

Homelessness & Rough Sleeping

let's not return to normal

Where we were (pre CV)

- 120 people sleeping rough
- 140 people in shelters
- 600 households in TA
- 1100 + in hostels and other supported housing
- 13,000 households on waiting list

- Social lettings reducing year on year
- Private renting sector access difficult
- Gaps in support and health provision and funding

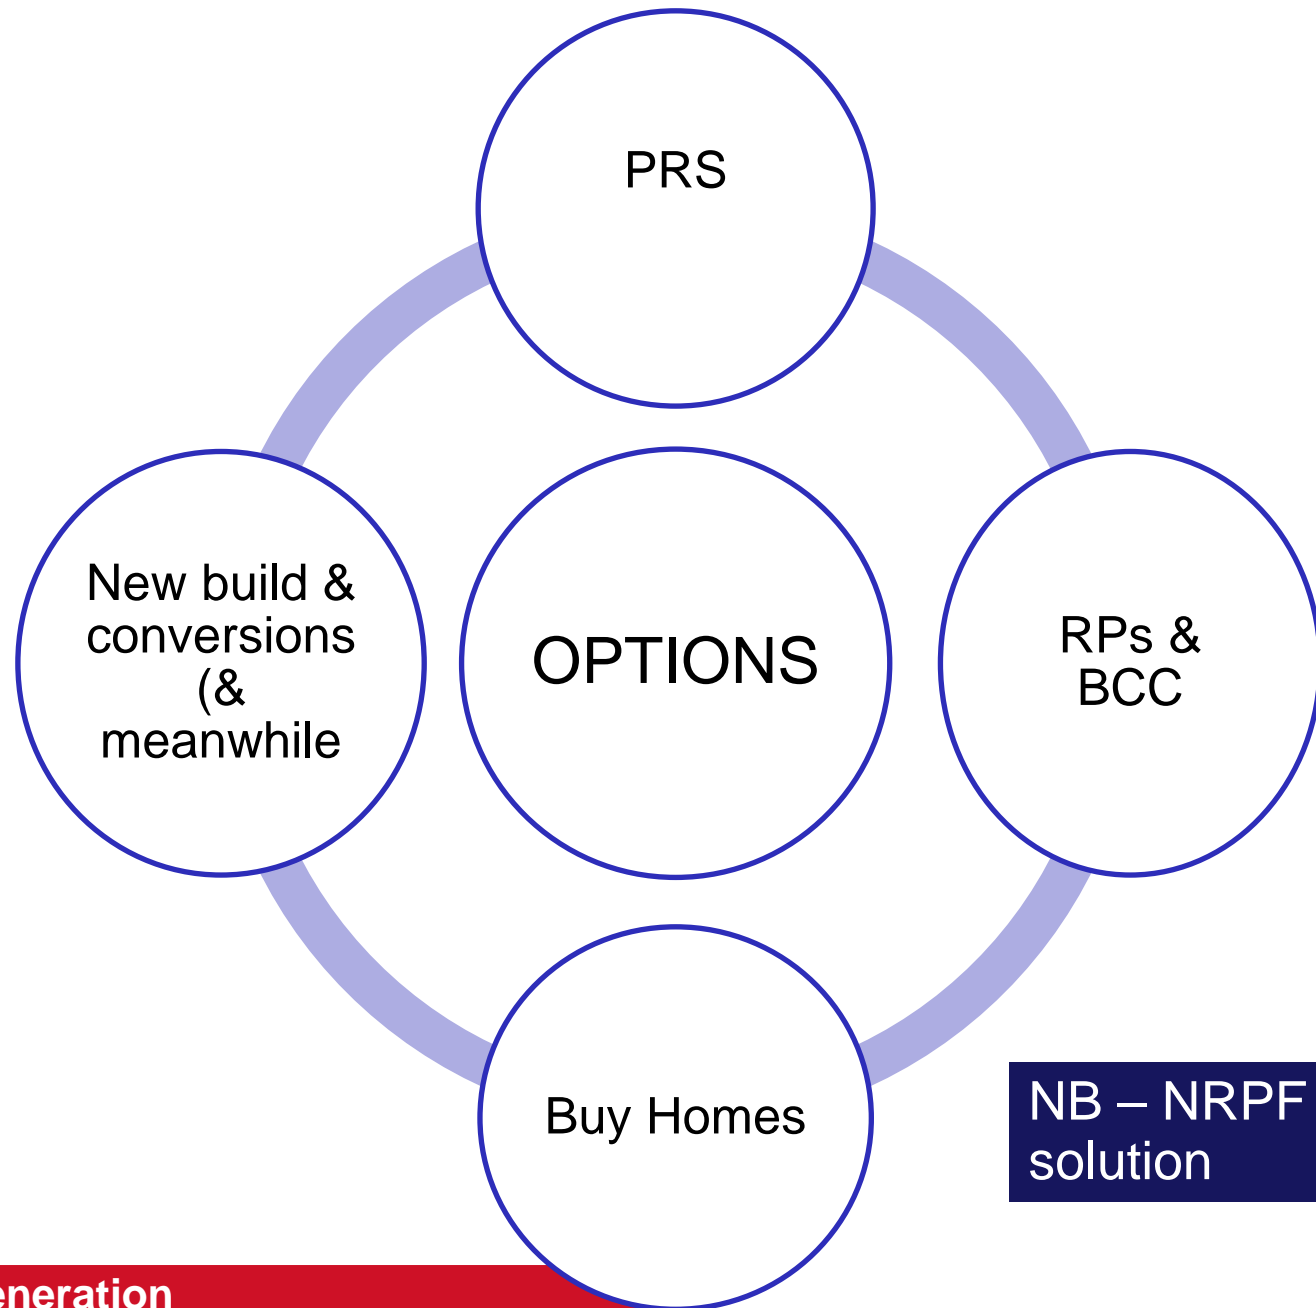

Where we are now (mid CV)

- 280 people in hotels or similar
- Interim housing for people with no recourse to public funds
- Continued flow of people onto the streets
- (plus all other needs from previous slide)

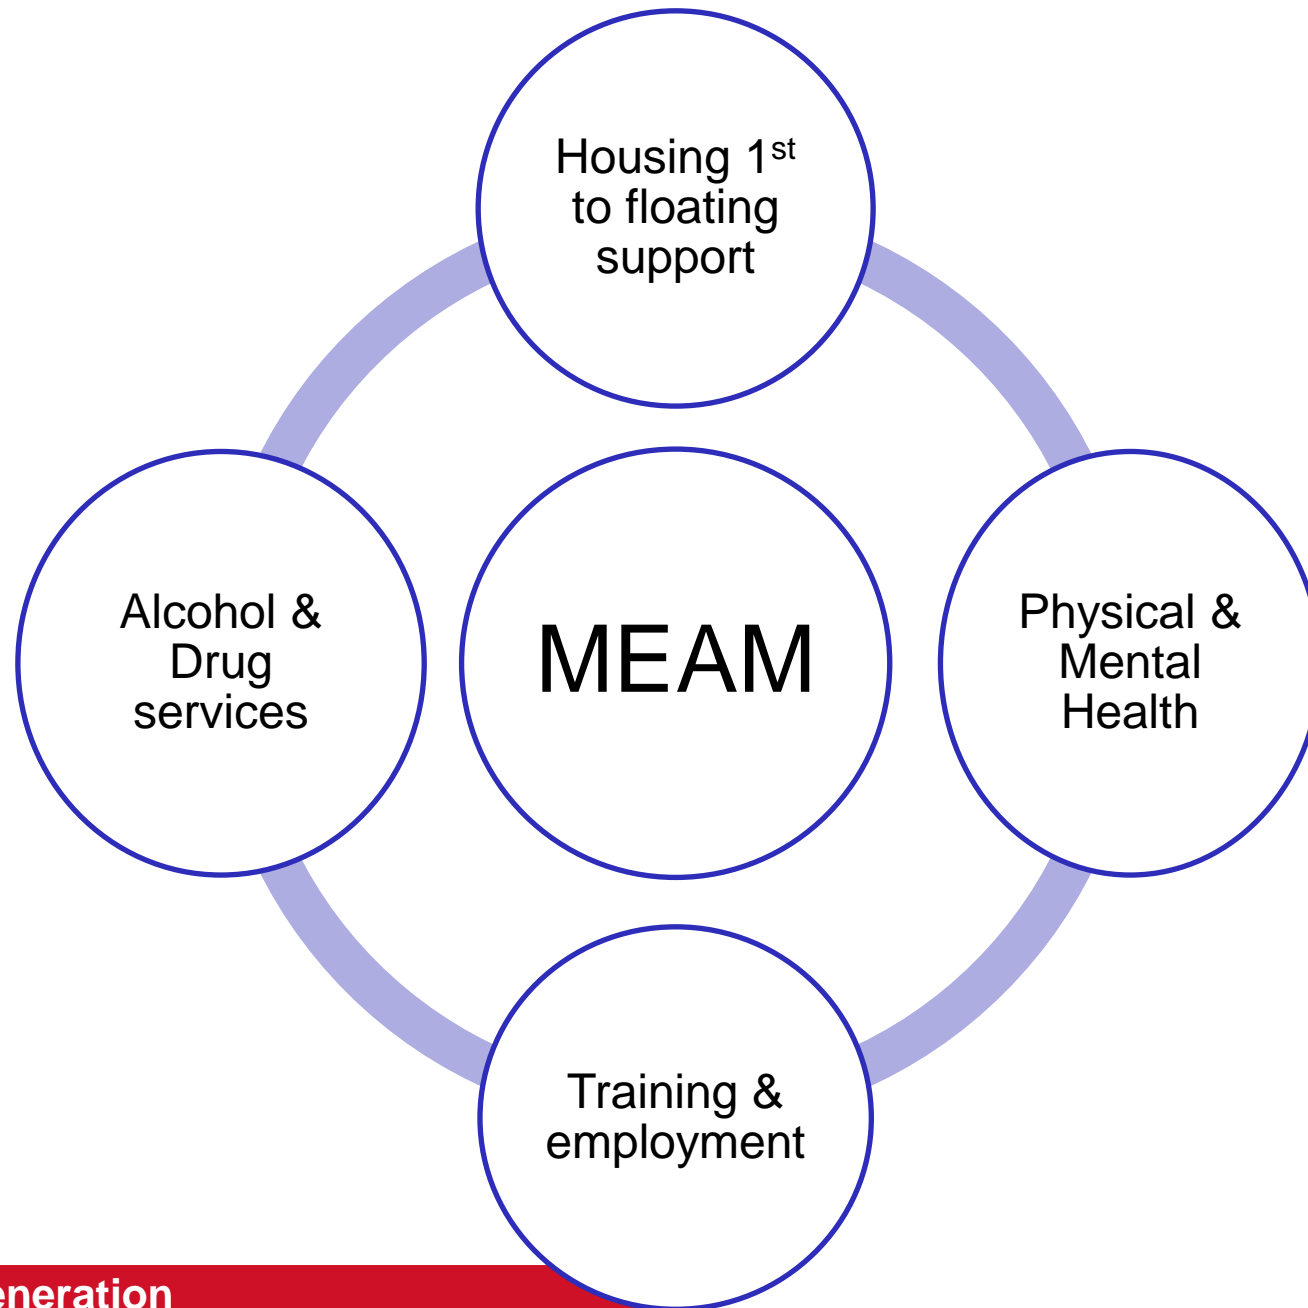

- Moving home not recommended – essential lettings only
- Local Housing Allowance (LHA) rates returned to 30th %ile

Massive opportunity – not to return people to streets. Will need step change in move on accommodation and MEAM style approach to people

Accommodation

People – sustaining homes and lives

Immediate response and sustained change

- Focus on moving people on from hotels
- Assessment of needs
- Move on plans – interim, supported, affordable, bespoke
- Extending access to some hotel accom
- Campaign to increase supply of affordable PRS
- Joint work across homelessness sector

- Targeted letting of Social Housing. Request for RPs to do more
