3. Background and evidence base

The Health and Wellbeing Board's vision is for citizens to thrive in a city that supports their mental and physical health and wellbeing, with children growing up free of 'Adverse Childhood Experiences', and the gaps in health outcomes between the most economically deprived areas and the most affluent areas of Bristol significantly reduced.

In order to achieve this vision, the [Health and Wellbeing Strategy 2020-25](#) sets out the strategic direction of the Board for the next five years. The Health and Wellbeing Board's Plan on a Page links closely with the strategy, and sets out the priorities of the Board for 2020-21. It includes statutory duties as well as actions relating to:

- One City Plan health and wellbeing ambitions
- One City Plan ambitions that address wider determinants of health
- Healthier Together prevention priorities
- Integrated Care System actions to be updated after July Board meeting
- Other strategies and programmes where the Board has a joint leadership role
- Strategies and plans for oversight and assurance by the Board

Prioritisation has also drawn on the [Bristol Health Needs 2020 Highlight Report](#).
