WOP4	BCP501a	Projected forecast outturn as a percentage of approved budget (BCC)	-	99.4%	100.0%	100.8%	101.2%	↓	Denise Murray, Mike Pilcher	Overspend of £4.3m forecast at the end of September, predominantly within Adult Social Care, Education and Facilities Management. This has increased since the end of June. Management actions are expected to be taken which will bring this will be in line with available resources by year end. This is monitored on a regular basis by management and reported to Cabinet.
WOP4	BCP502	Increase the percentage of invoices paid on time (BCC)	+	80.30%	90.00%	82.74%	81.69%	↑	Denise Murray, Mike Pilcher	Performance has improved compared to the previous fiscal year and we are striving to meet target. Additionally, a reporting framework has been delivered providing a high level analysis of the reasons for late payment with further improvements to these reports in train. Notifications to Budget Managers have been implemented but compliance with the purchase order process continues to be an issue across all directorates.
WOP4	BCP503	Maintain the percentage of Council Tax collected	+	96.82%	96.82%	27.96%	54.96%	↓	Martin Smith	Council Tax collection for September 2019 shows a decrease of £81k on last month's deficit of £461k. Changes in debit, after billing, fluctuate according to cycles and in particular the end of the student academic year. This will balance itself out over the coming months and there is no concern regarding the reduction and reinstatement of exemptions, at this stage. The introduction of a new online 12 instalment form at the beginning of the year and the increased use of our other automated online forms has seen a greater number of citizens opting to pay Council tax over 12 instalments and has resulted in Council tax instalments being deferred to February and March 2020. The monthly profile from October 2019 has been altered to reflect this trend. End of year collection target is still expected to be met.
WOP4	BCP504	Increase the percentage of non-domestic rates collected	+	98.31%	98.35%	28.38%	56.05%	↓	Martin Smith	Business Rates collection for September 2019 shows a deficit of £1.05m. Some large assessments have recently been billed or had their payment plan adjusted, with instalments being moved to February and March. Adjusting the in-year target profile for the latter months is being considered and may be adjusted from next month if significant. The collection fund deficit for 19/20 is £1.6m and the majority of the deficit is brought forward from previous financial years and the on-going effect of successful appeals or reductions due to significant refurbishment works. Based on collectable business rates, confidence remains that the year-end collection target is achievable.
