

Question: CQ17.5

Cabinet – 2nd June 2020

Re: Agenda item 17 – Bristol Energy

Question submitted by: Councillor Martin Fodor

1. One of the notable features of Bristol Energy, as a locally owned not for private profit company, is the added value of a commitment to renewable energy, social and local tariffs, support for community energy, and local sponsorship. **What assessment is there of these contributions to the community and how is it envisaged that all these benefits be protected in any future arrangements?**
