS started 5 February 2019
- <https://news.bristol.gov.uk/news/3gs-set-to-take-on-environmental-enforcement-role>
- Over 13,000 Fixed Penalty Notices served by contractors during the past 16 months

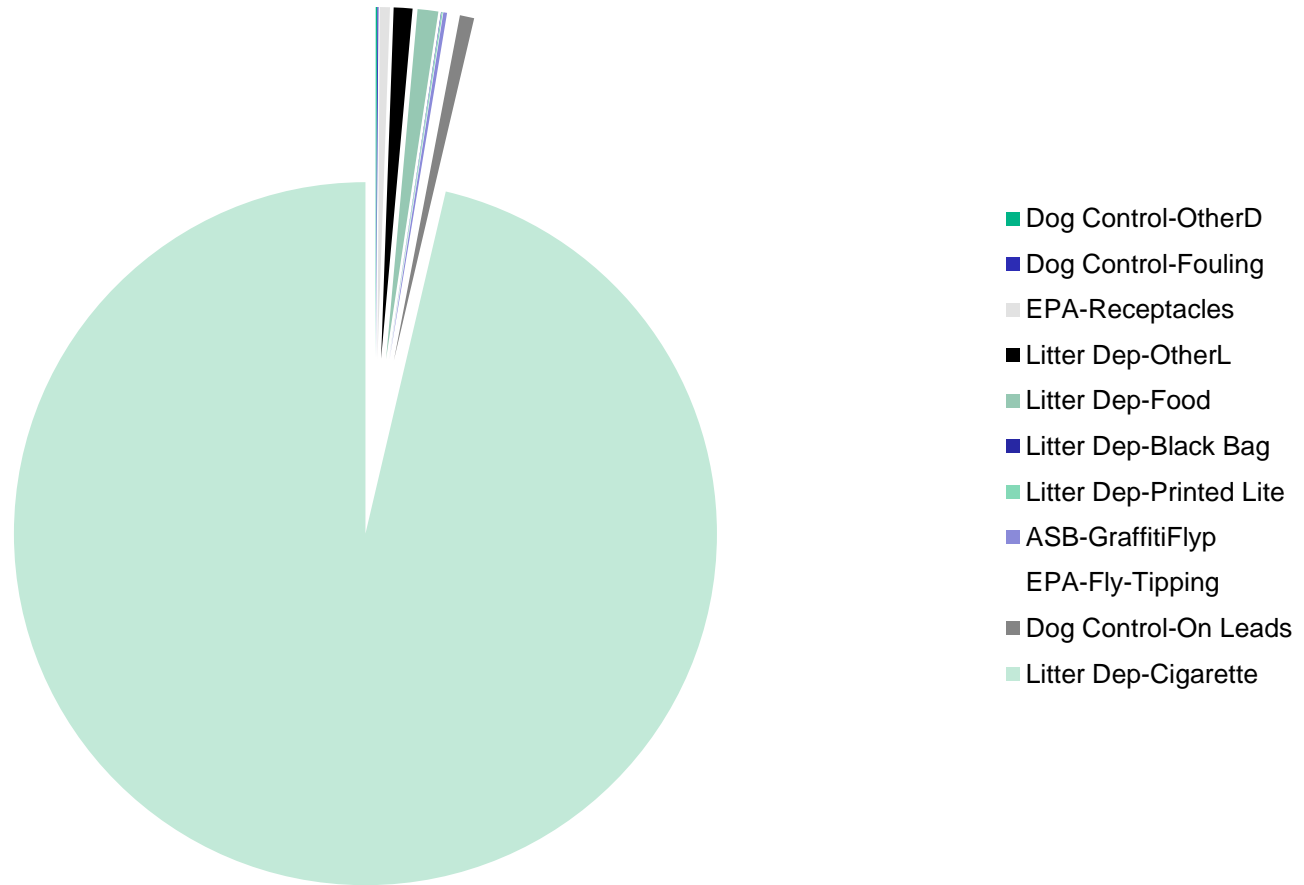

How is the change of contactor affecting operations?

- 3GS has significant experience in the field of environmental enforcement and provides 13 environmental enforcement contracts across the UK.
- Since 3GS started we have seen more action taken against a wider range of offences.
- too soon to make other comparisons

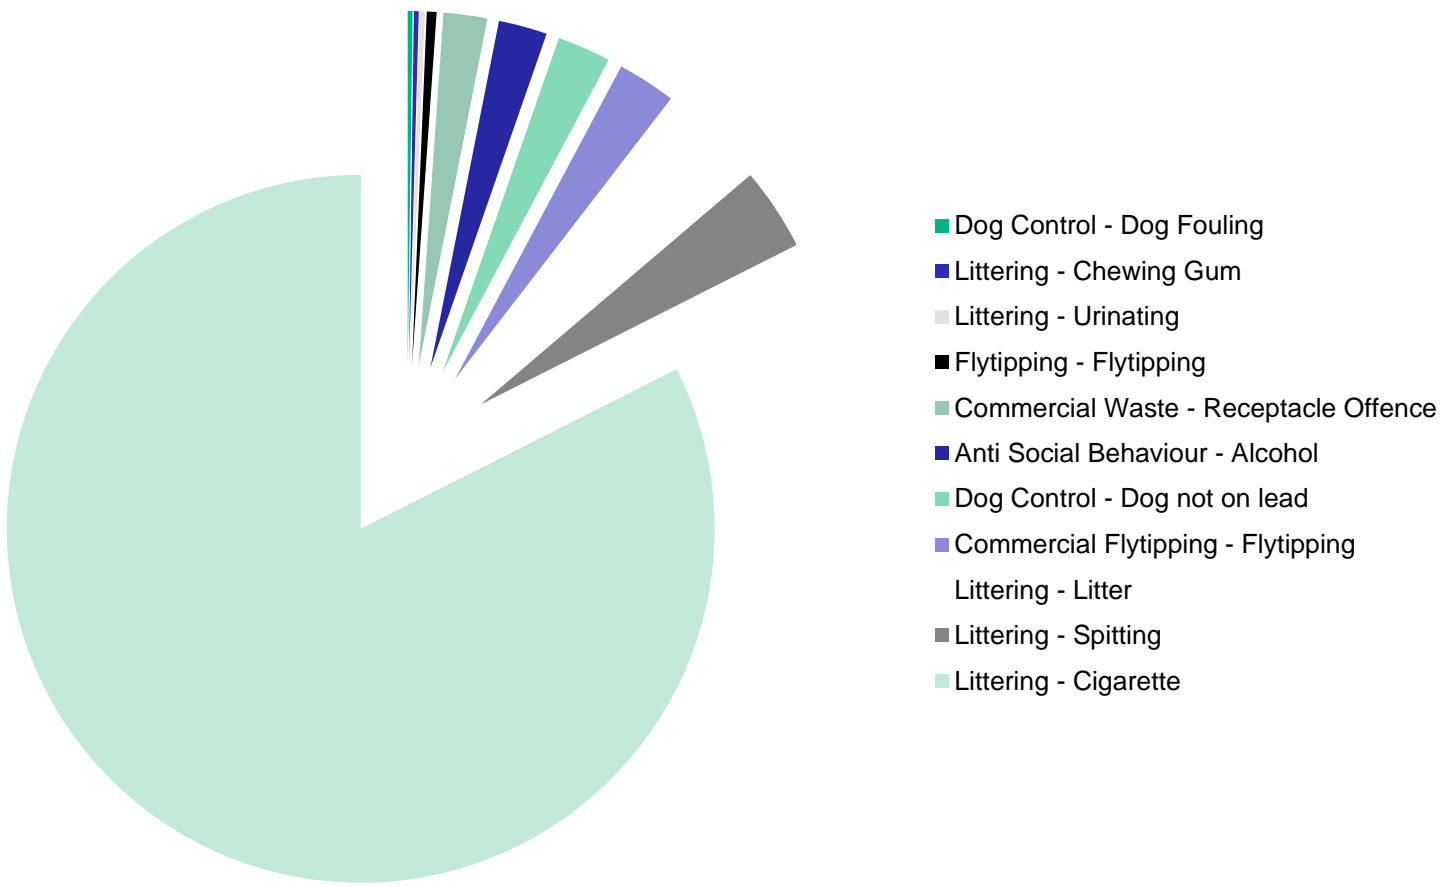

How is the change of contactor affecting operations?

- Kingdom Environment Crime Breakdown

How is the change of contactor affecting operations?

- 3GS Environment Crime Breakdown

How are members being consulted?

It is proposed:

- That party group leads meet with 3GS to discuss enforcement
- To hold half yearly performance update meetings with councillors
- To circulate a form to councillors that makes it easy to submit requests for 3GS to do enforcement work in their wards
- That as soon as enforcement activity information on a ward basis is available this is provided to councillors
- Continue to publish performance information on the BCC website
