

Statement of Accounts

Bristol City Council,
for the year ended
31 March 2020

Subject to audit

The Accounts and Audit Regulations 2015 require the city council to prepare a set of Financial Statements. The Financial Statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (the Code) published by the Chartered Institute of Public Finance and Accountancy (CIPFA).

5. Supplementary Accounting Statements	
• Housing Revenue Account	131
• Collection Fund	137
6. Group Accounts	
• Group Accounts - Statements and Notes	142

GLOSSARY OF TERMS

ACCOUNTING PERIOD - This is the length of time covered by the accounts. This is normally a period of twelve months commencing on 1 April. The end of the accounting period is the Balance Sheet date.

ACCOUNTING POLICIES – The rules and practices adopted by the Council that determine how the transactions and events are reflected in the accounts.

ACCRUALS - The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

ACTUARY - An independent consultant who advises on the financial position of the Pension Fund.

ACTUARIAL GAINS AND LOSSES - For a defined benefit pensions scheme, the changes in actuarial deficits or surpluses that arise because either:

Events have not coincided with the actuarial assumptions made for the last valuation; or

The actuarial assumptions have changed

ACTUARIAL VALUATION - Every 3 years a review is carried out by the actuary on the Pension Fund's assets and liabilities reporting to the Council on the Fund's financial position and recommended employers' contribution rates.

AMORTISATION - The writing off of a loan balance or intangible asset over a period of time to revenue.

ANNUAL GOVERNANCE STATEMENT – The annual governance statement is a statutory document that explains the processes and procedures in place to enable the Council to carry out its functions effectively.

ASSET - An asset is something that the Council owns that has a monetary value. Assets are either current or long term.

- A current asset is one that will be used by the end of the next financial year (e.g. stock, debtors)
- A long term (fixed) asset provides the Council with benefits for a period of more than one year (e.g. property, plant and equipment).

BALANCE SHEET - The Balance Sheet is a financial statement summarising the overall financial position of the Council at the end of the financial year.

BILLING AUTHORITY - The billing authority is responsible for levying and collecting the Council Tax in its area, both on its own behalf and that of its precepting authorities.

BUDGET - The budget represents a statement of the Council's planned expenditure and income.

CAPITAL ADJUSTMENT ACCOUNT - This is the money set aside in the Council's accounts for capital spending and to repay loans.

CAPITAL CHARGES - This is a charge made to the Council's service revenue accounts to reflect the cost of utilising property, plant & equipment in the provision of services.

CAPITAL EXPENDITURE - Expenditure on acquisition of a non-current asset or expenditure that adds to and not merely maintains the value of an existing asset.

CAPITAL FINANCING - This describes the various sources of money used to pay for capital expenditure. Capital expenditure can be funded from external sources, such as borrowing, capital grants and by contributions from the internal sources, such as capital receipts and reserves.

CAPITAL RECEIPT - A capital receipt is the income that results from the sale of land, buildings and other capital assets. A specified portion of this may be used to fund new capital expenditure. The balance must be set-aside and may only be used for paying off debt, not for funding new revenue services.

CASH AND CASH EQUIVALENTS - Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are short-term, highly liquid investments that are readily convertible to cash; e.g. bank call accounts.

CODE - The Code of Practice on Local Authority Accounting in the United Kingdom 2018/19.

COLLECTION FUND - A fund operated by the billing authority into which all receipts of Council Tax and National Non-Domestic Rates are paid. Payments are made from the fund to support the Council's general fund services and to the precepting authorities and the NNDR pool. The fund must be maintained separately from the Council's General Fund.

COMMUNITY ASSETS - Assets that the Council intends to hold in perpetuity that have no determinable useful life and that may have restrictions on their disposal, such as parks and historic buildings.

COMPREHENSIVE INCOME AND EXPENDITURE ACCOUNT - A statement which details the total income received and the expenditure incurred by the Council during a year in line with IFRS reporting as required by the Code.

CONTINGENT ASSET - A possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Council.

CONTINGENT LIABILITIES - A contingent liability is either:

- a possible obligation arising from a past event whose existence will be confirmed by the occurrence of one or more uncertain future events not wholly within the control of the Council; or
- a present obligation arising from past events where it is not probable that there will be an associated cost or the amount of the obligation cannot be accurately measured.

COUNCIL TAX - A system of local taxation, which is set by both the billing and precepting authorities at a level determined by the revenue expenditure requirement for each authority, divided by the Council Tax Base for its area.

COUNCIL TAX BASE - An amount calculated by the billing authority, by applying the band proportions to the total properties in each band in order to ascertain the number of band D equivalent properties in the authority's area. The tax base is also used by the precepting and some levying bodies in determining their charge to the area.

CREDITORS - Amounts of money owed by the Council for goods or services received.

CURRENT ASSETS - Items that can be readily converted into cash.

CURRENT LIABILITIES - Items that are due to be paid immediately or in the short term.

DEBTORS - Amounts of money owed to the Council for goods or services provided.

DEDICATED SCHOOLS GRANT (DSG) - A ring-fenced grant from the Department for Education paid to Local Education Authorities for the Education of Children and Young Adults up to the age of 25.

DEPRECIATION - A provision made in the accounts to reflect the cost of consuming assets during the year, e.g. a vehicle purchased for £30,000 with a life of five years would depreciate on a straight-line basis at the rate of £6,000 per annum. Depreciation forms part of the 'capital charges' made to service revenue accounts and is covered by International Accounting Standard (IAS) 16.

DIRECT REVENUE CONTRIBUTIONS - Funding of capital expenditure directly from revenue budgets.

EARMARKED RESERVES - Amounts set aside for a specific purpose to meet future commitments or potential liabilities, for which it is not appropriate to establish a provision.

EXIT PACKAGES - The cost to the Council of early termination of staff employment before normal retirement age.

EVENTS AFTER THE BALANCE SHEET DATE (POST BALANCE SHEET EVENTS) - Events after the Balance Sheet date are those events, favourable or unfavourable, that occur between the Balance Sheet date and the date when the Statement of Accounts is authorised for issue.

EXTERNAL AUDITOR - The auditor appointed by the Public Sector Audit Appointments (PSAA) to carry out an audit of the Council's accounts. The current auditor is Grant Thornton.

FAIR VALUE - Fair Value is defined as the amount for which an asset could be exchanged or a liability settled, assuming that the transaction was negotiated between parties knowledgeable about the market in which they are dealing and willing to buy/sell at an appropriate price, with no motive in their negotiations other than to secure a fair price.

FINANCE LEASE - A contractual agreement for the use of an asset, where in substance the risks and rewards associated with ownership reside with the user of the asset (lessee) rather than the owner (lessor).

FINANCIAL YEAR - The local authority financial year starts on 1 April and ends on the following 31 March.

GENERAL FUND - This is the main revenue account of the Council. It includes the cost of all services provided which are paid from Government grants, generated income, NNDR retention and the City Council's share of Council Tax. It excludes the Housing Revenue Account. By law, it includes the cost of services provided by other bodies who charge a levy to the Council.

GOVERNMENT GRANTS - Grants made by the Government towards either revenue or capital expenditure to help with the cost of providing services and capital projects. Some of these grants have restrictions on how they may be used whilst others are general purpose.

GROUP ACCOUNTS – Where a Council has a material interest in another organisation (e.g. a subsidiary organisation) group accounts have to be produced. These accounts report the financial position of the Council and all organisations in which it has an interest.

HERITAGE ASSET - Assets held and maintained principally for their contribution to knowledge and culture. Examples of Heritage Assets are historical buildings, civic regalia and museum and gallery collections.

HOUSING REVENUE ACCOUNT (HRA) - The HRA includes expenditure and income arising from the provision of rented dwellings. It is, in effect, a landlord account. Statute provides for this account to be separate from the General Fund and any surplus or deficit must be retained within the HRA.

IMPAIRMENT - This is where the value of an asset falls below the carrying value in the accounts and so to reflect the commercial reality of the situation a charge is made in the running costs.

INFRASTRUCTURE ASSETS – Non-current assets that are unable to be readily disposed of, the expenditure on which is recoverable only by continued use of the asset created. Examples are highways and footpaths.

INTANGIBLE ASSETS - Assets which do not have a physical form but provide an economic benefit for a period of more than one year; e.g. software licences.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS) - International Financial Reporting Standards (IFRS) are a set of accounting standards developed by an independent, not-for-profit organisation called the International Accounting Standards Board (IASB)

LEASING - Method of financing the acquisition of capital assets, usually in the form of operating or financing leases.

LIABILITIES - Amounts the Council either owes or anticipates owing to others, whether they are due for immediate payment or not.

MAJOR REPAIRS RESERVE (MRR) - This reserve is for capital expenditure on HRA assets.

MINIMUM REVENUE PROVISION (MRP) - A statutory amount, that has to be charged to revenue, to provide for the redemption of debt.

MOVEMENT IN RESERVES STATEMENT – This financial statement presents the movement in usable and unusable reserves (the Council's total reserve balances).

NATIONAL NON-DOMESTIC RATE (NNDR) – More commonly known as ‘business rates’, these are collected by billing authorities from all non-residential buildings. Since 1 April 1990 the poundage level has been set by the Treasury. Amounts payable are based on rateable values multiplied by this poundage level.

NET BOOK VALUE - The amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value, less the cumulative amounts provided for depreciation.

NON-CURRENT ASSETS - Assets which yield a benefit to the Council for a period of more than one year.

NON-OPERATIONAL ASSETS - Fixed assets held by a Council, but not directly occupied, used or consumed in the delivery of services; for example, investment properties and assets surplus to requirements held pending sale or redevelopment.

OPERATING LEASE - This is a lease where the effective ownership of the asset remains with the lessor.

OPERATIONAL ASSETS - Fixed assets held and occupied, used or consumed by the Council in the direct delivery of those services for which it has either a statutory or a discretionary responsibility.

OUTTURN - This is the actual level of expenditure and income for the financial year.

PENSION FUNDS - For the Local Government Pension Scheme, the funds that invest employers' and employees' pension contributions in order to provide pensions for employees on their retirement and pensions for employees' dependants in the event of death of an employee.

PENSION STRAIN - The cost to the Council of reimbursing the Pension Fund should it agree to employees aged 55 and over drawing their pension before normal retirement age.

PRECEPT - This is the method by which a precepting authority (Avon and Somerset Police & Crime Commissioner, Avon Fire Authority) obtains income from the billing authority to cover its net expenditure. This is calculated after deducting its own Revenue Support Grant. The precept levied by the precepting authority is incorporated within the Council Tax charge. The Council pays the amount demanded over an agreed time scale.

PRIOR YEAR ADJUSTMENT - A material adjustment applicable to prior years arising from changes in accounting policies or from the correction of fundamental errors.

PRIVATE FINANCE INITIATIVE (PFI) - PFI started in 1997/98 and offers a form of Public-Private Partnership in which local authorities do not buy assets but rather pay for the use of assets held by the private sector.

PROPERTY, PLANT AND EQUIPMENT (PPE) - Covers all tangible (physical) assets used in the delivery of services, for rental to others, or for administrative purposes, that are used for more than one year.

PROVISIONS - Amounts set aside to meet liabilities or losses which are likely or certain to be incurred but where the amount due or the timing of the payment remains uncertain.

PRUDENTIAL CODE - The Prudential Code frees authorities to set their own borrowing limits having regard to affordability. In order to demonstrate this has been done, and enable adherence to be monitored, authorities are required to adopt a number of appropriate Prudential Indicators'.

PUBLIC WORKS LOAN BOARD (PWLB) - A body, part of the Debt Management Office (a government agency) which lends money to public bodies for capital purposes. At present nearly all borrowers are local authorities. Monies are drawn from the national Loans Fund and rates of interest are determined by the Treasury.

RATEABLE VALUE - The Valuation Office Agency (part of HM Revenue and Customs) assesses the rateable value of nondomestic properties. Business rate bills are set by multiplying the rateable value by the year's NNDR poundage (which is set by the Government). Domestic properties no longer have rateable values; instead they are assigned to one of the eight council tax valuation bands.

RELATED PARTIES - Two or more parties are related parties when at any time during the financial period:

- one party has direct or indirect control of the other party
- the parties are subject to common control from the same source
- one party has influence over the financial and operational policies of the other party to the extent that the other party might be inhibited from pursuing its own interests; or
- the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own interests. Examples of related parties include central government, other local authorities and other bodies' precepting or levying demands on the Council Tax, its members and its chief officers.

RESERVES - An amount set aside for a specific purpose in one financial year and carried forward to meet expenditure in future years. A distinction is drawn between reserves and provisions (see above), which are set up to meet known liabilities.

REVALUATION - Recognises increases or decreases in the value of non-current assets that are not matched by expenditure on the asset; gains or losses are accounted for through the revaluation reserve.

REVENUE EXPENDITURE – The regular day to day running costs of items including salaries and wages and other running costs incurred to provide services.

REVENUE EXPENDITURE FUNDED FROM CAPITAL UNDER STATUTE (REFFCUS) - Expenditure which is legitimately financed from capital resources, but which does not result in, or remain matched with tangible assets.

SURPLUS ASSETS - Assets not being used in the delivery of services that do not qualify as being 'held for sale' under accounting guidance.

SOFT LOANS - Funds received and advanced at less than market rates.

UNSUPPORTED BORROWING - Local authorities can set their own borrowing levels based upon their capital need and their ability to pay for the borrowing, costs are not supported by the Government so services need to ensure they can fund the repayment costs. The borrowing may also be referred to as Prudential Borrowing.

USABLE CAPITAL RECEIPTS - This represents the amount of capital receipts available to finance capital expenditure in future years, or to provide for the repayment of debt.

Introduction

An introduction to the 2019/20 statement of accounts by the deputy mayor and portfolio holder for finance, governance and performance, Councillor Craig Cheney.

Despite funding pressures we have made strong progress in our key priorities of making Bristol a more inclusive City where no one is left behind. The 2019/20 financial year was another challenging year for local government finances, but during the year we invested over £1 billion delivering services for our City in delivery of our commitments within our Corporate Strategy and aligned to the One City Plan for Bristol.

Highlights of our achievements over the last year include:

- One City Plan / City Gathering
- Continue to expand our pipeline of new homes, including 260 homes planned for sites in lockleaze, 133 homes currently under construction in Ashton Vale and major regeneration projects at Hengrove Park, Frome Gateway and Temple Quarter
- Brought forward Bristol Housing Festival's high quality, low energy living such as the award-winning ZedPods in St George and 200 Boklok units at Airport Road
- Launched a One City Environment strategy, representing organisations across the city, setting out a pathway of action on how Bristol can become a carbon neutral and climate resilient city
- Supported our partners through feeding Bristol as they take on the huge challenge of food poverty in the city
- South Bristol Household Waste Reuse and recycling Centre takes a step forward with planning permission granted in March

- Bus Deal began with our consultation on the number 2 route, taking advantage of our accelerated plans for better cycling, pedestrian routes and bus prioritisation in the centre.
- Plans for much needed new secondary schools
- One City Economic statement of intent as we look to build back better from the pandemic

The Covid-19 pandemic and response impacted at the very end of the financial year and therefore only a small impact is reflected in these accounts. However the pandemic has cast even more uncertainty, both on the future economic outlook nationally and locally and the funding for public services. We will continue to be committed to our determination to provide the best and most cost-effective services for our residents in the face of these ongoing uncertainties.

I would like to take this opportunity to thank all colleagues across the Council who have worked hard throughout the year to deliver services within the difficult financial constraints and provide value for money for the taxpayer. We are focussed on providing transparency for residents to judge whether taxpayers money has been spent properly, and be assured from our performance and improvement programmes that we are in a better place to tackle the financial and other challenges ahead.

Councillor Craig Cheney

Deputy Mayor – Finance, Governance, Governance, Property and Culture

Narrative Report

Background

Bristol is a city in the south west of England, covering an area of 110 square kilometres. It is the 8th largest city in England and has a population of around 463,000 living in approximately 202,000 dwellings.

Bristol is part of the West of England Combined Authority and is well connected by road, rail, sea and air. From Brunel to Banksy, the city has a history of achieving great things.

This achievement is demonstrated by being awarded a number of awards in recent years including UNESCO City of Film in 2017 as well as England's first UNESCO Learning City, UK's smartest city and European City of Sport in 2017 and European Green Capital in 2015.

However, Bristol's prosperity is not shared by all. Like many cities long-standing health, social and economic inequalities exist and impact on the prospects of its residents. Increased prosperity has also been a major factor in the city's rapidly growing population which brings about associated challenges like congestion, environmental pollution and a high cost of living, particularly housing.

The council and its partners across the city are working hard to address these issues and have created the [One City Plan](#), which identifies ambitious short, medium and long term targets to address the challenges the city faces. The Council's Corporate Strategy 2018-2023 also addresses these challenges and sets out how services are being re-shaped to meet the financial challenge of reduced government grant whilst continuing to provide essential services like care to an increasing population. The council is now a provider of services, and an enabling empowering organisation.

This new form of governance is underpinned by an ambition to ensure everyone feels the benefit of the city's economic success, where people can feel aspiration regardless of their background or where they grew up.

Despite these challenges, Bristol is a city of hope and ambition.

Our Corporate Strategy – at a glance

our Vision

“We play a leading role in driving a city of hope and aspiration where everyone can share in its success.”

our Themes

In achieving this vision we have based our activities around four themes:

Empowering and Caring:

Work with partners to empower communities and individuals, increase independence and support those who need it. Give children the best possible start in life.

Fair and Inclusive:

Improve economic and social equality, pursuing economic growth which includes everyone and making sure people have access to good quality learning, decent jobs and homes they can afford.

Well Connected:

Take bold and innovative steps to make Bristol a joined up city, linking up people with jobs and with each other.

Wellbeing:

Create healthier and more resilient communities where life expectancy is not determined by wealth or background.

Our Principles

We develop people and places to improve outcomes, empower communities and reduce the need for council services.

Maximise opportunities to work with partners and other stakeholders locally, nationally and globally.

Focus on planned long-term outcomes not short-term fixes, prioritising early intervention and prevention.

Build city resilience, improving our ability to cope with environmental, economic or social ‘shocks and stresses’.

Plan inclusively with everyone in mind, but with a particular focus on our children and their future.

Contribute to safer communities, including zero-tolerance to abuse or crime based on gender, disability, race, age, religion or sexuality.

Use our assets wisely, generating a social and/or financial return. Raise money in a fair but business-like way.

Our Values and Behaviours

We are Dedicated

We strive to make a difference

We are Curious

We ask questions and explore possibilities

We show Respect

We treat each other fairly

We take Ownership

We accept personal accountability

We are Collaborative

We come together to reach shared goals

Our key commitments

Empowering and Caring:

- Give our children the best start in life by protecting and developing children's centre services, being great corporate parents and protecting children from exploitation or harm.
- Reduce the overall level of homelessness and rough sleeping, with no-one needing to spend a 'second night out'.
- Provide 'help to help yourself' and 'help when you need it' through a sustainable, safe and diverse system of social care and safeguarding provision, with a focus on early help and intervention.
- Prioritise community development and enable people to support their community.

Fair and Inclusive:

- Make sure that 2,000 new homes – 800 affordable – are built in Bristol each year by 2020.
- Improve educational outcomes and reduce educational inequality, whilst ensuring there are enough school places to meet demand and a transparent admissions process.
- Develop a diverse economy that offers opportunity to all and makes quality work experience and apprenticeships available to every young person.
- Help develop balanced communities which are inclusive and avoid negative impacts from gentrification.

Well Connected:

- Improve physical and geographical connectivity; tackling congestion and progressing towards a mass transit system.
- Make progress towards being the UK's best digitally connected city.
- Reduce social and economic isolation and help connect people to people, people to jobs and people to opportunity.
- Work with cultural partners to involve citizens in the 'Bristol' story, giving everyone in the city a stake in our long-term strategies and sense of connection.

Wellbeing:

- Embed health in all our policies to improve physical & mental health and wellbeing, reducing inequalities and the demand for acute services.
- Keep Bristol on course to be run entirely on clean energy by 2050 whilst improving our environment to ensure people enjoy cleaner air, cleaner streets and access to parks and green spaces.
- Tackle food and fuel poverty.
- Keep Bristol a leading cultural city, helping make culture, sport and play accessible to all.

Our Obligations

These Key Commitments are not an exhaustive list of everything we will do. Indeed, much of our work is 'business as usual' meeting statutory and regulatory obligations which are set out in legislation.

Some of these are covered within our Key Commitments, but it can be taken as read that we'll make sure that we meet all of our legal obligations. Others include, but aren't limited to:

Highway Maintenance; Road Network Management; Public Health Strategy; Public Sector Equality Duty; Planning; Licensing; Care Act 2014; Waste Collection; Environmental Health And Enforcement; Elections; Registrar Services; Coroner Services; Special Educational Needs; Harbour; Information and Advice; Emergency Planning; Homelessness; Trading Standards; Libraries (Core Service); Tax Collection; Land Charges; Community Safety; Landlord Services; Property Services; General Data Protection Regulation

Helping us achieve our priorities

One City Plan: The long-term city-wide plan for Bristol, created and owned by partners across the city. It guides our thinking around all key issues.

Regional Devolution: Working as a key member of the West of England Combined Authority to help shape how £900m of investment is spent to improve transport, provide jobs and strengthen adult education.

Medium Term Financial Plan: Providing us with a five-year forward look at the financial environment and the principles by which we can make good financial decisions.

Health and Social Care integration: Working with our NHS partners to bring health and social care closer together and make the most of joint commissioning opportunities, with a bigger focus on prevention.

Business Infrastructure: Working with back office services to identify what needs to change to be a more effective and efficient council.

Workforce Plan: Sets out how the council will support our colleagues to be able to deliver for our citizens by developing their skills and careers as a model employer.

Our Services

The following core services are provided by the council:

Core Services:

Adults, Children, Education and Public Health

- Education, Learning and Skills Improvement
- Safeguarding vulnerable adults and children
- Social care and support for adults including the elderly
- Support for carers Commissioning services
- Public Health
- Coordinates Bristol's response to crime, community safety and antisocial behaviour

Growth & Regeneration

- Museums and Culture
- Property
- Economic development
- Energy services
- Library services
- Community Services Parks and open spaces
- Licencing
- Housing and Landlord Services

Resources

Provides internal support services including:

- Digital Transformation and ICT
- Finance, Workforce and Change
- Policy Strategy and Communications
- Legal and Democratic Services
- Commercialisation and Citizen Services

Ring-fenced Accounts:

• Housing Revenue Account

Accounts for the management and maintenance of around 26,833 council homes in Bristol.

• Dedicated Schools Grant including SEND

Grant funding the majority of the council's expenditure on schools and supporting children with additional and special educational needs

and disabilities (SEND). The grant can only be used to meet expenditure properly included in the schools budget.

• Public Health

An annual ring fenced grant from the Department of Health. Funds the council's statutory duties to improve public health.

We work with local partners (including charities, businesses and other public services providers like the police and the NHS) and residents to determine and deliver local priorities. Typically councils like us provide over 700 services, either directly ourselves or by commissioning services from outside organisations.

In future we will still provide hundreds of day to day services, from being a landlord to cleaning the streets to huge projects worth hundreds of millions of pounds.

Our Leadership and Workforce

Our 70 elected councillors represent the people of Bristol and set the overall policy of the council.

Mayor, Marvin Rees, elected mayor for Bristol, with city council responsibilities that include ultimate responsibility for all major policy decisions, setting the vision and direction of the council; and making 'executive' decisions within the budget and policy framework set by Full Council.

Our workforce - Overall, our workforce comprises 7,189 'full time equivalent' employees. Of this total, 1,748 are employed within our locally maintained schools

Our Performance

Communities and living

- The Bristol Quality of Life survey 2019/20 highlighted 79% of residents were 'satisfied with their local area as a place to live' and nearly 3 out of 4 people (71%) felt that people from different backgrounds get on well together in their local area.
- However, the Quality of Life survey also found that 14.7% of people report below average levels of mental health (QoL). The survey also found an increase in the number of deaths attributable to particulate air pollution; with this measure rising to 5.1% in 2019-20.

Housing

- Addressing homelessness is a priority issue, and our outreach teams continue to actively work with rough sleepers. Latest figures found 98 people sleeping rough on the street in a single night in Bristol (Nov 2019), a rapid rise over the last seven years (9 in Nov 2012).
- As of 31 March 2020 there were 618 homeless households that the council had a duty to house.

Economy and employment

- 245,000 working age residents were in employment in December 2019. This is equivalent to an employment rate of 76.7% which is the highest of British Core Cities and 0.9 percentage points above the national (GB) average.
- Bristol contributed £15bn to the UK economy in 2018 (inflation adjusted Gross Value Added, GVA balanced approach).
- Challenges do remain however as the percentage of young people of academic age 16 to 17 years who are not in employment, education or training (NEET) has risen to 7.7%

Culture and creativity

- In 2019 Bristol City Council hosted over 200 festivals and events at more than 60 locations welcoming over 1 million visitors.
- 43% of Bristol residents participate in cultural activities at least once a month (Quality of Life survey 2019/20).
- Bristol continues to be a major destination for tourists and entertainment. It had 13.5 million day visitors in 2018, 1.8m domestic staying trips (spend £303m) and 598,000 overseas staying trips.
- We run and maintain eight leisure centres and swimming pools, where over 2.3 million individual visits occurred during 2019/20.

Our performance

Transport and Sustainability

- Over a quarter (27%) of Bristolians now ride a bike at least weekly
- The number of bus passenger journeys (per head of population) in Bristol in 2018/19 was 92.3, a significant increase of 35% compared to 2013/14 (68.2). This compares to a national decrease in journeys of 11% over the same five year period.
- There were over 42 million local bus passenger journeys (originating in the Bristol local authority) in 2018/19, an increase of 6.4% compared to the previous year.
- Citywide CO₂ emissions have decreased by 33% (2005-2017), and the renewable energy capacity in Bristol at the end of 2018 was 87.4 MegaWatt (MW), an increase of 32% in the last five years. Actual generation has increased by 46% in the same time. 36.4MW is from onshore wind turbines, and 27.2MW is from solar photovoltaic panels
- Despite increased numbers of people using public transport, walking and cycling, continued levels of vehicle use mean that reported air pollution levels of nitrogen dioxide still exceed the UK and EU air quality limits.
- In 2018/19 the council has reduced the carbon emissions it measures from its direct operations by 77.4% since 2005/06, and plans to become a net zero carbon emitter by 2025.
- 46.8% of all household waste was sent for reuse, recycling and composting in 2019/20, up from 37.4% in 2009/10.
- 15.9% of municipal waste was sent to landfill (2019/20). 129kg of waste per household was landfilled in 2018/19, compared with 230kg in 2016/17.

Education

- The percentage of children with a good level of development at Early Years is 70.6% (2019), much improved from its inception in 2013 (49.5%), but slightly below the England average of 71.8%.
- For Key Stage 2 pupils (at 11 years of age), new 2019 data shows 65% achieved the expected standard in Reading, Writing and Maths combined. This is much improved from 54% in 2016, and the same as the England average (65%).
- For Key Stage 4 (at age 16), 2019 data shows the average Attainment 8 score per pupil is 44.7 points, down from 45.5 points in 2018. [Attainment 8 is a student's average achievement across eight subjects, with extra weighting given to maths and English].
- Of the 152 schools in Bristol inspected by Ofsted (February 2020), 78.3% are rated as Good or better for overall effectiveness.
- Unfortunately, Bristol schools' pupil attendance for the academic year 2018-19 was below target at 94.7% and unchanged on the previous year. Post Covid-19 a specific transition strategy is planned to support return to school.
- The Special Educational Needs and Disabilities (SEND) service has had well-publicised challenges to meet targets for Education Health Care Plans; however a recent reorganisation has been undertaken, and significant improvements are expected next year.

Adult social care

- At the end of 2019/20, around 6,150 adults were being supported by adult social care. Of these, 66% of service users (4,060 people) are supported to live independently in the community, with around 2,090 people in care homes.

Financial Performance

The Council is a large and diverse organisation and our accounts are by their nature technical and complex. This section of the report provides an explanatory narrative to the key elements of the statements and sections in the accounts and also provides a summary of our financial performance for 2019/20.

- The Council collects £224.8m of business rates of which £116.8m (net of reliefs) is retained in year by the Council. This is also net of the tariff of £83.2m which the Council returns to central government. We also collect business rates on behalf of the West of England Combined Authority and Avon Fire Authority.
- The Council also collects £255.6m of council tax (on behalf of Avon and Somerset Police and Crime Commissioner, Avon Fire Authority and itself), of which £214.7m is retained in year by the Council.
- Council tax in year collection for 2019/20 totalled 96.76%. This was only £165k short of target which given the impact of COVID-19 was a great achievement. This percentage placed us second across our comparable group of Core Cities. As a result of our ethical approach to debt management introduced in 2019/20 referrals to enforcement agents also continued to fall during the year with 33% (4000) fewer cases now being sent from our 2016 benchmark figure.

- Business Rate in year collection for 2019/20 rose to 98.34%. This achievement is pleasing when set against another good year of anti-fraud work with Audit and administering an increasingly complex business rate system with more and more reliefs needing to be applied to ratepayers accounts.
- The Council holds £3.194bn of fixed assets, comprising £2.677bn of operational assets for delivering services, £204m of Heritage Assets for cultural benefit and £313m of non-operational assets.
- The Council is responsible for managing cashflows with an annual churn exceeding £1.4bn
- The Council generates £829m of fees, charges and grants used to deliver services and keep council tax down.

Financial performance

Revenue Financial Summary 2019/20

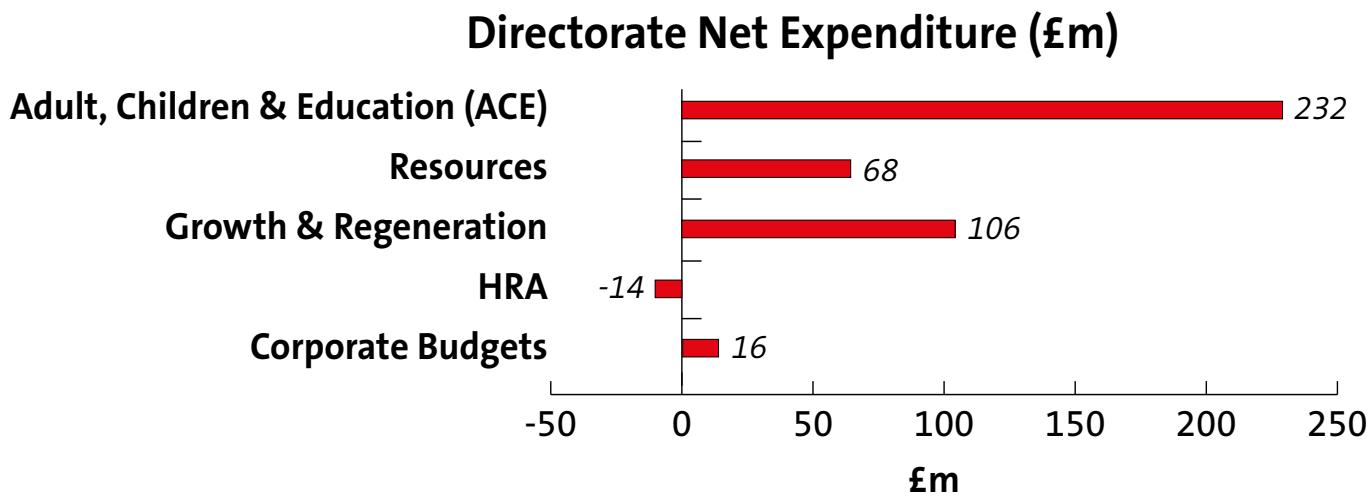

Revenue expenditure covers the cost of the Council's day to day operations and contributions to and from reserves.

Net revenue expenditure across General Fund services was £380.1 million, against a budget of £374.8 million. The "cash deficit" of £5.3m was largely due to on-going pressures in Adult Social Care.

The impact of the covid-19 pandemic and social distancing measures was experienced late in the financial year however it did have a noticeable financial impact on the Council during February and March. Significant emergency expenditure was incurred in the Council's response to the pandemic. In March significant effort was made to ensure services such as social care and rough sleeping were fully prepared for the anticipated covid peak during May and June. Significant protective personal equipment and additional ICT hardware also had to be purchased in order to support Council employees continue working remotely.

Covid also had an immediate impact on several revenue streams, particularly within parking and culture as travel into the city ceased and cultural venues closed with immediate effect.

The gross cost of services during the year was £1.137.7bn (1.087bn in 2018/19). This includes both General Fund services and the Housing Revenue Account (HRA). After deducting specific grants and income from fees and charges, the net cost of services was £408.5m (£351.1m in 2018/19). The breakdown of net expenditure between the different service areas is shown in the following chart.

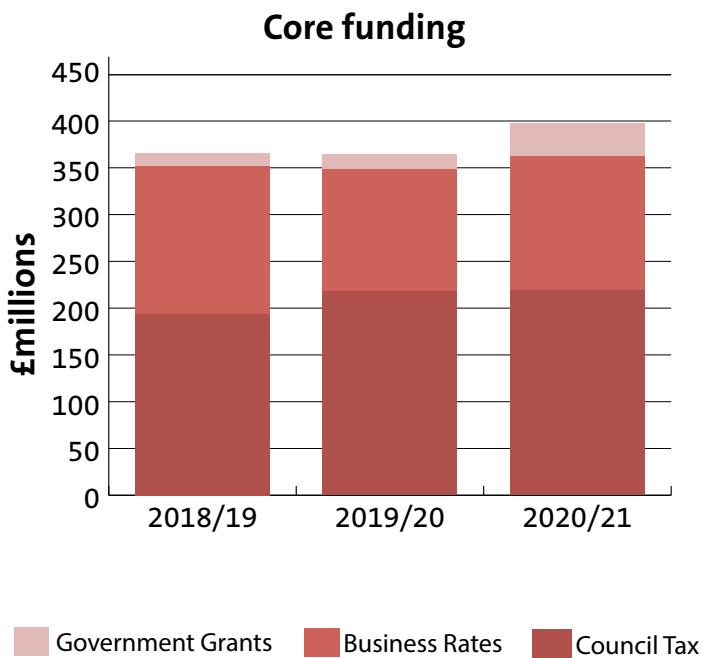

Financial performance

Sources of Funding

2019/20 was the third year the Council has been piloting 100% business rates retention. Pilot authorities retain 100% of locally raised business rates. In return they forgo Revenue Support Grant (RSG) and a number of other funding streams. Each pilot authority's tariffs and top-ups calculated by central government are adjusted to ensure the change is cost neutral for central government.

In tandem with this, during the last decade, there has been a move away from central government core funding towards a greater reliance on locally sourced taxation such as business rates and council tax and income we can raise from other sources. The chart below shows where the Council gets its core funding.

Medium Term Financial Plan (MTFP) and budget for 2020/21

In December 2019 Full Council approved the MTFP, a financial planning document covering a rolling five year period, refreshed annually. The MTFP sets out in broad terms how the Council will, within its financial constraints fund its priorities and ensure that financial stability and resilience is achieved. Subsequently in February 2020 the Council agreed a balanced budget not only for 2020/21 but over a 5 year medium term. This included a net revenue budget for 2020/21 of £395.7m but also a 5 year capital programme totalling £612.0m for General fund and £354.0m for Housing Revenue Account (HRA).

The Covid-19 pandemic has had a significant impact on the Council's finances. We recognise that for some of the income or expenditure streams the impact will go beyond a single financial year. Further work is underway to assess the financial impact on budgets over the medium term with further reports to Cabinet and Full Council during the year.

Similarly the financial impact of Brexit is as yet uncertain.

While there is a level of assurance over council planning, the lack of clarity over Brexit nationally presents significant challenges and threats.

Other Funding Issues

The government have announced that the Fair Funding Review (FFR) and Business Rates Retention (BRR) will not be implemented in April 2021 as originally planned. Bristol will continue to work with the Government on informing the approach to funding for the next financial year and beyond.

Financial performance

Capital Investment

Capital expenditure forms a large part of our spending. The Council has an ambitious capital programme to deliver projects that are fundamental to the Council achieving its aspiration to re-shape how we deliver our services as well as helping to unlock revenue savings and efficiencies to secure our on-going financial stability.

Overall the Capital Programme for 2019/20 was originally set at £236m. Capital spending (including revenue expenditure allowed to be funded by capital) during the year totalled £178.4m. An analysis of capital investment by directorate and sources of capital funding are shown in the charts below.

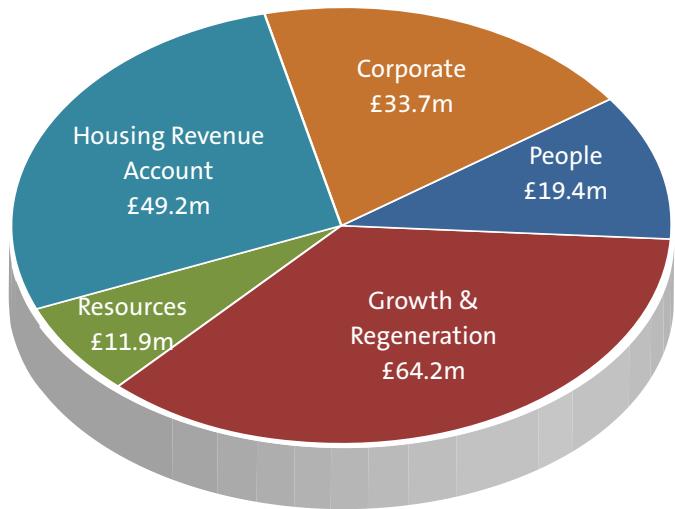

The Capital Programme was financed from a combination of borrowing (£34.9m) and from grants, contributions and reserves (£143.5m).

The major areas of investment have included:

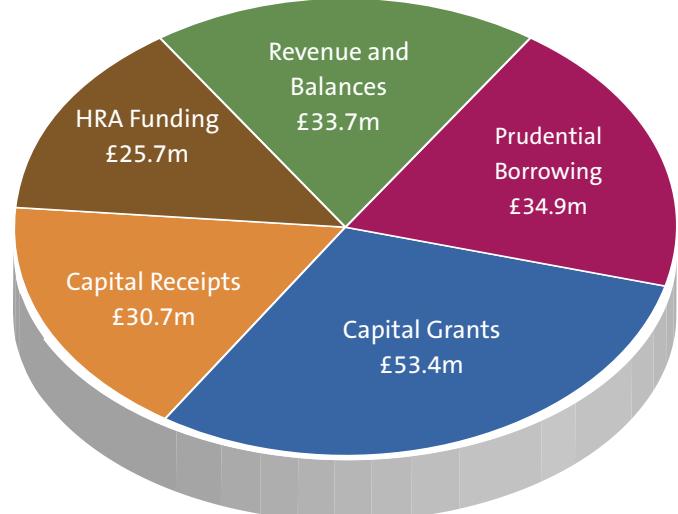

- £49.2m invested in the Council's housing stock (of which £21m was on new build developments).
- £22.7m invested in transport schemes including Temple Meads development, A4/A4174, cycling network improvements, traffic infrastructure and maintenance.

- £18.0m invested in school buildings to provide additional pupil capacity to meet increased demand, the main spend was incurred on Cathedral School Trust Trinity Academy and Bristol Brunel Academy expansion.
- £14.8m invested into a vehicle replacement programme and waste commercial vehicles.
- £12.7m invested in a significant refurbishment programme of the Bristol music venue, Colston Hall.
- £10.4m invested in housing enabling works to accelerate the affordable provision including Hengrove, Lockleaze and Southmead regeneration programmes.
- £8.9m invested in ICT development improvements and equipment as part of the IT transformational programme and city wide digital network upgrades.
- £6.8m invested in Energy renewables and infrastructure including the expansion of the Heat Networks, Energy centres and water source heat pump solutions.
- £3.6m invested in the maintenance of core buildings, schools and residential homes
- £3.2m invested in housing adaptations and assistance programme.

Capital Investment

Capital Financing

Financial performance

Housing Revenue Account (HRA)

The HRA Income and Expenditure Statement sets out the financial position for the year, before taking account of the statutory adjustments required to be made to the accounts. The Statement of Movement on the HRA Balance reflects these statutory adjustments and shows how the financial performance for the year has impacted on HRA reserves.

- The HRA Income and Expenditure Statement shows a net surplus for the year of £0.9m
- The Council manages 26,833 homes
- The Council collected £110m in dwelling rent in 2019/20 (£110.6m in 2018/19)
- The Council spent £49.2m in 2019/20 (£36.8m in 2018/19) on new builds and improvements to existing housing stock.

Treasury Management

The 2019–2024 Treasury Strategy identified a medium term net borrowing requirement of £245m to support the existing and future Capital Programme. The Council's strategy is to defer borrowing while it has significant levels of treasury cash balances available for investment (£150m at March 2020). Deferring borrowing will reduce the "net" revenue interest cost of the Authority as well as reducing the Council's exposure to counter party risk for its investments.

The Council recognises that utilising investments in lieu of borrowing has a finite duration and that future borrowing will be required to support capital expenditure. In light of this the Council took long term borrowing of £30m in two tranches in August and September, £20m (1.84%) and £10m (1.59%) when rates "dipped" historically low to reduce the Council's exposure to interest rate risk.

Net debt (borrowing less investment) was £247m at the end of the year. The average level of treasury funds available for investment purposes during the year was £166m. The return for the period was 0.87% compared to the recognised benchmark of 0.54% (7 day Libid average for period).

The Council has complied with all treasury management legislative and regulatory requirements

during the period and all transactions were in accordance with the approved Treasury Management Strategy.

Pensions

The City Council is a member of the Avon Pension Fund. The pension liability as at 31 March 2020 is £994m. This represents the value of what the Council owes across future years offset by the value of assets invested in the pension fund. The pension fund is revalued every three years. The 2016 valuation set contribution rates for three years commencing on 1 April 2017. A new triannual valuation took place in 2019 and is effective from 1 April 2020.

The current funding level is an estimated 95.5%. Employers are paying additional contributions over a period of 16 years in order to meet the shortfall.

In March 2020 there was significant volatility in investment markets as a result of the COVID-19 pandemic resulting in significant falls in equity and credit markets at the year end. The Fund's investment strategy including an equity protection overlay mitigated some of the impact of lower asset prices. It is difficult to quantify the longer term impact on the investment portfolio given the unknown nature of this shock. In addition to how the pandemic itself will play out, the length and depth of the economic shock and the pace of economic recovery is very uncertain. The asset portfolio is well diversified and this is expected to mitigate against reductions in valuations.

Contingencies

The Council has set aside a provision of £27.5m within the collection fund for any business rates appeals against rateable values in future years. The increase of £0.6m since 2018/19 reflects the on-going fact that the Council, as a business rates retention pilot, has a significantly greater exposure to the risk of business rates appeals, but also recognising that the number of outstanding appeals against the 2010 list is falling. The annual contribution is in line with government recommendations. There were approximately 304 appeals outstanding as at 31 March 2020.

Financial performance

The Statement of Accounts

The Statement of Accounts is set out in the accompanying document; they consist of the following statements that are required to be prepared under the Code of Practice.

The Core Statements are:

- **The Comprehensive Income and Expenditure Statement** – this records all the Council's income and expenditure for the year. The top half of the statement provides an analysis by service area. The bottom half of the statement deals with corporate transactions and funding. Expenditure represents a combination of:
 - Service and activities that the Council is required to carry out by law (statutory duties) such as street cleaning, planning and registration; and
 - Discretionary expenditure focussed on local priorities and needs
- **The Movement in Reserves Statement** is a summary of the changes to our reserves over the course of the year. Reserves are divided into "useable", which can be invested in capital projects or service improvements, and "unusable" which must be set aside for specific purposes. We continually review the money we have in reserves for specific purposes to make sure they are at the right levels, and that our reserves continue to meet our needs.
- **The Balance Sheet** is a 'snap shot' of the council's assets, liabilities, cash balances and reserves at the year-end date.
- **The Cash Flow Statement** shows the reasons for changes in the Council's cash balances during the year, and whether that change is due to operating activities, new investment, or financing activities (such as repayment of borrowing and other long term liabilities).
- **Group Accounts** - the Council is required to produce Group Accounts alongside its own financial statements where it has material interests in subsidiaries, associates and/or joint ventures. The Group Accounts included as part of the Statement of Accounts fully incorporate the results of Bristol Holding Limited, Bristol

Waste Company Limited, Bristol Energy Limited and Goram Homes Limited. Full details of the relationship can be found in the Group Accounts section of the Statement.

- Other entities which fall within the group boundary, but which are not consolidated into the Group Accounts as they are not considered to be material, are detailed within the Related Parties note within the Statement of Accounts.

The Supplementary Financial Statements are:

- **The Housing Revenue Account** – this separately identifies the Council's statutory landlord function as a provider of social housing under the Local Government and Housing Act 1989.
- **The Collection Fund** summarises the collection of Council tax and business rates, and the redistribution of some of that money to Avon Fire Authority, the Avon and Somerset Police and Crime Commissioner and central government.
- **The Pension Fund Account** reports the contributions received, payments to pensioners and the value of net assets invested in the Local Government Pension Scheme on behalf of Council employees.

The Notes to these financial statements provide more detail about the Council's accounting policies and individual transactions. Our Annual Governance Statement sets out the governance structure of the Council. It summarises the outcome of our review of the Governance Framework that has been in place during 2019/20 and our system of internal control, which is a critical component of our overall governance arrangements.

Denise Murray
Director of Finance
(Section 151 Officer)

Statement of Responsibilities

The Authority's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council that officer is the Director of Finance;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

The Director of Finance Responsibilities

The Director of Finance is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Director of Finance has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code.

The Director of Finance has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Director of Finance

I hereby certify that this Statement of Accounts, provides a true and fair view of the financial position, financial performance and cash flows of Bristol City Council for the period ending 31 March 2020..

Denise Murray

7,397 Cash and Cash Equivalents at the end of the reporting period		69,426

Notes to the Accounts

1 Accounting Policies

(i) General Principles

The Statement of Accounts summarises the Council's transactions for the 2019/20 financial year and its position at the year-end of 31 March 2019. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015, which require the accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (the Code) supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. The Statement of Accounts has been prepared on a 'going concern' basis.

(ii) Recognition of Income and Expenditure

Activity is accounted for in the year in which it takes place, which may not be the same year in which cash payments are made or received.

Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract. In local government, the generation of revenues from charges to service recipients is only a minor funding stream and contracts with customers tend to be accounted for and delivered within each financial year.

Revenue from the sale of goods and disposal of assets is recognised when the Council transfers the risks and rewards of ownership to the purchaser. Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.

Government grants and third party contributions are recognised when there is reasonable assurance that the Council will comply with any conditions attached to the payments, and that the grants or contributions will be received. Where conditions attached to grants or contributions have not been satisfied, monies received to date are carried in the Balance Sheet as creditors and credited to the CIES when the conditions are satisfied. Where capital grants are credited to the Comprehensive Income and Expenditure Statement they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Supplies are recorded as expenditure when they are consumed. If there is a gap between the date supplies are received and their consumption, they are carried as inventories in the Balance Sheet. Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.

(iii) Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the date of acquisition and are readily convertible to known amounts of cash with low risk of change in value.

Cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management strategy.

(iv) Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- Amortisation of intangible fixed assets attributable to the service.

(v) City Region Deal

The Council has applied the principles of IPSAS 23 'Revenue from non-Exchange transactions (Taxes and Transfers)' in accounting for the transactions and balances relating to the City Region Deal.

Growth paid to the accountable body (South Gloucestershire Council) for the Business Rates Pool (BRP) is recognised by the Council as a debtor until such point that the funds are paid out by the BRP or committed by the Economic Development Fund (EDF) to fund future EDF payments in respect of approved programmes.

- Income - Income receivable by the Council from the BRP is recognised as revenue in the year in which it occurs. The council recognises revenue and a debtor balance to the extent that future EDF disbursements are to be received, have been committed to by the EDF, and sufficient uncommitted cash remains in the BRP to fund future payments.
- Expenditure – Expenditure is recognised by the Council on the earlier of payments being made by the BRP or where future EDF payments are committed to. Expenditure is recognised in proportion to the degree that the Council has contributed to the BRP through its growth figure, and is capped at the limit of the Council's payment of growth to the BRP in this period, and any previous growth figures paid over which have not been previously paid or committed by the BRP.

(vi) Collection Fund and Local Taxation

Bristol City Council is a billing authority for local taxation and collects:

- Council Tax on behalf of the Avon and Somerset Police and Crime Commissioner, Avon Fire Authority and itself; and
- Non Domestic Rates on behalf of Avon Fire Authority, the West of England Combined Authority (WECA) and itself.

The Collection Fund shows the transactions of the billing authority in relation to the collection from taxpayers and the distribution to local authorities, central government and precepting bodies of council tax and non-domestic rates (NDR). There is no requirement for a separate Collection Fund Balance Sheet since the assets and liabilities arising from collecting non-domestic rates and council tax belong to the bodies (i.e. major preceptors, the billing authority and the Government).

The Collection Fund is effectively an agency account therefore income, expenditure and balance sheet transactions are apportioned between the Council, central government and precepting bodies.

The council tax and NDR income included in the Comprehensive Income and Expenditure Statement is the Council's share of accrued income for the year. However, regulations determine the amount of council tax and NDR that must be included in the Council's General Fund. Therefore, the difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund is taken to the Collection Fund Adjustment Account and included as a reconciling item in the Movement in Reserves Statement. The Balance Sheet includes the Council's share of the end of year balances in respect of council tax and NDR relating to arrears, impairment allowances for doubtful debts, overpayments and prepayments and appeals.

(vii) Employee Benefits

Benefits Payable During Employment

Monetary benefits such as wages and salaries, paid leave and bonuses, and non-monetary benefits (e.g. cars) for current employees are recognised as an expense in the year in which employees render service to the Council. An accrual is made to represent the cost of holiday entitlement earned but not taken at each year end, to meet Code and IAS requirements.

Termination Benefits

When the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary redundancy, these costs are charged on an accruals basis to the respective Service line in the Comprehensive Income and Expenditure Statement.

Post-Employment Benefits

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education.
- The Local Government Pension Scheme, administered by Bath and North East Somerset Council.
- The NHS Pension Scheme, for Public Health employees, administered by NHS Pensions.

All of the above schemes provide defined benefits to members e.g. retirement lump sums and pensions, earned as employees working for the Council.

However, the arrangements for the Teachers' scheme and NHS Scheme mean that liabilities for these benefits cannot ordinarily be identified for the Council. These schemes are therefore accounted for as if they were defined contributions schemes and no liability for future payments of benefits is recognised in the Balance Sheet. The CIES is charged with the employer's contributions payable to Teachers pensions and NHS pensions in the year.

The Local Government Pension Scheme

The Local Government Pension Scheme is accounted for as a defined benefits scheme:

The liabilities of the Avon Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees. Liabilities are measured on an actuarial basis discounted to present value, using the projected unit method. The discount rate to be used is determined in reference to market yields at balance sheet date of high quality corporate bonds.

The assets of Avon Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:

- Quoted securities - current bid price;
- Unquoted securities - professional estimate;
- Unitised securities - current bid price;
- Property - market value.

The change in the net pension liability of the Council is analysed into the following components:

- Current Service Cost - the increase in liabilities as a result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.

- Past Service Cost - the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- Net interest on the net defined benefit liability/asset, i.e. net interest expense for the Council – the change during the period in the net defined benefit liability/asset that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability/asset at the beginning of the period, taking into account any changes in the net defined benefit liability/asset during the period as a result of contribution and benefit payments.
- Re-measurement of the return on plan assets – excluding amounts included in net interest on the net defined benefit liability/asset, charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
- Actuarial gains and losses - changes in the net pension's liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions. These changes are debited to the Pensions Reserve as Other Income and Expenditure.
- Contributions paid to the Avon Pension Fund - cash paid as employer's contributions to the Pension Fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the Pension Fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the Pension Fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits earned by employees.

In 2017/18, the Council made an up-front payment of the LGPS deficit contributions for the three years 2017/18 - 2019/20 totalling £44.183m (net of academy conversions). The up-front payment took advantage of the independent Actuary's calculation of the return these contributions could achieve once invested by the Pension Fund. The discount calculated by the Actuary for making the up-front payment (net of academy conversions) rather than the typical approach of monthly payments in arrears over the three year period was £2.968m, reducing total payments from £47.151m to £44.183m. The return was judged to be far greater than could have been achieved by investing the amounts as part of the Council's Treasury Management Strategy and the approach represented good value for money for the Council.

Discretionary Benefits

The Council has restricted powers to provide discretionary post-employment benefits. Any such benefits are accrued for in the year of the decision to make the award and are charged to the Comprehensive Income and Expenditure Statement against the service in which the employees worked.

(viii) Events After The Reporting Period

Events after the balance sheet date are those events, both favourable and unfavourable, which occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period. In this instance, the Statement of Accounts is adjusted to reflect such events.
- Those relating to conditions that arose after the reporting period. In this instance, the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date when the Statement of Accounts is authorised for issue are not reflected in the Statement of Accounts.

(ix) Fair Value Measurement

The Council measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments such as equity shareholdings at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The Council measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the Council can access at the measurement date
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – unobservable inputs for the asset or liability.

(x) Financial Instruments

The Council adopted the IFRS 9 Financial Instruments accounting standard with effect from 1st April 2018.

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. As annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument, the effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the Council's borrowings this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest). Interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund balance to be spread over future years. The council has a policy of spreading the gain or loss over the term of the replacement loan that was used to refinance the loan against which the premium was payable or discount receivable. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required

against the General Fund balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified using an approach that is based on the business model for holding the financial assets and their cashflow characteristics.

There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The council's business model for most of its investments is to hold them to collect contractual cash flows. Financial assets are therefore classified as amortised cost. There are some exceptions, where the council holds strategic investments to help it meet other policy objectives, such as the support of economic development in the county. This means that some investments are ones where contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, from time to time the Council makes loans to voluntary organisations at less than market rates (soft loans). When soft loans are made, a loss is recorded in the CIES (debited to the appropriate service) for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited to the Financing and Investment Income and Expenditure line in the CIES at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the CIES to the net gain required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement. Any gains and losses that arise on the derecognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the CIES.

In addition, the council does have deferred payment policies where individuals are allowed to defer payment against an invoice raised by the council, for example where the council holds a legal charge against a property that enables sums to be reimbursed from sale proceeds at a later date. These are similar to loans at less than market rates and are referred to as soft loans. If any the lost interest against the soft loan was significant then adjustments would be made to the relevant service revenue account and Balance Sheet. However the impact on the council's revenue account of soft loans and lost interest is not financially significant and the accounts have not been adjusted to reflect these requirements.

Expected Credit Loss Model

The council recognises expected credit losses on all of its financial assets held at amortised cost or FVOCI, either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Profit or Loss (FVPL)

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the council can access at the measurement date.
- Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.
- Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

An equity instrument can be elected into a FVOCI treatment rather than a FVPL treatment if it is not held for trading. The council has reviewed its assets that would be measured at FVPL on the basis of the business model and has elected to classify instruments as either FVPL or FVOCI on an instrument-by-instrument basis based on the assessed benefit to the council from the chosen classification.

(xi) Government Grants and Contributions

Whether paid on account, by instalments or in arrears, Government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

(xii) Heritage Assets

The Council's Heritage Assets are predominantly on display in museum buildings and galleries in the city, held in storage or loaned out to other educational or cultural organisations.

These assets are all valued on a historic cost basis or an annual insurance valuation basis.

The Council holds numerous ancient monuments and statues which are not recognised on the Balance Sheet because of the diverse and often unique nature of the assets held and the lack of comparable market values.

There is no depreciation charge against heritage assets because it is estimated that the assets have an extended and indeterminate useful life such that any depreciation charge would be negligible. The carrying values of Heritage Assets are reviewed when there is evidence of impairments e.g. when an asset has

suffered physical deterioration or breakage or where doubts arise as to its authenticity. Any reductions to the carrying value of the assets are recognised and measured in accordance with the Council's general policy on impairments.

(xiii) Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the Intangible Asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible Assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no Intangible Asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an Intangible Asset is amortised over its useful life to the relevant service line in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line in the Comprehensive Income and Expenditure

(xiv) Interests in Companies and Other Entities

(a) Subsidiaries

Subsidiaries are all entities over which the Council has control. The Council controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Council's material subsidiaries are Bristol Holding Limited (which is directly held) and Bristol Waste Company Limited, Bristol Energy Limited and Goram Homes Limited (all of which are indirectly held). There are no non-controlling interests.

In the single entity accounts, the Council has opted to account for its investments in subsidiaries in accordance with Chapter 7 of the Code, Financial Instruments. The investments are accordingly classified as fair value through other comprehensive income (FVOCI) and are carried in the Balance Sheet at fair value. Changes in the fair value of the Council's investments in subsidiaries are recognised in Other Comprehensive Income. Impairments are recognised directly in the Surplus/Deficit on the Provision of Services.

In the group accounts, the subsidiaries are consolidated on a line by line basis with adjustments to eliminate intra-group transactions, balance and unrealised gains on transactions between the group entities. Where necessary, amounts reported by subsidiaries have been adjusted to conform to the Council's accounting policies.

b) Joint Arrangements

A Joint Arrangement is an arrangement of which two or more parties have joint control where the parties are bound by contractual arrangement and the contractual arrangement gives two or more of those parties joint control of the arrangement. Joint Arrangements are classified as Joint Ventures or Joint Operations.

The Council has no material Joint Ventures.

A Joint Operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement.

The Council has one Joint Operation being the West of England Local Enterprise Partnership. In respect of this, the Council accounts for:

- Its assets, including its share of any assets jointly held
- Its liabilities, including its share of any liabilities joint held
- Its revenue from the sale of its share of the output arising from the joint operation
- Its share of the revenue from the sale of the output by the joint operation
- Its expenses, including its share of any expenses incurred jointly.

(xv) Investment Property

Investment properties are those that are used solely to earn rental income and/or for capital appreciation. The definition does not apply if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale.

Investment properties are measured initially at cost and subsequently at fair value, based on “the highest or best price that can be obtained in the most advantageous market, in an arms’ length transaction between knowledgeable participants at the measurement date”. Investment Properties are not depreciated but are revalued annually according to market conditions at the year-end

Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rental Income received in relation to investment properties is credited to the Financing and Investment Income line and result in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and, for sale proceeds, the Capital Receipts Reserve.

(xvi) Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all of the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred. Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant or equipment - applied to write down the lease liability; and
- a finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period).

The Council is not required to raise Council Tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease; even if this does not match the pattern of payments (e.g. if there is a rent-free period at the commencement of the lease).

The Council as Lessor

Finance Leases

To date the Council has not granted any Finance Leases.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. if there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

(xvii) Minimum Revenue Provision (MRP)

The Council is not required to use Council Tax to fund depreciation, revaluation and impairment losses or amortisation of non-current assets. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to either an amount calculated on a prudent basis or as determined by the Council in accordance with statutory guidance.

(xviii) Overheads And Support Services

The Council operates and manages its support services within the Resources Directorate and this is how these services are reported to management. The costs of overheads and support services are therefore not re-apportioned (with the exception of ring fenced accounts such as the HRA, Public Health and Licensing).

(xix) Prior Period Adjustments

Prior period adjustments arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are only accounted for prospectively i.e. in the current and future years which are affected by the changes, they do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices, or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change in accounting policy is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances for the current year and comparative amounts for the prior period as if the new policy had always been applied.

Where material errors are discovered in prior period figures they are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

(xx) Service Concessions

Service concessions are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the contractor. As the Council is deemed to control the services that are provided under these schemes, and as ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) is balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non-current assets related to these contracts and recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council.

The amounts payable to the contract operator are analysed into the following elements:

- Fair value of any services received during the year;
- Finance cost - an interest charge of the effective rate of interest on the outstanding Balance Sheet liability;
- Contingent rent payable under the agreement;
- Lifecycle replacement costs where applicable;
- Payment towards liability - applied to write down the Balance Sheet liability to the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease).

(xxi) Property, Plant and Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Capital schemes above £0.25m are subject to annual review and any expenditure incurred which has not enhanced the asset's value is charged as an expense in the financial year that it is incurred. Expenditure on capital assets totalling less than £20,000 in any single financial year is classed as de-minimis and therefore is not capitalised but charged as an expense.

Measurement

Assets are initially measured at cost, comprising:

- The purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The Council does not capitalise borrowing costs.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure and community assets - depreciated historical cost;

- Assets under construction - historical cost;
- Dwellings - fair value, determined using the basis of existing use value for social housing (EUV-SH);
- Surplus assets – the current value measurement base is fair value, defined as “the highest or best price that can be obtained in the most advantageous market, in an arms’ length transaction between knowledgeable participants at the measurement date”;
- All other assets – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are revalued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

When decreases in value are identified, they are accounted for in the same way as an impairment.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for as follows:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains).
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line in the Comprehensive Income and Expenditure Statement.
- Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service line in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for the depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land, car parks, quay walls and lock gates, some Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- Council dwellings - are depreciated based upon component accounting basis. In the year of disposal six month depreciation is charged to the accounts.
- Other buildings - straight-line allocation over the useful life of the property as estimated by a qualified valuer;

- Vehicles, plant and equipment - a percentage of the value of each class of assets in the Balance Sheet;
- Infrastructure, (excluding quay walls and lock gates) - straight-line allocation over 25 years;
- Infrastructure, quay walls and lock gates in city docks are not depreciated as their economic life is beyond 100 years.

The Council applies component accounting to all assets with a net book value in excess of £5m - where the item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, identified components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Held for Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

When an asset is disposed of or is decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10k are categorised as capital receipts. A proportion of receipts relating to housing disposals is payable to the government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the HRA's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

(xxii) Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place whereby the Council has a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the relevant provision. Estimated settlements are reviewed at the end of each financial year, where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made); the provision is reversed and credited back to the relevant service.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent assets are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

(xxiii) Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

The category of unusable reserves includes those reserves which are kept to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council. These reserves are explained in the relevant notes.

(xxiv) Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account reverses out the amounts charged so that there is no impact on the level of council tax.

(xxv) Schools

The Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 confirms that the balance of control for local authority maintained schools (i.e. those categories of school identified in the School Standards and Framework Act 1998, as amended) lies with the local authority. The Code also stipulates that those schools' assets, liabilities, reserves and cash flows are recognised in the single entity accounts of the Council (and not the Group Accounts). Therefore schools' transactions, cash flows and balances are recognised in each of the financial statements of the Council as if they were the transactions, cash flows and balances of the Council.

Schools within the Council's group fall into the following categories

- 50 Community (12 Nurseries, 30 Primaries, 6 Special and 1 Alternative Provision Site)
- 1 Foundation Primary

Other types of school, such as voluntary aided and voluntary controlled schools, academies and free schools are outside of the Council's control and therefore not included in this Statement of Accounts.

(xxvi) Value Added Tax

The Comprehensive Income and Expenditure Account excludes amounts relating to VAT and will be included as an expense only if it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income within the Council's Income and Expenditure account.

2 Accounting Standards that have been issued but have not yet been adopted

The Code of Practice on Local Council Accounting in the United Kingdom (the Code) requires the Council to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted.

At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority Accounting in the United Kingdom:

IFRS 16 Leases will require local authorities that are lessees to recognise most leases on their balance sheets as right-of-use assets with corresponding lease liabilities (there is recognition for low-value and short term-leases). CIPFA/LASAAC has deferred implementation of IFRS16 for local government to 1 April 2021. This accounting change may have a significant impact on our accounts however currently there are no reliable estimates to quantify this.

3 Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are as follows:

The Council has completed a school by school assessment across the different types of school it controls within the City. The Council has assessed the legal framework underlying each type of school and determined the treatment of non-current assets within the financial statements according to whether it owns or has some responsibility for, control over or benefit from the service potential of the premises and land occupied. The Council has considered its accounting classification for each school on an individual case basis in conjunction with the relevant dioceses for voluntary aided and voluntary controlled schools.

- All community schools are owned by the Council and the land and buildings used by the schools are included on the Council's Balance Sheet.
- Legal ownership of Voluntary Controlled (VC) and Voluntary Aided (VA) school land and buildings usually rests with a charity, normally by a religious body. Legal ownership of 10 VA schools rests with Clifton Diocese. Legal ownership of the remaining VA and VC schools rests with Bristol Diocese. We understand that the Dioceses have granted a licence to the schools to use the land and buildings. Under this licence arrangement, the rights of use have not transferred to the schools and thus are not included on the Council's Balance Sheet.
- There are two Foundation Trusts in Bristol - the South East Bristol Educational Trust and the Trust in Learning – who own 3 schools in the City. The Council exercises no control over these Trusts so these assets are not included on the Council's Balance Sheet.
- Academies are not considered to be maintained schools in the Council's control. The land and building assets are either, not owned by the Council, or let on a long term lease (125 years) by the Council and therefore not included on the Council's Balance Sheet.

There is a high degree of uncertainty about future levels of funding for local government, with the postponement of the implementation of the Fair Funding Review, delays to the Adult Social Care funding green paper and uncertainties over the impact of the COVID-19 pandemic on major income streams. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.

The costs of the Schools Private Finance Initiative (PFI) Contracts exceed the income received from the Government Grant and School Contributions, leaving the Council with a liability under the PFI Contracts. All PFI Schools have now transferred to Academy status and these assets have been removed from the Council's balance sheet. Following a review of the costs and benefits, the Council considers the contract not to be onerous as the benefits significantly outweigh the costs.

In the single entity accounts, the Council has opted to account for its investments in subsidiaries in accordance with Chapter 7 of the Code, Financial Instruments. The investments are accordingly classified as fair value through other comprehensive income (FVOCI) and are carried in the Balance Sheet at fair value. Changes in the fair value of the Council's investments in subsidiaries are recognised in Other Comprehensive Income. Impairments are recognised directly in the Surplus/Deficit on the Provision of Services.

4 Assumptions made about the Future and other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future, or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2020 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Consequence if actual results differ from assumptions
Property, Plant and Equipment (excluding Council dwellings)	<p>Asset valuations are based on market prices and are periodically re-valued using a 5-year rolling programme to ensure that the Council does not materially misstate its property, plant and equipment. If market prices change significantly, over time there will be a corresponding increase or reduction in the value of Council land and buildings.</p> <p>The outbreak of Covid-19 has impacted on global financial markets and as at the valuation date less weight can be attached to previous market evidence to inform opinions of value.</p> <p>Valuations are therefore reported on the basis of "material valuation uncertainty" as per the RICS Red Book Global. Consequently, less certainty and a higher degree of caution should be attached to the valuation. At the current time it is not possible to accurately predict the longevity and severity of the impact of Covid-19 on the economy. Therefore values have been based on the situation prior to Covid-19 on the assumption that values will be restored when the market becomes more fluid.</p>	<p>A reduction in estimated valuations would result in reductions to the Revaluation Reserve and/or a loss recorded in the Comprehensive Income and Expenditure Statement. If the value of the Council's property, plant and equipment was to reduce by say 10%, this would result in a £104m change in cost value charged against the Revaluation Reserve and/or the Comprehensive Income and Expenditure Statement.</p> <p>A corresponding increase in estimated valuations would result in a combination of increases to the Revaluation Reserve and / or reversals of previous negative revaluations charged to the Comprehensive Income and Expenditure Statement.</p>
Pensions Liability	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to: the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on Pension Fund investments. The Council has engaged Mercer Ltd, a firm of consulting actuaries, to provide expert advice about the assumptions to be applied.</p>	<p>Variations in the key assumptions will have the following impact on the net pension liability</p> <ul style="list-style-type: none"> • a 0.1% increase in the discount rate will reduce the net pension liability by £57m • a 0.1% increase in the assumed level of pension increases will increase the net pension liability by £60m • a 0.1% increase in the assumed level of pay inflation will increase the net pension liability by £5.7m • an increase of one year in longevity will increase the net pension liability by £60m

Fair Value Estimation	<p>Asset valuations are based on either:</p> <ul style="list-style-type: none"> • market prices for investment property, surplus assets and non-current assets held for sale; or • the adjusted net worth of unquoted companies in which the Council has a controlling or significant interest. <p>At the current time it is not possible to accurately predict the longevity and severity of the impact of Covid-19 on the economy. Therefore it has been difficult to value investment property assets. Values have been based on the situation prior to Covid-19 on the assumption that values will be restored when the market becomes more fluid.</p>	If the value of the Council's investment property, surplus property and non-current assets held for sale, was to reduce by 10%, this would result in a £26m reduction to Property, Plant and Equipment and a corresponding reduction to Unusable Reserves in the Balance Sheet.
Britain leaving the European Union: asset values and pension liability	There is still uncertainty about the implications of Britain leaving the European Union. At the current time it is not possible to predict the agreement that will be reached at the end of the transition period. The assumption has been made that this will not significantly impair the value of the Council's assets or change the discount rate. However this assumption needs to be revisited and reviewed regularly.	Higher impairment allowances may need to be charged in the future if asset values fall. If the discount rate changes, the size of the net pension liability will also vary.

5 Events after the Balance Sheet Date

The Statement of Accounts was authorised for issue by the Section 151 Officer on xx August 2020. Events taking place after this date are not reflected in the financial statements or Notes. Where events taking place before this date provided information about conditions existing at 31 March 2020, the figures in the financial statements and Notes have been adjusted in all material respects to reflect the impact of this information.

Due to the downturn during the year of the market conditions in which Bristol Energy operate a decision was taken during June 2020 to proceed to seek a buyer for Bristol Energy, business and/or assets.

Given the extent of uncertainty regarding the final outcome of the matters currently under consideration, the Council cannot make a reliable estimate of the full financial implications to its accounts at this time.

6 Expenditure and Funding Analysis for the year ended 31 March 2020

The objective of the Expenditure and Funding Analysis is to demonstrate to council tax and rent payers how the funding available to the Council (i.e. government grants, rents, council tax and business rates) for the year has been used in providing services in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. The Expenditure and Funding Analysis also shows how this expenditure is allocated for decision making purposes between the Council's directorates. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Adjustments from General Fund to arrive at the Comprehensive Income & Expenditure Statement amounts								Net Expenditure in the Comprehensive Income and Expenditure Statement
	Revised Outturn		Net Expenditure Chargeable to the General Fund and HRA Balances	Adjustments for Capital Purposes (EFA Note 2)	Net change for the Pension Adjustments (EFA Note 3)	Other Differences (EFA Note 4)	Total Adjustments	
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Adults, Children and Education Resources	215,668	(14,360)	201,308	22,415	1,129		23,544	224,852

EFA Note 1 – Adjustments

The reallocation of transactions to/from service areas below the net cost of services to Other Income and Expenditure for example interest receivable and interest payable from Corporate Funding and Expenditure to Other Income and Expenditure. The removal of transfers to/from reserves included in outturn in Corporate Funding & Expenditure as these are not shown on the face of the CIES.

EFA Note 2 - Adjustments for Capital Purposes

Adjustments for capital purposes - this column adds in depreciation, impairment and revaluation gains and losses in the services line for:

- Other Operating Expenditure - adjusts for capital disposals with a transfer of income on disposal of asset and the amounts written off for those assets.
- Financing and investment income and expenditure - the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- Taxation and non-specific grant income and expenditure - capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The taxation and Non Specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

EFA Note 3 - Net change for Pension Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- For Services this represents the removal of the employer pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs.
- For Financing and investment income and expenditure this is the net interest on the defined benefit liability is charged to the CIES

EFA Note 4 - Other Differences

Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statements and amounts payable/receivable to be recognised under statute:

- For Financing and investment income and expenditure the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
- The charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

7 Expenditure & Income Analysed By Nature

	2019/20 £'000	2018/19 Revised £'000
Expenditure & Income Analysed By Nature		
Expenditure		
Employee Benefits Expense	378,049	361,641
Depreciation, Amortisation & Impairment	99,140	67,880
Other Service Expenditure	728,593	757,608
Total Expenditure	1,205,782	1,187,129
Income		
Fees, Charges and Other Service Income	(323,950)	(303,771)
Interest & Investment Income	(13,240)	(10,402)
Income from Council Tax & Non-domestic Rates	(357,352)	(350,161)
Government Grants, Other Grants and Contributions	(461,305)	(482,971)
Total Income	(1,155,846)	(1,147,306)
Surplus or deficit on the Provision of Services	49,935	39,823

7a Revenue from Contracts with Service Recipients

The Council contracts with service recipients as part of its normal operating activities. The table below sets out the material items of income within fees, charges and other service income in the table above.

	2019/20 £'000	2018/19 £'000
Contributions from Other Organisations	40,949	32,631
Health Authorities	24,521	20,452
Other Local Authorities	13,885	11,599
Social Care Charges	27,591	25,106
Sales of Services	7,050	6,682
Car Parking	13,098	13,294
Housing Revenue Account Income	121,875	123,524
Commercial Rents	14,560	13,294
Licencing	7,529	7,252

The Council has identified contractual arrangements in place in relation to Deferred Payments, where care users can use the value of their home to help pay care home costs. The following amounts were recognised in the Comprehensive Income and Expenditure Account as income,

	2019/20 £'000	2018/19 £'000
Client Contributions	26,514	23,994
Deferred Payments	1,077	1,112
Total	27,591	25,106

The following amounts were included in the Balance Sheet for contracts with service recipients, in relation to the contracts identified above

	2019/20 £'000	2018/19 £'000
Adult care and health residential	2,121	2,314
Adult care and heath	310	279
Total	2,431	2,593

With the exception of the above all contracts with service recipients are complete and, therefore, no contract obligations, assets or liabilities continue beyond this financial year.

8 Other Operating Expenditure

	2019/20 £'000	2018/19 £'000
Precepts and levies	9,226	7,691
Payments to the Government housing capital receipts pool	2,113	2,614
Losses/(gains) on the disposal of non-current assets	(8,963)	15,641
Total	2,376	25,946

9 Financing and Investment Income and Expenditure

	2019/20 £'000	2018/19 £'000
Interest payable and similar charges	35,268	35,354
Loss Allowance (Financial Guarantee Contracts)	5,379	-
Changes in the fair value of financial instruments*	11,722	-
Pensions net interest cost	23,029	21,106
Interest receivable and similar income	(10,232)	(10,213)
Income and expenditure in relation to Investment Properties	(11,474)	(11,272)
Changes in fair value of Investments	(13,245)	3,520
Total	40,447	38,495

*The change in the fair value of financial instruments reflects the estimated net downward revaluations of the Council's shareholdings as at 31 March 2020.

This primarily relates to Bristol Holdings decreasing by £14m net of the £2m increase in the Council's interest in the Bristol Port Company.

10 Taxation and Non-Specific Grant Income

	2019/20 £'000	2018/19 £'000
Council tax income	(215,117)	(198,132)
Non-domestic rates	(142,236)	(152,029)
Non-service related government grants	(10,408)	(12,020)
Capital grants and contributions	(33,664)	(27,786)
Total	(401,425)	(389,967)

11 Pooled Budgets

Better Care Fund

The Better Care Fund (BCF) was established to support the integration of health and social care as a basis for joint planning the delivery of local services. The current BCF was established in April 2018 as part of a joint two year programme between Bristol City Council and NHS Bristol Clinical Commissioning Group agreed under Section 75 of the National Health Service Act 2006. The formal governance of the BCF is through the Joint Commissioning Board and the Bristol Health and Well Being Board.

Under this Section 75 agreement there are five funds totalling £79.911m in 2019/20 and administered by whichever body undertook the contracting arrangements.

Fund 1 is administered by Bristol Clinical Commissioning Group and totals £15.608m. The fund includes contributions from the CCG only, which have been paid to providers contracted to support the sub schemes Reduction in Hospitals Admissions, Frail and Complex, Falls Prevention and Reablement. The CCG controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

Fund 2 is administered by Bristol Clinical Commissioning Group and totals £0.639m. The funding is provided to Bristol City Council to offset in-year contract price and cost pressures.

Fund 3 is hosted by Bristol City Council and totals £3.110m, which is wholly made up of the Disabled Facilities Grant. The fund includes contributions from the City Council only, which are paid directly to providers. The City Council controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

Fund 4 is a joint arrangement hosted by Bristol City Council and totals £44.755m. Both the CCG and Bristol City Council contribute towards the source of funding. The City Council is the Lead Commissioner for the services commissioned through this fund. The risks are shared based on the area of spend. The CCG owns the risks for Health related spend and Bristol City Council holds the risk for Social Care related spend as per the section 75 agreement.

Fund 5 is hosted by Bristol City Council and totals £16.515m, which is wholly made up of the improved Better Care (iBCF) and Winter Pressures funds. The fund includes contributions from the City Council only, which are paid directly to providers. The City Council controls this fund in its entirety and wholly owns any risk relating to this fund as per the Section 75 agreement.

1 D Murray acted into this position but retained S151

2. The Head of Paid Service post was covered by Executive Director Adults, Children and Education for no extra remuneration until this permanent appointment was made

3. This post was deleted from December 2018 when the structure move from four Directorates to three

4 The post of Her Majesty's Coroner for the area of Avon is shared across four Unitary Authorities. The current percentage share is: Bristol 40.04%, Bath & North East Somerset 16.45%, North Somerset 18.94% and South Gloucestershire 24.57%

5 The Service Director Care and Support Adults was an interim for the period April – December 2018. For the period January to March 2019 he was employed directly by the Council

6 S151 responsibilities were covered by the Acting Director of Resources

Fees paid in respect of individuals engaged on an interim basis

The Council also secured services from various individuals on an interim basis during 2017/18 and 2018/19. The fees payable by the Council in respect of these individuals amounted to £150,000 or more pro rata, in 2018/19 were as follows:

- N Greenhalgh, who holds the position of **Project Manager Growth & Regeneration** from March 2018 to March 2019 at a cost to the Council in 2018/19 of £239,788 (2017/18 of

£15,448);

- N Owens, who holds the position of **Specialist Project Manager** from August 2018 to March 2019 at a cost to the Council in 2018/19 of £163,566;
- S Somerfield, who held the position of **Interim Service Director ICT** from December 2017 to September 2018 at a cost to the Council in 2018/19 of £109,319 (2017/18 of £71,610);
- A Stubbersfield, who holds the position of **Interim Service Director Education and Skills** from September 2018 to March 2019 at a cost to the Council in 2018/19 of £109,984;
- J Walsh, who holds the position of **Service Director Human Resources & Workforce** from July 2017 to March 2019 at a cost to the Council in 2018/19 of £160,558 (2017/18 of £152,610);
- P Wharfe, who held the position of **Interim Service Director Housing** from February 2018 to December 2018 at a cost to the Council in 2018/19 of £97,650 (2017/18 of £24,180);

In addition to the remuneration of senior employees set out above, the number of the Council's employees receiving more than £50,000 remuneration for the year (excluding employer's contributions) is set out in the table below:

Remuneration band	2019/20		2018/19	
	Schools	Non-Schools	Schools	Non-Schools
£50,000 - £54,999	15	32	25	27

Total	13	50	33	46	46	96	991	2,690

14 External Audit Costs

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors Grant Thornton.

	2019/20 £'000	2018/19 £'000
Fees payable to the External Auditor with regard to external audit services carried out by the appointed auditor for the year	211	233
Fees payable to the External Auditor for the certification of grant claims and returns for the year	29	31
Fees payable in respect of other services provided by the External Auditor during the year	-	10
Total	240	274

15 Dedicated Schools Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Education Funding Agency (EFA), the Dedicated Schools Grant (DSG). Once allocated to a local authority an element is recouped by the EFA to fund academy schools in the council's area. The DSG is ring-fenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance and Early Years (England) Regulations 2018. The Schools Budget includes elements for a range of educational services provided on a Council wide basis and for the Individual Schools Budget (ISB), which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable are shown in the following table:

2018/19 £'000			2019/20 £'000			
Central Expenditure	ISB	Total	Notes	Central Expenditure	ISB	Total
		343,431		Final DSG before academy recoupment		355,148
		173,360		Less: Academy figure recouped for year	1	189,088
		170,071		Total DSG after academy recoupment		166,060
		(1,016)		Plus: Brought forward from previous year	2	1,962
		517		Less: Carry forward agreed in advance	3	(2,407)
24,521	144,017	168,538		Agreed initial budgeted distribution	27,100	143,329
301	-	301		In year adjustments	4	(105)
24,822	144,017	168,839		Final budgeted distribution	27,100	143,224
23,377	-	23,377		Less: actual central expenditure	27,585	-
-	148,117	148,117		Less: actual ISB deployed to schools	-	143,224
-	4,100	4,100		Plus: LA contribution for year	-	-
1,445	0	1,445		Carry forward	(485)	0
		517		Carry forward agreed in advance		(2,407)
		1,962		Total carried forward (Note 18)	5	(2,892)

1. The academy recoupment in 2018/19 comprised 71 academies open at the start of the year plus 9 school conversions in the year. The academy recoupment in 2019/20 comprised 80 academies open at the start of the year plus 3 that converted in year.
2. This is the brought forward figure from 2018/19.
3. Agreement with School Forum and Cabinet in January 2019, to accelerate funding from 2020/21 DSG to reflect in-year pressure in High Needs Block.
4. The in-year estimated adjustment for the final early years block funding 2019/20, following the January 2020 census data up-date, due in summer 2020.
5. The total carry forward deficit is £2,892m for the year. Included in the carry forward are surpluses for delegated budgets of £0.464m and Schools Block of £0.174m, with offsetting deficits of (£1.102m) in High Needs Block, (£0.020) in Early Years Block and (£2.407m) of advance funding.

16 Grant Income

The Council credited the following grants and contributions to the Comprehensive Income and Expenditure Statement in 2019/20:

Credited to Taxation and Non Specific Grant Income:

	2019/20 £'000	2018/19 £'000
Capital grants and contributions (Note 10 & see below)	33,636	27,786
Non service related government grants (Note 10)	10,408	12,020
Total	44,044	39,806

Capital grants and contributions

	2019/20 £'000	Restated 2018/19 £'000

18 Usable Reserves

Reserves represent the Council's net worth and show its spending power. Usable reserves result from the Council's activities and can be spent in the future. This note sets out the amounts set aside and posted back to Usable Reserves in 2019/20, they include:

- General Fund Strategic Reserve – to cushion the impact of unexpected events or emergencies
- Earmarked Reserves – to provide financing to meet known or predicted future General Fund expenditure plans
- School Balances/DSG – amounts required by statute to be set aside for future expenditure in schools
- Housing Revenue Account Reserves – amounts specifically required by statute to be set aside and ring-fenced for future investment in HRA
- Capital reserves – includes capital receipts and capital grants set aside to finance future capital spending plans

Details of the earmarked reserves are set out below:

RESERVE	PURPOSE
Capital Investment Reserve	The capital reserve is maintained to provide funding for the Council's capital investments and growth in Enterprise areas.
Business Transformation Reserves	Invest to save funds. The reserve will be used to fund one-off costs attributed to delivery of savings in the currently agreed programme.
Risk Reserves	Risk Reserves Funds set aside to mitigate known risks not otherwise provided for including, volatility in Housing Benefit Subsidy and uninsured risks.
Statutory/Ring-fenced reserves	Amounts required by statute or accounting code of practice to be set aside and ring-fenced for specific purposes, e.g. Public Health Reserve, City Deal Business Rate Pooling and Stoke Park Dowry.
Technical/Financing Reserve	Technical Financial Reserves - Includes PFI sinking fund, grant income carried forward in accordance with accounting regulations and resources set aside to match known contract liabilities.
Service specific reserves	Amounts set aside to finance specific projects or to meet known expenditure plans, including: - Bristol Futures - to provide new technology to improve public services - Development Fund primarily to fund Docks Asset Survey existing and proposed regeneration schemes - Housing Support to provide support for homelessness issues

19 Property, Plant and Equipment Movements in 2019/20

The valuations, excluding vehicles, plant, equipment, infrastructure assets and community assets are carried out by Richard Fear, MRICS, Property Investment Manager – Growth & Regeneration. The basis for the valuation of all assets is set out in the statement of accounting policies.

- Movement of assets held at historic cost to depreciated replacement cost
- Specialised assets are valued on a depreciated replacement cost basis and are subject to a number of varying factors such as build costs

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. The following useful lives and depreciation rates have been used:

- Council Dwellings 16–50 years
- Other Land and Buildings 5–60 years
- Vehicles, Plant, Furniture and Equipment 3–8 years
- Infrastructure – 25 years (quay walls and lock gates in City Docks not depreciated as useful life beyond 100 years)

Capital Commitments

At 31 March 2020 the Council had entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment with outstanding contract commitments of £101.8m.

Significant contractual commitments outstanding at 31 March 2020 were as follows:

		£m
Avonmouth and Severnside Enterprise Area - Flood defences	South Gloucestershire Council	29.9
Major refurbishment project at Colston Hall	Willmott Dixon Construction Ltd	26.7
School Expansion - Cathedral Schools Trust Trinity Academy	Bristol LEP Ltd (Skanska)	16.9
New Housing Provision - Ashton Rise	Willmott Dixon Construction Ltd	6.0
ICT Refresh Programme - Purchase of new laptops	XMA Ltd	3.6
New Housing Provision - Registered Provider grants	United Communities Ltd	3.1
Priority Stock - Refurbishment	Rateavon Ltd	2.4
Transport - Floating pontoon walkway	Knights Brown Construction Ltd	2.3
Energy District Heat Networks installation	CSW Process Ltd	2.2
New Housing Provision - 3 development sites	Perfect Circle JV Ltd	1.7
School Expansion - Kingsweston Block C Post-16 & The Keep	Bristol LEP Ltd (Skanska)	1.7
Energy Centre Water Source Heat Pump	Jewson Ltd	1.4
ICT Refresh Programme - Storage Area Network Replacement	Centerprise International Ltd	1.3
New Housing Provision - Modular units	Lesko Modular Group Ltd	1.1
	Total	100.3

Revaluations

The Council carries out a rolling programme that ensures all Property, Plant and Equipment required to be measured at fair value is revalued at least every 5 years. All valuations were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Vehicles, Plant and Equipment are valued at historic cost, which is considered to be a suitable proxy for fair value.

The following table shows the effective valuation dates for all Property Plant and Equipment:

	Council Dwellings	Other Land and Buildings	Vehicles, Plant, etc.	Infrastructure	Community Assets	Assets Under Construction	Surplus Assets	Total Property, Plant and Equipment
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Carried at historical cost	-	7,153	81,595	355,103	7,681	785	-	452,317
1 October 2019	1,685,723	531,279	-	-	-	270	42,022	2,259,294
1 October 2018	-	12,121	-	-	-	300	-	12,421
1 December 2017	-	11,269	-	-	-	10,356	-	21,625
1 April 2016	-	37,416	-	-	-	-	78	37,494
1 April 2015	-	56,859	-	-	-	-	13	56,872
Total cost valuation	1,685,723	656,097	81,595	355,103	7,681	11,711	42,113	2,840,023

In addition the Council has instructed its valuers to undertake a review of all assets held in the Other Land and Buildings category to ensure that the carrying value of assets last valued in previous years is not materially different from their fair value. In order to perform this exercise the Other Land and Building category was split into sub categories, e.g. schools, car parks, leisure and culture etc. The review concluded that the fair value was not materially different from the carrying value at the Balance Sheet date.

20 Heritage Assets

Reconciliation of the carrying value of Heritage Assets held by the Council.

	Ethnography & Foreign Archaeology				Antiquarian books £'000	Other £'000	Total £'000
	Art Collection £'000	Archaeology £'000					
Cost or valuation							
01 April 2019	125,031	42,593			7,675	26,795	202,094
Additions	335					5	340
Revaluations	1,259	-5			-	368	1,622
31 March 2020	126,625	42,588			7,675	27,168	204,056
Cost or valuation							
01 April 2018	124,600	42,584			7,675	26,235	201,094
Additions	-	-			-	-	-
Revaluations	431	9			-	560	1,000
31 March 2019	125,031	42,593			7,675	26,795	202,094

The above collection of Heritage Assets are predominantly valued on an annual insurance valuation basis, and some items classified as “other” are valued at historic cost.

Heritage Assets: Further Information on the Museum's collections

Loans

The Museum occasionally makes available loan items from its collection to regional and national museums and borrows collections for specific exhibitions. Collections not on display are held in secure storage but access is permitted on an appointment basis.

Preservation

The collections have been under the care of conservators since the 1940s. They specialise in antiquities, paintings, paper and photographs, and preventive conservation and are based at Bristol Museum and Art Gallery. Our conservators:

- prepare artefacts for display
- set conservation standards for the refurbishment of permanent exhibitions
- prepare artefacts for loan to other institutions
- check new acquisitions
- assess the condition of objects and work on the installation of temporary exhibitions
- work to improve collections storage
- maintain permanent displays - this includes training staff and cleaning objects.

21 Investment Properties

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

	2019/20 £'000	2018/19 £'000
Rental income from Investment Property	11,998	11,815
Direct operating expenses arising from Investment Property	(524)	(543)
Net gain	11,474	11,272

There are no restrictions on the Council's ability to realise the value inherent in its Investment Property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop Investment Property or to carry out repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of Investment Properties over the year:

	2019/20 £'000	2018/19 £'000
Balance at start of the year	249,251	255,415
Additions – purchases	-	64
Disposals	(289)	(2,512)
Net gains/losses from fair value adjustments	13,244	(3,520)
Transfers to/from Property, Plant and Equipment	(120)	(196)
Balance at end of the year	262,086	249,251

Gains or losses arising from changes in the fair value of the investment property are recognised in the surplus or deficit on the provision of services – financing and investment.

Fair Value Hierarchy

Details of the authority's investment properties and information about the fair value hierarchy are as follows:

	Other significant observable inputs (Level2)	
	2019/20 £'000	2018/19 £'000
Retail	119,745	109,470
Industrial	85,559	85,023
Office	56,782	54,758
Balance at end of the year	262,086	249,251

The investment properties have been valued by the Council's in-house valuers (all RICS qualified) and by external specialists on an investment income basis which represents highest and best use overall.

There is a strong market for such property within Bristol with different markets for different sectors. Bristol City Council has a significant diverse portfolio of properties in the boundary of Bristol and has significant in-house experience of managing its estate. In determining the value of each asset we have taken into account quoted prices for similar properties within the local market, existing lease terms and rentals, current market rentals and yields, the covenant strength for existing tenants and data and market knowledge from managing the Council's investment property portfolio, leading to the properties being categorised at Level 2 in the fair value hierarchy.

22 Intangible Assets

The Council accounts for its Information Technology (IT) system software as Intangible Assets which includes purchased licenses covering a period of more than a year. All software is amortised over five years (this is based on assessments of the period that the software is expected to be of use to the Council). All software is carried at cost (used as a proxy for fair value) given the short life of the asset.

The carrying amount of Intangible Assets is amortised on a straight-line basis. The amortisation of £3.2m charged to revenue in 2019/20 was charged to the central ICT cost centre and the Housing Revenue Account. The charge to central ICT was absorbed as an overhead across all the service headings in the Net Cost of Service. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading. The main purchases in 2019/20 relate to system improvements from within the IT Transformation programme (ITTP) and the development of the HR/Finance system.

The movement on Intangible Asset balances during the year is as follows:

	2019/20 £'000	2018/19 £'000
Balance at start of the year		
Gross carrying amounts	26,172	22,476
Accumulated amortisation	-12,585	-10,202
Accumulated impairment	-2,014	-2,014
Net carrying amount at start of year	11,573	10,260
Additions:		
Purchases	7620	3,696
Amortisation for the period	-3,235	-2,383
Net carrying amount at the end of year	15,958	11,573
Comprising:		
Gross carrying amounts	33,792	26,172
Accumulated amortisation	-15,820	-12,585
Accumulated impairment	-2,014	-2,014
Balance at end of the year	15,958	11,573

23 Financial Instruments

The borrowings and investments disclosed in the Balance Sheet are made up of the following categories of financial instruments. The value of debtors and creditors reported in the table are those amounts meeting the definition of a financial instrument. The balances of debtors and creditors reported in the balance sheet and associated notes also include balances which do not meet the definition of a financial instrument, such as tax-based debtors and creditors.

	Long-Term		Current	
	31 March 2020	31 March 2019	31 March 2020	31 March 2019
	£'000	£'000	£'000	£'000
Financial Liabilities at Amortised cost				
Borrowing	(450,488)	(430,488)	(14,778)	(4,998)
Service Concessions	(131,735)	(129,013)	(8,820)	(6,415)
Creditors	(84)	(78)	(157,013)	(115,020)

Financial Assets at amortised cost				
Investments	1	2	102,502	67,461
Debtors	10,487	1,677	70,039	70,217
Financial Assets at Fair Value through Other Comprehensive Income				
Investment	350	550	-	-
Financial Assets at Fair Value through profit and loss				
Investments	47,080	51,310	56,017	19,019
Total Financial Assets	57,918	53,539	228,558	156,697

Movements

The increase in financial liabilities, circa £75m relates to £30m of long term borrowing undertaken during the year to support the capital programme and increase in the value of general creditors (£32m) during the year. This was mainly due to £30m Covid19 grants received in advance.

The financial assets increased by circa £75m through a combination of increases in working capital and reserves resulting in additional cash resources to invest in lieu of using these resources.

Borrowing

	31 March 2020 £'000	31 March 2019 £'000
Current borrowing		
Deposit loans (repayable at notice - up to 7 days)	151	101
Other short term borrowing (repayable within 1 year):		
- Public Works Loan Board	13,470	3,737
- Banks and other monetary sector	1,136	1,139
- Local bonds and property rent disposals	11	11
- Stocks	10	10
Total	14,778	4,998
Non-current borrowing		
Public Works Loan Board	330,439	310,439
Lender Option Borrower Option (Lobo)	70,000	70,000
Market Debt	50,000	50,000
Stocks	49	49
Total	450,488	430,488

The Council undertook £30m of new long term borrowing at historic low rates in accordance with the Council's Treasury Management Strategy to support the financing of the Council's capital programme.

Income, Expense, Gains or Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement for financial instruments are as follows:

Financial Instruments Gains and Losses 2019/20

	Financial Liabilities		Financial Assets			Total
	Measured at amortised cost	Amortised Cost	Fair Value through the CI	Fair Value through the P&L		
	£'000	£'000	£'000	£'000	£'000	£'000

Fair Value of Financial Assets and Property Assets

Some of the authority's financial assets are measured in the Balance Sheet at fair value on a recurring basis and are described in the following table, including the valuation techniques used to measure them.

Descriptions	Fair value measurements at 31 March 2020 using:			Fair value measurements at 31 March 2019 using:		
	Quoted prices in active markets	Observable inputs	Unobservable inputs	Quoted prices in active markets	Observable inputs	Unobservable inputs
	Level 1 £000	Level 2 £000	Level 3 £000	Level 1 £000	Level 2 £000	Level 3 £000
Recurring fair value measurements						
Fair Value through Profit and Loss						
Money Market Funds	56,017			19,019		
Bristol Port Company (Non-traded Unquoted Equity Investment)	-		27,000			25,000

Total non-recurring fair value measurements	-	723	-	-	3,572	-

Valuation techniques and Inputs				
Description of asset	Valuation hierarchy	Basis of Valuation	Observable and Unobservable inputs	Key sensitivities affecting the valuations provided
Money Market Funds	Level 1	Unadjusted quoted prices in active markets for identical shares	Latest quoted prices	
Surplus assets	Level 2	All surplus assets have been valued by RICS qualified valuers to Fair Value less costs to sell, reflecting highest and best use.	Evidence of title, floor area, siting and site conditions, type/age and current use of the property have been taken into account together with general market conditions and advertised value of similar properties currently up for sale.	Not all assets are physically inspected every year. Latent defects, repair and maintenance backlogs, general changes in the market and other impairments could have a significant impact on the values provided.
Investment Properties (further detailed information in note 21)	Level 2	All investment properties have been valued by the Council's in-house valuers (all RICS qualified) on an investment income basis which we are satisfied represents highest and best use overall.	All valued on an investment income basis, using existing lease terms and current yields	Changes to market conditions, lease terms, covenant strength and occupancy levels could all affect the asset valuations provided.

Bristol Port Company	Level 3	This investment has been valued by an external specialist valuation company.	Calculations have been based an income approach to valuation, by applying a multiple derived from the market to a maintainable profit figure.	Changes to market conditions (local and global), and the comparable data used within the valuations. If the growth of future returns are greater or lesser by 1% than the 2% forecast, the fair value will be circa £750k higher or lower respectively.
Bristol Holdings	Level 3	This investment has been valued at the Council's share of each company's net assets.	Calculations have been based on their unaudited accounts and adjusted for customer base valuation as at 31 March 2020.	Valuations could be affected by the difference between audited and unaudited accounts, market conditions resulting in changes in customer number or price per customer. If for example the indicative price per customer used in this valuation is greater or lesser than £5 per customer, the fair value will be £375k higher or lower respectively.
Investments in other unquoted companies	Level 3	These investments have been valued at the Council's share of each company.	Calculations have been based on their latest audited accounts	The value of these companies are relatively low (£450k) so any change in the metrics used in the valuation technique will not have a material impact.

Investments in Pooled Property Fund	Level 3	These investments have been valued at the Council's share within the pooled fund.	The valuation for Pooled Property Funds have been based on the latest quarterly financial report	Changes to housing market conditions could affect the valuation of the pooled property fund. If the market value of the properties within this fund is greater or lesser than 1% the fair value of the fund will be £90k higher or lower respectively.
-------------------------------------	---------	---	--	--

Transfers between levels of the fair value hierarchy

There were no transfers between levels 1 and 2 during the year.

Changes in valuation technique

There has been no change in valuation techniques used during the year.

Reconciliation of fair value measurements for assets at fair value within level 3

Description	31 March 2020	31 March 2019
	Non-traded securities	Non-traded securities
	£000	£000
Opening balance	51,860	20,360
Re-measurement 1/4/19	-	25,350
Transfers into level 3	-	-
Transfers out of level 3	-	-
included in the surplus/(deficit) on the Provision of Services	(11,722)	(150)
included in Other Comprehensive Income and Expenditure	-	-
Total gains/(losses) for the period:	(11,722)	(150)
Additions	7,842	6,500
Disposals	(550)	(200)
Closing balance	47,430	51,860

Gains and losses included in the surplus / (deficit) on the provision of services for the current year primarily relates to the investments in the Bristol Port Company (+£2m) and Bristol Holdings (-£14m). The additions mainly relates to the acquisition of share capital in Bristol Holdings.

The Fair Values of Financial Assets and Financial Liabilities that are not Measured at Fair Value

Except for the financial assets carried at fair value (described in the table above), all other financial liabilities and financial assets represented by loans and receivables and long term debtors and creditors are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments, using the following assumptions:

- For loans from the PWLB payable, prevailing market rates have been applied to provide the fair value under PWLB debt redemption procedures. An additional note to the tables sets out the alternative fair value measurement applying the premature repayment, highlighting the impact of the alternative valuation;
- For non-PWLB loans payable, prevailing interest rates have been applied to provide the fair value;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

Financial Liabilities	31 March 2020		31 March 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Public Works Loan Board (PWLB)	343,909	480,200	314,176	478,900
Lender Option Borrower Option	70,663	99,400	70,670	104,500
Market Debt	50,473	69,200	50,469	72,700
Current Creditors	157,013	157,013	115,020	115,020
Service Concessions	140,555	212,819	135,428	224,104
Other	305	305	249	249
Total Liabilities	762,918	1,018,937	686,012	995,473

The Authority has used a transfer value for the fair value of financial liabilities. We have also calculated an exit price fair value of £1.359bn an increase of £336m which is calculated using early repayment discount rates. The Authority has no contractual obligation to pay these penalty costs and would not incur any additional cost if the loans run to their planned maturity date.

The fair value for financial liabilities and assets has been assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the assumptions detailed above; the fair value is arrived at by applying the discounted cash flow calculations based on the PWLB premium/discount calculations.

The fair value of the liabilities is higher than the carrying amount because the Authority's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss (based on economic conditions at 31 March 2020) arising from a commitment to pay interest to lenders above current market rates.

Financial Assets	31 March 2020		31 March 2019	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000	£000	£000	£000
Current investments	33,076	33,076	60,063	60,063
Cash and Cash Equivalents	69,426	69,426	7,397	7,397
Non-current investments	1	1	2	2
Current Debtors	70,039	70,039	70,217	70,217
Non-current debtors	10,847	10,847	1,677	1,677
Total Financial Assets	183,029	183,029	139,356	139,356

The fair value of the assets is the same as the carrying value due to the majority of these assets having a maturity of less than 12 months or is a trade or other receivable where the fair value is taken to be the carrying amount or the billed amount.

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value.

Fair value hierarchy for financial assets and financial liabilities that are not measured at fair value

Descriptions	Fair value measurements at 31 March 2020 using:			Fair value measurements at 31 March 2019 using:		
	Quoted prices in active markets	Observable inputs	Unobservable inputs	Quoted prices in active markets	Observable inputs	Unobservable inputs
	Level 1 £000	Level 2 £000	Level 3 £000	Level 1 £000	Level 2 £000	Level 3 £000
Recurring fair value measurements using:						
Financial Liabilities held at Amortised Cost						
Public Works Loan Board (PWLB)		343,909			314,176	
Lender Option Borrower Options		70,663			70,670	
Market debt		50,473			50,469	
Service Concessions		140,555			135,428	
Other		305			249	
Total		605,905			570,992	
Financial Assets held at amortised cost						
Current Investments		33,076			60,063	
Cash and Cash Equivalents		69,426			7,397	
Non-current Investments		1			2	
Non-current Debtors		10,487			1,677	
Total		112,990			69,140	

The fair value for financial liabilities and financial assets that are not measured at fair value included in Levels 2 and 3 in the table above have been arrived at using a discounted cash flow analysis with the most significant inputs being the discount rate detailed above.

The fair value for financial liabilities and financial assets that are not measured at fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the assumptions detailed above, primarily for financial liabilities the fair value is arrived at by applying the discounted cash flow calculations based on the PWLB premium/discount calculations.

24 Nature and Extent of Risks Arising from Financial Instruments

The Authority's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Authority.
- Liquidity risk – the possibility that the Authority might not have funds available to meet its commitments to make payments.
- Re-financing risk – the possibility that the Authority might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms.
- Market risk – the possibility that financial loss might arise for the Authority as a result of changes in such measures as interest rates and money market movements.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by a central treasury team, under policies approved by the Council in the annual treasury management strategy, and compliance with the CIPFA Prudential Code of Practice, the CIPFA Treasury Management Code of Practice, and Investment Guidance that is issued under the Local Government Act 2003. The Council provides written principles for overall risk management, as well as written policies covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These are required to be reported and approved at or before the Council's annual Council Tax setting budget or before the start of the year to which they relate. These items are reported with the annual treasury management strategy that outlines the detailed approach to managing risk in relation to the Council's financial instrument exposure. Actual performance is also reported annually to Members.

The annual treasury management strategy which incorporates the prudential indicators was approved by Council on 26 February 2019 and is available on the Council website.

Credit risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

This risk is minimised through the Annual Investment Strategy, which requires that deposits are not made with financial institutions unless they meet identified minimum credit criteria, in accordance with Fitch, Standard and Poor's and Moody's Credit Ratings Services. The Annual Investment Strategy also imposes a maximum sum to be invested with a financial institution located within each category.

Details of the Investment Strategy can be found on the Council's website. The key areas of the Investment Strategy are that the minimum criteria for investment counterparties include:

- Credit ratings of Short Term of F1, Long Term A-, with the lowest available rating being applied to the criteria;
- UK institutions provided with support from the UK Government;

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies will vary according to credit ratings assigned by the three main credit rating agencies and cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Authority's deposits, but there was no evidence at the 31 March 2020 that this was likely to crystallise.

Allowance for Credit Losses

The following analysis summarises the Council's potential maximum exposure to credit risk on financial assets valued at amortised cost, based on experience of default and un-collectability over the last five financial years, adjusted to reflect current market conditions.

	Amount	Historical experience of default	Adjustment for market conditions	Estimate d maximum exposure to default	Estimate d maximum exposure to default
	£000	%	%	£000	£000
	A	B	C	(A*C)	
Non-Current Investments:					
Non-traded securities		-	0.00%	0.00%	-
Sub-total		-		-	-
 Current Investments:					
Local Authorities	72,493		0.00%	0.00%	-
AA rated counterparties	41		0.02%	0.02%	- 8
A rated counterparties	29,968		0.06%	0.06%	18 14
Sub-total	102,502			18	22
 Trade debtors	70,039				-
Non-current debtors	10,488				-
 Total Financial assets	183,029			18	22

The estimated maximum exposure for credit loss for Treasury investments is £18k and therefore no allowance for credit loss have been made for these assets.

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Council does not generally allow credit for its trade debtors, including amounts due from government departments and other Local Authorities.

Debtor analysis	Gross debtor at	Allowance for credit losses at	Net debtor at	Net debtor at
	31-Mar-20	31-Mar-20	31-Mar-20	31-Mar-19
Restated				
Local tax payers	£'000 16,390	£'000 (10,291)	£'000 6,099	£'000 8,362
Housing rents	12,485	(9,605)	2,880	2,614

Other local authorities	1,636	-	1,636	1,705
NHS bodies	749	-	749	6,617
Total debtors	153,160	(50,368)	102,792	102,146
Balance sheet debtors	153,160	(50,368)	102,792	102,146
Current debtors not qualifying as a financial instrument under IFRS	(43,043)	10,291	(32,752)	(31,929)
Current debtors qualifying as a financial instrument under IFRS	110,117	(40,077)	70,040	70,217

The following table analyses the Gross debt that is now past due over varying periods. This overdue debt is covered by a provision for bad debt.

	31 March 2020	31 March 2019
	Restated	
	£'000	£'000
Less than three months	30,438	20,336
Three to four months	1,521	1,555
Four months to one year	9,474	8,121
More than one year	38,863	39,242
Total	80,296	69,254

Liquidity risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen, the Council has ready access to borrowings from the money markets to cover day-to-day cash flow need and the Public Works Loans Board and capital markets for access to longer term funds. The Council is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. Therefore, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial assets, excluding sums due from customers, is as follows:

	31 March 2020	31 March 2019	Restated
	£'000	£'000	
Less than 1 year	228,558	156,696	
Between 1 and 2 years	1,582	436	
Between 2 and 3 years	1,191	439	
More than 3 years	55,145	52,665	
Total	286,476	210,236	

The maturity analysis of financial liabilities is as follows:

	31 March 2020	31 March 2019
	£'000	£'000
Less than 1 year	180,611	126,433
Between 1 and 2 years	8,651	17,024
Between 2 and 3 years	13,553	7,025
More than 3 years	560,103	535,531
Total	762,918	686,013

Refinancing and Maturity risk

The Council maintains a significant debt and investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Council relates to the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer-term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits on investments placed for greater than one year in duration are the key parameters used to address this risk. The Council approved treasury and investment strategies address the main risks and the central treasury team address the operational risks within the approved parameters. This includes:

- Monitoring the maturity profile of financial liabilities and amending the profile through either new borrowing or the rescheduling of the existing debt; and
- Monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Council's day-to-day cash flow needs, and monitoring the spread of longer-term investments provides stability of maturities and returns in relation to the longer-term cash flow needs.

The maturity profile of the Council's debt portfolio along with the Council's approved minimum and maximum exposure is shown in the table below.

	Approved minimum limits	Approved maximum limits	Actual 31 March 2020	%	Actual 31 March 2019	%
	£'000	£'000			£'000	
Less than 1 year	-	30	14,778	3%	4,997	1%
Between 1 and 2 years	-	40	-	-%	10,000	2%
Between 2 and 5 years	-	40	10,000	2%	5,000	1%
Between 5 and 10 years	-	50	49,000	11%	49,000	8%
More Than 10 Years	25	100	391,488	84%	366,489	88%
Total			465,266	100%	435,486	100%

Included within the maturity profile are £50m of LOBOS with maturities averaging 40 years. Inherent within these loan instruments are options (averaging an option every 3 years) that could give rise to the debt being repaid early. These loans are regularly reviewed with the current and expected structure of interest rates. The risk of the lenders exercising their options is currently low for the short to medium term. Therefore, the maturity of these loans in above table are currently based on their maturity date, 10 years and over.

Market risk

The Council is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates – the interest expense charged to the Comprehensive Income and Expenditure Statement will rise;
- Borrowings at fixed rates – the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates – the interest income credited to the Comprehensive Income and Expenditure Statement will rise; and
- Investments at fixed rates – the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the balance sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in the Other Comprehensive Income and Expenditure Statement.

The Council has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Council's expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The central treasury team will monitor market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long term returns, similarly the drawing of longer term fixed rates borrowing would be postponed.

At 31 March 2019, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

	31 March 2020 £'000
Increase in interest receivable on variable rate investments	1,675
Impact on Surplus or Deficit on the Provision of Services	1,675
Share of overall impact debited to the HRA	1,519
Decrease in fair value of fixed rate borrowings liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	107,500

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Price risk

The Council does not generally invest in equity shares but have recently invested in Bristol Holdings, a wholly owned subsidiary. Whilst this holding is generally illiquid, the Council is exposed to losses arising from movements in the prices of these shares.

As the shareholding has arisen in the acquisition of specific interests, the Council is not in a position to limit its exposure to price movements by diversifying its portfolio. Instead it only acquires shareholdings in return for “open book” arrangements with the company so that the Council can monitor factors that might cause a fall in the value of specific holdings.

These shares are valued at fair value.

Foreign exchange risk

During 2019/20 the Council received monies denominated in Euro's relating to the receipt of European grant. The authority also made payments in a variety of currencies for the supply of goods and services. Payments and receipts are converted to Sterling at the earliest opportunity.

25 Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. Movements on the CFR are also analysed below.

	2019/20 £'000	2018/19 £'000
Opening Capital Financing Requirement	847,021	822,515
Capital investment		
Property, Plant and Equipment	126,927	96,202
Investment Properties	-	64
Heritage Assets	340	
Intangible Assets	7,620	3,697
Long Term Investments / Debtors	17,592	6,998
Revenue Expenditure Funded from Capital under Statute	10,225	6,147
Capital Receipts set aside for repayment of debt	(13,839)	(1,305)
Sources of finance		
Capital receipts	(33,496)	(10,558)
Government grants and other contributions	(34,898)	(26,872)
Sums set aside from revenue:		
• Direct revenue contributions	(46,938)	(43,003)
• MRP – City Council Debt	(10,631)	(6,864)
Closing Capital Financing Requirement	<u>869,923</u>	<u>847,021</u>
Explanation of movements in year		
Less Minimum Revenue Provision	(10,631)	(6,864)
Use of capital receipt for repayment of debt	(13,839)	(1,305)
Increase in underlying need to borrowing (unsupported by government financial assistance)	47,372	32,676
Increase in Capital Financing Requirement	<u>22,902</u>	<u>24,507</u>

26 Leases

Council as Lessor

Operating Leases

The Council leases out property within the commercial trading estate under operating leases for the following purposes:

- for the provision of community services, such as sports facilities, tourism services and community centres
- for economic development purposes to provide suitable affordable accommodation for local businesses

The future minimum lease payments due under non-cancellable leases in future years are:

	31 March 2020	31 March 2019
	Restated	Restated
	£'000	£'000
Not later than one year	13,708	13,986
Later than one year and not later than five years	49,370	49,551
Later than five years	850,558	867,632
	913,637	931,169

The minimum lease payments receivable at 31 March 2020 and 2019 are based on the current rents receivable at the respective Balance Sheet dates. They do not include estimates of future rents reviews or contingent rents.

27 Service Concessions

Schools PFI Phase 1A

On 31st March 2004 the Council entered into a Private Finance Initiative (PFI) contract with Bristol Schools Limited. The contract provided for the design, construction and financing of four new secondary schools, Bedminster Down, Henbury School, Orchard School and Oasis Academy Brightstowe. All four schools were constructed and are operational. Bristol Schools Limited will maintain and operate the facilities for twenty-six years from the date the first school became operational.

A capital contribution of £5.346m was made to the first phase of the project by way of a cash payment. This was in respect of the provision of leisure facilities and of the retention of part of the site of Henbury School by the Council, for subsequent disposal.

As at 31st March 2020 cumulative payments totalling £141m (£132m in 2018/19) have been made to the PFI contractor. The future estimated payments the Council will make under the contract are as follows:

Year	Payment for Services	Repayment of Liability	Interest	Other	Total
	£'000	£'000	£'000	£'000	£'000
2020/21	3,146	1,977	4,352	503	9,978
2021/22 to 2024/25	13,391	9,823	14,870	556	38,640
2025/26 to 2029/30	18,711	18,464	10,878	309	48,362
2030/31 to 2031/32	5,584	6,735	1,013	327	13,659
Total	40,832	36,999	31,113	1,695	110,639

Over the life of the PFI project, the Council is scheduled to receive government grant of £134.8m.

Schools PFI Phase 1B and 1C, Building Schools for the Future

During 2006/07 the Council entered into a PFI contract with Bristol PFI Limited to design, build, finance and operate four additional schools in Bristol. A Local Education Partnership (LEP) was also created to manage the supply chain and deliver the four schools. The partnership is between Skanska Education Partnerships (80%), Partnership for Schools (10%) and Bristol City Council (10%). The schools are Brislington Enterprise College, Bristol Brunel Academy, Bristol Metropolitan Academy and Bridge Learning Campus. Bristol PFI Limited will maintain and operate the facilities for twenty-seven years from the date the first school became operational.

A capital contribution of £9.569m was made to the project by way of a cash payment. This was used towards the cost of the Bridge Learning Campus and provision of leisure facilities at Bristol Brunel Academy.

As at 31st March 2020 cumulative payments totalling £197m (£179m in 2018/19) have been made to the PFI contractor. The future estimated payments the Council will make under this contract are as follows:

Year	Payment				
	for Services	Repayment of Liability	Interest	Other	Total
	£'000	£'000	£'000	£'000	£'000
2020/21	5,357	4,086	5,989	3,584	19,016
2021/22 to 2024/25	23,023	16,033	20,845	18,111	78,012
2025/26 to 2029/30	32,738	25,059	18,635	25,551	101,983
2030/31 to 2034/35	32,819	32,598	7,100	21,403	93,920
Total	93,937	77,776	52,569	68,649	292,931

Over the life of the PFI project, the Council is scheduled to receive government grant of £326.3m.

Hengrove Leisure Centre

In April 2010 the Council entered into a PFI contract with Bristol Active Limited to design, build, finance and operate a new leisure centre, and associated car park, in Hengrove. The centre opened in February 2012 and Bristol Active Limited will operate and maintain the facility until 2037.

The assets and associated liability have been included on the Council's Balance Sheet in accordance with IFRS.

A capital contribution of £7.161m was made to the project by way of a cash payment. This was used to fund the capital works for the Car Park and as a contribution towards the capital works of the Leisure Centre.

As at 31 March 2020 payments totalling £27m (£24m at 31 March 2019) have been made to the PFI Contractor. The future estimated payments the Council will have to make under the Contract are as follows:

Year	Payment				
	for Services	Repayment of Liability	Interest	Other	Total
	£'000	£'000	£'000	£'000	£'000
2020/21	348	708	1,399	1,067	3,522
2021/22 to 2024/25	1,481	2,097	4,946	5,747	14,271
2025/26 to 2029/30	2,030	3,564	4,901	7,789	18,284
2030/31 to 2034/35	2,236	4,749	2,810	9,043	18,838
2035/36 to 2036/37	1,016	2,351	370	3,700	7,437
Total	7,111	13,469	14,426	27,346	62,352

Over the life of the PFI project, the Council is scheduled to receive government grant of £69.6m.

Property, Plant and Equipment

The PFI assets, and related liabilities, have been recognised on the Council's balance sheet when made available for use. Movements in their value over the year are detailed in the analysis of the movements on the Property, Plant and Equipment balance in Note 19. The assets will be transferred back to the Council at the end of the contracts for nil consideration.

Locally managed schools transferring to Academy status are granted a 125 year peppercorn lease and, in response to CIPFA guidance, are de-recognised from the Council's accounts as control of these assets is transferred to the Academy.

Payments are made to the PFI contractors as monthly "unitary payments". The estimated payments the Council will make under the contracts are shown below.

These payments are commitments and can vary subject to indexation, reductions for performance and availability failures, and possible future variations to the scheme.

The funding of the unitary payment for the School PFI schemes will come from the individual schools budget, the overall schools budget and a special government grant. The Hengrove Leisure unitary payment will be funded by the special government grant, with the balance provided from Sports Services budgets. PFI payments are accounted for in the year in which the service was provided and are allocated to repayment of the liability, finance cost, service charge and other costs (lifecycle cost and contingent rents).

The unitary payments have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred, and the interest payable on financing the capital expenditure. The Hengrove Leisure PFI contains a significant amount of third party income, this is income received directly by the PFI Contractor from the users of the facility. The payment for services has been shown net of this estimated income, as the unitary payments have been reduced to reflect the operator's right to this income. The outstanding liability due to the contractor for reimbursement of capital expenditure is as follows:

	Schools		Hengrove Leisure	
	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000
Balance outstanding at the start of year	120,098	125,068	14,284	15,063
Movement in year	(5,323)	(4,970)	(815)	(779)
Balance outstanding at year end	114,775	120,098	13,469	14,284

The above listed commitments are affected by past inflation – previous price rises will be built into future payments. They are also affected by future inflation, which gives rise to uncertainty.

Bristol Waste Contract

In August 2015 the Council entered into a service contract with Bristol Waste Company to provide recycling and waste services. The assets and associated liability have been included on the Council's Balance Sheet in accordance with IFRS.

During the year Bristol Waste acquired £12.5m of assets to support the provision of waste services, partly funded from a loan (£9.75m) from the Council.

The future estimated payments the Council will make under the contract are as follows:

Year	Payment for Services £'000	Repayment of Liability £'000	Interest £'000	Total £'000
2020/21	29,462	2,049	313	31,824
2021/22 to 2024/25	127,719	6,836	745	135,300
2025/26 to 2026/27	44,536	3,426	91	48,053
Total	201,717	12,311	1,149	215,177

Total Balance Outstanding on all Service Concessions is shown in the table below:

	Schools		Hengrove Leisure		Bristol Waste Contract		Total	
	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000
Balance outstanding at the start of year	120,098	125,068	14,284	15,063	1,046	976	135,428	141,107
Movement in year	(5,323)	(4,079)	(815)	(779)	11,265	70	5,127	(5,679)
Balance outstanding at year end	114,775	120,989	13,469	14,284	12,311	1,046	140,555	135,428

28 Debtors

	31 March 2020		31 March 2019	
	£'000	£'000	£'000	£'000
i Current debtors

Former county council debt	39,260		40,895	
Total	49,831		42,657	

29 Cash and Cash Equivalents

The balance of Cash and Cash Equivalents is made up of the following elements:

	31 March 2020 £'000	31 March 2019 £'000
Cash held by the Council	275	269
Bank current accounts	8,165	(21,958)
Short-term deposits with banks / building societies	60,985	29,086
Total Cash and Cash Equivalents	69,425	7,397

30 Creditors

Current liabilities

	31 March 2020 £'000	31 March 2019 £'000
Trade payables	2,029	17,621
Other payables	119,400	90,268
Receipts in advance	59,012	36,794
Total	180,441	144,683

Other long-term liabilities

	31 March 2020 £'000	31 March 2019 £'000
Service Concession contract liabilities (see Note 27)	131,735	129,013
Retirement benefit obligations (see Note 33)	993,905	977,592
Deferred liabilities	40,895	42,599
Deferred capital receipts	3	2
Rent Deposits	84	78
Total	1,166,622	1,149,284

Deferred liabilities are amounts which, by arrangement, are payable beyond the next year, at some point in the future or are to be paid off by an annual sum over a period. As at the 31 March 2020 the liability in the Council's Balance Sheet of £40.9m (2019: £42.6m) comprised of former county council loan debt of £40.9m (2019: £42.6m)

Deferred capital receipts are amounts derived from sales of assets, which will be received in instalments over agreed periods of time. They arise from mortgages on the sale of council houses, which form part of mortgages under long term debtors.

31 Provisions

	Balance at 1 April 2019	Additional provisions made in 2019/20	Amounts used in 2019/20	Balance at 31 March 2020	Due < 1 year	Due > 1 year

	<u>(1,389,590)</u>	<u>(1,293,274)</u>

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2019/20 £'000	2019/20 £'000	2018/19 £'000	2018/19 £'000

Amount written off to the Capital Adjustment Account		26,662		23,858
Balance at 31 March		<u>(861,614)</u>		<u>(788,594)</u>

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisation are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council. The account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 24 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

	2019/20 £'000	2018/19 £'000
Balance at 1 April	(1,510,028)	(1,490,937)
Adjustment from the adoption of IFRS 9	-	(21,650)
Adjusted balance at 1 April 2019	(1,510,028)	(1,512,587)
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
Charges for depreciation and impairment of non-current assets	57,837	55,868
Revaluation losses on Property, Plant and Equipment	23,463	9,629

Movements in the market value of Investments debited or credited to the Comprehensive Income and Expenditure Statement	(13,244)	3,520
Balance at 31 March	(1,535,084)	(1,510,028)

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans.

Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed. As a result, the balance on the Account at 31 March 2020 will be charged to the General Fund over the next 40 years.

	2019/20 £'000	2019/20 £'000	2018/19 £'000	2018/19 £'000
Balance at 1 April		7,254		7,432
Premiums incurred in the year and charged to the Comprehensive Income and Expenditure Statement				
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	(178)		(178)	
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements		(178)		(178)
Balance at 31 March		7,076		7,254

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to the pension fund or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2019/20 £'000	2018/19 £'000
Balance at 1 April	991,850	861,256
Remeasurements on pensions assets and liabilities	(45,748)	91,675
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	97,934	86,826
Employer's pensions contributions and direct payments to pensioners payable in year	(50,131)	(47,907)
Balance at 31 March	993,905	991,850

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council taxpayers and business rate payers, compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2019/20 £'000	2018/19 £'000
Balance at 1 April	(126)	5,705
Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	(351)	(5,831)
Balance at 31 March	(477)	(126)

Accumulated Absences Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund balance be neutralised by transfers to or from the account.

	2019/20 £'000	2019/20 £'000	2018/19 £'000	2018/19 £'000
Balance at 1 April		6,370		4,522
Settlement or cancellation of accrual made at the end of the preceding year	(6,370)		(4,522)	
Amounts accrued at the end of the current year		6,604		6,370
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		234		1,848
Balance at 31 March		6,604		6,370

33 Pensions

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in three pension schemes:

The Local Government Pension Scheme (LGPS) - all staff, with the exception of teachers, are eligible to join the Local Government Pension Scheme (LGPS). The scheme is administered by Bath and North East Somerset Council and is called the Avon Pension Fund. The Fund provides members with benefits related to length of service and pensionable salary. The LGPS is a funded defined benefit pension arrangement for local authorities, and is governed by statute principally now the Local Government Pension Scheme Regulations 2013.

The Teachers' Pension Scheme - Teachers employed by the Council are members of the Teachers' Pension Scheme, administered on behalf of the Department for Education. The Scheme provides teachers with specified benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries. The Scheme is a multi-employer defined benefit scheme. However, the Scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities.

The rate of contribution for 2019/20 was 23.68% resulting in a total payment of £8.645m (£7.254m in 2018/19) to the Teachers' Pension Agency. In addition, the Council made payments totalling £2.474m (£2.423m in 2018/19) in respect of pensions and added years where the early retirement of teachers was agreed. The Council also met its share of the residual liability for former Avon County Council employees, amounting to £1.769m (£1.797m in 2018/19). The estimated liability for unfunded payments has been calculated by the actuary and is included in the Balance Sheet.

The National Health Service Pension Scheme – In 2019/20 a total payment of £0.40m (£0.41m in 2018/19) was made to the NHS Pension Scheme, following the transfer of public health responsibilities from primary care trusts.

Accounting Transactions relating to retirement benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year.

	Local Government Pension Scheme		Teachers' Unfunded Pensions	
	2019/20	2018/19	2019/20	2018/19
	£'000	£'000	£'000	£'000
Income and Expenditure Account				
Net cost of services				
Current service cost	63,986	56,437	-	-
Past service gains/curtailment costs/Settlements	9,812	8,420	-	-
Administration expense	1,107	863	-	-
Financing and Investment Income Expenditure				
Net interest cost	21,429	19,387	1,600	1,719
Total post-employment benefits charged to the Surplus or Deficit on the Provision of Services	96,334	85,107	1,600	1,719
Other Post-employment Benefits charged to the Comprehensive Income and Expenditure Statement				
Remeasurements (assets/liabilities)	(42,309)	(88,587)	(3,439)	(3,088)
Movement in Reserves Statement				
Reversal of net charges made to the (surplus) or Deficit for the provision of services for post - employment benefits	(96,334)	(85,107)	(1,600)	(1,719)
Actual amount charged against the General Fund Balance for pensions in the year:				
Employer's contributions payable to scheme	45,888	43,687	4,243	4,220

The Housing Revenue Account (HRA) Income and Expenditure Account has also been adjusted in 2019/20 to reflect the current service cost and an appropriate share of the net interest cost. The latter item has been apportioned to the HRA on the basis of pensionable pay.

Assets and Liabilities in relation to Retirement Benefits

	Funded liabilities:		Unfunded liabilities:		Unfunded liabilities:		Total Liability	
	Local Government Pension Scheme		Local Government Pension Scheme		Teachers' Unfunded Pensions		Local Government & Teachers Pensions	
	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000	2019/20 £'000	2018/19 £'000
01-Apr	(2,589,755)	(2,390,982)	(41,548)	(41,913)	(68,803)	(68,216)	(2,700,106)	(2,501,111)
Current service cost	(63,986)	(56,437)					(63,986)	(56,437)
Interest on pension liabilities	(61,497)	(61,325)	(964)	(1,053)	(1,600)	(1,719)	(64,061)	(64,097)
Contributions by scheme participants	(12,074)	(11,162)					(12,074)	(11,162)
Remeasurement (liabilities)								
Experience (gain)/loss	(13,648)	-	4,374		(858)		(10,132)	-
(Gain)/loss on financial assumptions	59,862	(129,957)	434	(1,389)	1,402	(3,088)	61,698	(134,434)
(Gain)/loss on demographic assumptions	109,158	-	1,232		2,895		113,285	-
Benefits paid	66,838	66,865	2,784	2,807	4,243	4,220	73,865	73,892
Past service grants, curtailment costs and settlements	(9,812)	(6,757)		-			(9,812)	(6,757)
31-Mar	(2,514,914)	(2,589,755)	(33,688)	(41,548)	(62,721)	(68,803)	(2,611,323)	(2,700,106)

Reconciliation of fair value of the Local Government Pension Scheme assets:

	2019/20 £'000	2018/19 £'000
1 April	1,722,618	1,668,864
Interest on plan assets	41,032	42,991
Remeasurement (assets)	(119,103)	42,759
Administration expense	(1,107)	(863)
Settlements	-	(1,663)
Employer contributions	31,631	29,040
Contributions by scheme participants	12,074	11,162
Benefits paid	(69,622)	(69,672)
31 March	1,617,523	1,722,618

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term rates of return experienced in the respective markets.

The actual return on plan assets in the year was £108,641m (2018/19: £85.750m).

Scheme History – Pension Assets and Liabilities Recognised in the Balance Sheet:

	2019/20 £'000	2018/19 £'000	2017/18 £'000	2016/17 £'000
Present value of liabilities:				
Local Government Pension Scheme	(2,548,602)	(2,631,303)	(2,432,895)	(2,476,515)
Teachers' unfunded liabilities	(62,721)	(68,803)	(68,216)	(72,225)
Fair value of assets in the Local Government Pension Scheme	1,617,523	1,722,618	1,668,864	1,627,833
Surplus/(deficit) in the scheme:				
Local Government Pension Scheme	(931,079)	(908,685)	(764,031)	(848,682)
Teachers' unfunded liabilities	(62,721)	(68,803)	(68,216)	(72,225)
Total	(993,800)	(977,488)	(832,247)	(920,907)

The total liabilities shown in the Balance Sheet comprise the above (£993.800m) together with a small amount in respect of pre-1974 liabilities (£0.105m) totalling (£993.905m).

Basis for Estimating Assets and Liabilities

Liabilities have been assessed using the projected unit credit actuarial cost method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc. Both the Local Government Pension Scheme and Discretionary Benefits liabilities have been assessed by Mercer Ltd, an independent firm of actuaries, estimates for the Council's Fund being based on the latest full valuation of the scheme as at 31 March 2016.

The principal assumptions used by the actuary have been:

	Local Government Pension Scheme		Teachers	
	2019/20	2018/19	2019/20	2018/19
Mortality assumptions:				
Longevity at 65 for current pensioners:				
Men	23.2	23.7	23.2	23.7
Women	25.3	26.2	25.3	26.2
Longevity at 75 for current pensioners:				
Men	-	-	14.3	14.7
Women	-	-	16.1	16.7
Longevity at 65 for future pensioners:				
Men	24.7	26.3	-	-
Women	27.3	29.0	-	-
	%	%	%	%
Rate for discounting scheme liabilities	2.4	2.4	2.4	2.4
Rate of inflation - CPI	2.1	2.2	2.1	2.3
Rate of increase in salaries	3.6	3.7	-	-
Rate of increase in pensions	2.2	2.3	2.2	2.4

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes, while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

The actuary has provided a sensitivity analysis for each significant actuarial assumption as at the end of the reporting period. The table below shows how the defined benefit obligation would have been affected by changes in the relevant actuarial assumption that were reasonably possible at the 31 March 2020.

Impact on the Defined Benefit Obligation in the Scheme (LGPS)	2019/20	2018/19
	£'000	£'000
Longevity (increase or decrease by 1 year)	71,999	52,594
Rate of inflation (increase or decrease by 0.1%)	44,429	49,125
Rate of increase in salaries (increase or decrease by 0.1%)	4,726	5,627
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	(42,780)	(47,351)

Impact on the Defined Benefit Obligation in the Scheme (Teachers)	2019/20	2018/19
	£'000	£'000
Longevity (increase or decrease by 1 year)	2,242	2,093

Rate of inflation (increase or decrease by 0.1%)	640	813
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	(575)	(738)

Local Government Pension Scheme assets comprise

Total Assets			1,617,523	1,722,618

Governance and Risk Management

The liability associated with the Council's pension arrangements is material to the Council, as is the cash funding required.

Local Government Pension Scheme

Governance

As administering authority, Bath and North East Somerset Council (B&NES), has legal responsibility for the pension fund as set out in the Local Government Pension Scheme Regulations. B&NES delegates its responsibility for administering the Fund to the Avon Pension Fund Committee, which is the formal decision making body for the Fund. The Avon Pension Fund Committee is responsible for the investment, funding, administration and communication strategies. It also monitors the performance of the fund, and approves and monitors compliance of statutory statements and policies required under the Regulations. The Committee is supported by an Investment Panel which considers the investment strategy and investment performance in greater depth.

Asset and Liability (ALM) Strategy

The Avon Pension Fund does not have an explicit asset and liability matching strategy. The primary objective of its investment strategy is to generate positive real investment return above the rate of inflation for a given level of risk to meet the liabilities as they fall due over time. When setting the investment strategy, the expected volatility of the assets relative to the value placed on the liabilities was measured and taken into account. The aim of the strategy and management structure is to minimise the risk of a reduction in the value of the assets and maximise the opportunity for asset gains across the Fund.

To achieve its investment objective the Fund invests across a diverse range of assets such as equities, bonds, property and other alternative investments, and uses a number of investment managers. The risk management process identifies and mitigates the risks arising from the Fund's investment strategy and

policies which are reviewed regularly to reflect changes in market conditions. As a result of its investment strategy, the Fund is exposed to a variety of financial risks including market risk (market price, interest rate and currency risk), credit risk and liquidity risk.

As a result of its investment strategy, the Fund is exposed to a variety of financial risks including market risk (market price, interest rate and currency risk), credit risk and liquidity risk.

Impact on the Authorities Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 17 years. Funding levels are monitored on an annual basis. The next triennial valuation was completed on 31 March 2019 and is effective from 1 April 2020.

The Council made a pension deficit contribution of £44.183 m in April 2017.

The provisions of the LGPS and the Fund were amended with effect from 1 April 2014. Prior to that date benefits were paid on members' final salaries, whereas for service after that date benefits are based on career average salaries.

The total contributions expected to be made to the Local Government Pension Scheme by the Council in the year to 31 March 2021 are £55,692m. Expected contributions for the Teacher Pensions Scheme in the year to 31 March 2021 are £4.344m.

Unfunded Teachers' Discretionary Benefits

The Council is responsible for any additional discretionary pension benefits awarded to teachers upon early retirement outside of the terms of the teachers' pension scheme.

Governance

The Teachers' Pension Scheme arrangements are managed centrally by government departments/agencies, and there is no material involvement for the Council.

Impact on the Council's Cash Flows

The Scheme targets a pension paid throughout life. The amount of pension depends on how long employees are active members of the Scheme and their salary when they leave the Scheme ("final salary scheme") for service up to 31 March 2015, and on a revalued average salary ("career average scheme") for service from 1 April 2015.

The Council's involvement is limited to additional discretionary pension benefits to retired teachers which were rewarded at the point of retirement.

Risks Strategy

Given their unfunded nature, there are no investment risks in relation to this scheme. The greatest single risk is that the Government could change the funding standards relating to the scheme, increasing the Council's contributions.

Investment Risks

There are no investment risks in relation to these arrangements, given their unfunded nature. The greatest single risk is that the government could change the funding standards relating to them, which could increase the Council's contributions to them.

34 Cash Flow Statement – Operating Activities

The cash flows for operating activities include the following significant items:

	2019/20 £'000	2018/19 £'000
Interest received	4,257	6,173
Interest paid	(35,808)	(35,352)
Dividends received	2,376	2,790

The deficit on the provision of services has been adjusted for the following non-cash movements:

	2019/20 £'000	2018/19 £'000
Depreciation, impairment and downward revaluations	81,300	54,086
Amortisation	3,245	2,383
Increase/(decrease) in impairment for bad debt	1,694	1,400
(Decrease)/increase in creditors	31,448	4,284
(Increase)/decrease in debtors	(7,351)	4,950
(Increase)/decrease in inventories	(8,294)	(239)
Movement in pension liability	47,803	53,566
Contributions to/(from) Provisions	4,099	2,609
Carrying amount of non-current assets and non-current assets held for sale, sold or derecognised	46,849	36,164
Other non-cash items charged to the net surplus or deficit	1,769	18,621
On the provision of services		
Net cash flows from non-cash movements	202,562	177,824

Adjust for items included in the net surplus or deficit on the provision of services that are investing or financing activities:

	2019/20 £'000	2018/19 £'000
Capital grants credited to surplus or deficit on the provision of services	(33,664)	(44,218)
Proceeds from the sale of Property Plant and Equipment, Investment Property and Intangible Assets	(56,258)	(20,811)
	(89,922)	(65,029)

35 Cash Flow Statement - Investing Activities

	2019/20 £'000	2018/19 £'000
Purchase of Property, Plant and Equipment, Investment Property and Intangible Assets	(102,078)	(99,240)
Purchase of short-term and long-term investments	(124,641)	(253,394)
Other (payments)/receipts for investing activities	(10,368)	2,015
Proceeds from the sale of Property, Plant and Equipment, Investment Property and Intangible Assets	56,290	24,148
Proceeds from short-term and long-term investments	107,000	199,500
Capital Grants Received	46,700	43,960
Other receipts from investing activities	2,056	2,534
Net cash flows from investing activities	(25,041)	(80,477)

36 Cash Flow Statement - Financing Activities

	2019/20 £'000	2018/19 £'000
Cash receipts of short- and long-term borrowing	30,000	-
Cash payments for the reduction of outstanding liabilities relating to finance leases and on-Balance-Sheet PFI contracts	(7,363)	(12,816)
Repayments of short- and long-term borrowing	0	(1,775)
Council Tax and NNDR adjustments	1,728	4,230
Net cash flows from investing activities	24,365	(10,361)

37 Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Council members and Executive Directors have been asked to provide information regarding related party transactions. From the information received, it is believed that there have not been any significant transactions involving these counterparties during the year.

Central Government has significant influence over the general operations of the Council - it is responsible for providing the statutory framework within which the Council operates. It provides the majority of its funding in the form of grants, which are disclosed in Note 16.

The Council has interests in a number of companies over which it has significant influence or control as set out below.

Name	Nature of Council relationship	Transactions with the Council	Nature of transactions	Balances owed to / (from) the Council as at 31 March 2020
Bristol Holdings Limited	100% subsidiary The City Council has one Director post on the Board.	£7.7m payments by Council to company	Purchase of shares	£1.7m preference share interest owed to BCC
Bristol Waste Company	100% subsidiary of Bristol Holding Limited The City Council has one Director post on the Board.	£34.6m payments by Council to company £1.3m recharges from Company to Council	Contract for waste collection and recycling services Recharges	£9.4m loan from BCC for the acquisition of waste vehicles.
Bristol Energy Limited	100% subsidiary of Bristol Holdings Limited The City Council has one Director posts on the Board.	£2.9m sales and recharges from the Council £7.8m sales of energy to the Council	Purchase and sale of energy. Recharges	PCG's issued with a total exposure as at 31 March £14.3m. £251k PCG interest owed to BCC.
Goram Homes Ltd	100% subsidiary of Bristol Holdings Limited. The City Council has one Director post on the Board.	£799k Loan	Development of building projects	£799k

Bristol is Open Limited	100% owned subsidiary The City Council has one Director posts on the Board.	£350k	Loan	£350k loan
Bristol Local Education Partnership (LEP) Ltd	Joint venture with BCC holding 10%, Building Schools for the Future Investments (Bristol) Ltd 10% and Skanska Infrastructure Development UK Limited 80% The Council has one director post on the board.	£71.2m payments to the company	Provision of ICT and construction services to schools in Bristol.	£82k owed to the Council £1.2m owed by the Council
City Leap Ltd	100% owned subsidiary. The Council has one director post on the board. The Company is currently dormant.	None	N/A	Nil
City Leap Bristol Ltd	100% owned subsidiary. The Council has one director post on the board. The Company is currently dormant.	None	N/A	Nil
Bristol City Leap Ltd	100% owned subsidiary. The Council has one director post on the board. The Company is currently dormant.	None	N/A	Nil

West of England Partnership

Four unitary authorities - Bath & North East Somerset Council, Bristol City Council, North Somerset Council and South Gloucestershire Council - continue to work together and co-ordinate high level planning to improve the quality of life of their residents and provide for a growing population. This joint work focuses on activities that are better planned at the West of England level, rather than at the level of the individual council areas.

The partnership is not a partnership in law, nor a formal decision making body, and does not have the power to bind the four unitaries. The partnership's activity is integrated into the West of England Local Enterprise Partnership (LEP), which promotes economic growth and prosperity through its key themes of Place, People and Business

38 Transfer of Functions

As part of the West of England devolution deal, South Gloucestershire, Bristol and Bath & North East Somerset Councils agreed to the establishment of the West of England Combined Authority to support economic growth and development across the region. Under the devolution deal certain functions were transferred from the constituent authorities to the WECA from 1st April 2018. These included concessionary fares, community transport, key route network development and bus service information. WECA has commissioned South Gloucestershire Council to provide concessionary fares on its behalf during 2019/20.

WECA levies the constituent authorities for the cost of the services for which it is now responsible. This is shown under Other Operating Expenditure. The value of the levy in 2019/20 is £8.120m (2018/19 £6.893m). There has been no change to the council's assets or liabilities arising from the transfer of functions to WECA.

39 Contingent Liabilities

The Council has 59 tower blocks in total, of which 37 blocks are clad. Following the Grenfell Tower tragedy the Council has, in addition to its own safety checks, began commissioning independent checks of our entire high rise cladding systems and materials to evidence that our blocks are safe. The materials used is different and of different design to that employed at Grenfell and there is no evidence to suggest that we will need to remove any cladding at this point in time. We have earmarked funds in our HRA Business Plan for general tower block maintenance and improvements and will continue to monitor its sufficiency as findings from our own independent checks are concluded.

In addition to the above an independent Public enquiry has been commissioned by the Government into the Grenfell tower tragedy and there is a risk that new regulations or measures emerge that will need to be implemented to ensure people living in high rise buildings are safe. These may not be fully funded from central government leaving a residual liability to the Council.

HRA Income and Expenditure Statement

The HRA reflects a statutory obligation to account separately for council housing provision. The HRA Income and Expenditure Statement shows the major elements of HRA expenditure and how they are met from rents, service charges and other income. The account does not reflect all of the transactions required by statute to be charged or credited to the HRA for the year. The movement on the HRA Statement gives details of the additional transactions, which are required by statute.

	Note	2019/20	2018/19
		Net £'000	Net £'000
Expenditure

Notes to the Housing Revenue Account

1 Dwelling numbers as at 31 March 2020

	31 March 2020	31 March 2019
Houses	11,271	11,338
Bungalows	1,077	1,084
Flats	14,485	14,515
Total Dwellings held at 31 March 2020	26,833	26,937

2 Rent and Rent Arrears

The total value of dwelling rents in 2019/20, less rent attributable to empty properties (voids), is £110m (£110.5m in 2018/19). The amount of rent arrears, including recoverable housing benefit, water charges, defect charges, etc.:

	31 March 2020	31 March 2019
	£'000	£'000
Former tenants	3,472	3,774
Current tenants	9,013	7,654
	12,485	11,428
Balance Sheet Provision		
Former tenants	3,056	3,121
Current tenants	6,549	5,693
	9,605	8,814

Vacant Possession

The vacant possession value of dwellings as at 1st April 2020 was £4.794bn. The value of dwellings in the balance sheet (excluding dwellings leased to Registered Social Landlords) was £1.678bn, a difference of £3.116bn. This difference reflects the economic cost of providing council housing at less than market rent. This cost is determined by applying the Government prescribed discount rate of 35% of the Market Value to the vacant possession value.

3 Sums Directed by the Secretary of State to be Debited or Credited to the HRA

In 2019/20 there were no sums approved by the Secretary of State to be debited to the HRA in relation to the transfer of rent rebates from the HRA to the General Fund.

4 Depreciation and Impairment

		2019/20 £'000	2018/19 £'000
Depreciation			
Operational Assets	- Dwellings	25,158	24,538
	- Other, including leased	510	477
		25,668	25,015
Intangible Fixed Assets		373	-
Total depreciation		26,041	25,015
Revaluation losses		5,123	1,190
Reversal of impairment losses		-	-
Total depreciation and impairment		31,164	26,205

Impairment

There was a loss on revaluation of £5.123m charged to the surplus on provision of Services (2018/19: £1.191m).

5 HRA Share of Contributions to/from Pension Reserve

For 2019/2020 the HRA has been attributed with a share of the interest cost, net of the expected return on pension assets, as calculated by the actuary to the pension fund £2.6m (2018/19 £2.3m). This share has been calculated using the proportion of HRA pensionable pay to the total of that for the council. The net cost of services shown in the HRA statement also includes the current service cost as required by IAS19 of £9.8m (2018/19 £8.5m). This is excluded from the HRA Balance for the year and replaced with Employers Contributions payable £4.9m (2018/19 £4.4m) with the net movement on the Pension reserves of £4.9m (2018/19 £4.1m). Further information regarding the accounting for pensions is included in the notes to the consolidated revenue account and balance sheet, see note 32.

6 Capital Expenditure and financing

Total expenditure during the year and its financing was as follows:

Expenditure		2019/20 £'000	2018/19 £'000
Dwellings		49,143	35,847
Other Assets		74	898
		49,217	36,745
Financing			
Usable capital receipts		12,523	3,951
Revenue contributions to capital		11,026	10,160
Major Repairs Reserve		25,668	22,634
		49,217	36,745

7 Capital Receipts

Capital receipts received during the year from disposals of land, houses and other property within the HRA was £12.5m (£12.4m in 2018/19). The receipts are summarised as follows:

	2019/20 £'000	2018/19 £'000
Receipts unapplied brought forward - 1 April	54,827	48,993
Right to Buy sales	10,188	12,274
Mortgage repayments	-	18
Disposal of Land and Buildings	171	107
	65,186	61,392
Allowable reductions		
Repaid to MHCLG	(2,113)	(2,614)
Capital receipts applied	(12,523)	(3,951)
Capital receipts applied to GF		
Capital receipts unapplied carried forward - 31 March	50,550	54,827

8 Major Repairs Reserve

	2019/20 £'000	2018/19 £'000
Balance brought forward - 1 April	(3,606)	(1,225)
Capital expenditure (dwellings)	25,668	22,634
Major Repairs Allowance set aside in year	(25,668)	(25,015)
Excess depreciation credited to Statement of Movement on HRA		
Balance		-
Balance carried forward - 31 March	(3,606)	(3,606)

Depreciation has been calculated in accordance with our accounting policies for all HRA assets. We have used the Keystone component accounting information for Dwelling as a proxy for component accounting and Corporate Asset Management system for Non-Dwelling.

The MRA balance was £25.7m for 2019/20 (2018/19 - £25m). £25.7m was used to finance appropriate Housing Revenue Account capital expenditure.

9 Balance Sheet Value of Land and Houses, etc.

	2019/20 £'000	2018/19 £'000
Dwellings	1,678,285	1,679,183
Land	38,722	30,794
Other assets	20,071	18,460
	1,737,078	1,728,437

10 Asset Split

	2019/20 £'000	2018/19 £'000
Operational - dwellings	1,678,285	1,679,183
Operational - other land and buildings	52,282	42,005
Non-operational	6,512	7,250
Intangible	1,568	1,867
Other	3	2
	1,738,650	1,730,307

Notes to the Collection Fund Income and Expenditure Account

1 General

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates. Only the elements attributable to the City Council are recognised with the Council's other accounts.

2 Council Tax

Council tax income derives from charges raised according to the value of residential properties, which have been classified into 8 valuation bands based upon 1 April 1991 values for this specific purpose. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by the City Council, the Avon and Somerset Police and Crime Commissioner and the Avon Fire Authority for the forthcoming year and dividing this by the council tax base of 126,999 for 2019/20 (125,798 for 2018/19). This represents the total number of properties in each band adjusted by a proportion to convert the number to a Band D equivalent and adjusted for discounts and the estimated collection rate. This basic amount of Council Tax for a Band D property of £1,982.11 for 2019/20 (£1,891.10 for 2018/19) is multiplied by the proportion specified for the particular band to give an individual amount due.

Calculation of the Council Tax Base used in setting the 2019/20 Council Tax:

	BANDS																			
	A	B	C	D	E	F	G	H	Total											
<i>No of Properties</i>	-	52,243	73,560	39,094	18,409	9,708	4,787	2,857	338	200,996

Surplus/ (Deficit) at 31 March	314	(666)	(59)	9	1,030

4 National Non-Domestic Rates (NNDR)

The Council collects NNDR for its area based on rateable values as determined by the Valuation Office Agency and reviewed on a 5 yearly basis. The last revaluation date was on 1 April 2017. The next revaluation is expected to be 1 April 2021, with valuations being effective from this date.

Each year the Government specifies an amount known as the non-domestic rating multiplier and (subject to the effects of transitional arrangements) local businesses pay rates calculated by multiplying their rateable value by that multiplier. A second multiplier known as the small business non-domestic rating multiplier was introduced from 1 April 2005 and this multiplier is applicable to those businesses that qualify for small business relief.

In 2019/20 the non-domestic rating multiplier was 50.4p (49.3p in 2018/19) and the small business non-domestic rating multiplier was 49.1p (48.0p in 2018/19).

As part of the governments West of England devolution deal Bristol, Bath and North East Somerset and South Gloucestershire Councils agreed to the establishment of the West of England Combined Authority (WECA) to support economic growth and development across the region. This also enabled the three Council's to take part in a 100% business rates retention pilot. As a result Bristol City Council is now responsible not only for collection of rates due from the ratepayers in its area but also for redistribution of the sums paid according to the following percentages: Bristol City Council: 94%, West of England Combined Authority 5% and Avon Fire Authority: 1%.

The NNDR income after reliefs and provisions was £224,484m for 2019/20 (£214,800m for 2018/19). The total rateable value at 31 March 2020 was £560,880m (£556,252m at 31 March 2019).

5 City Region Deal Growth Disregard

From 2015/16, the Council is allowed to retain 100% of the growth in Business Rates in its Enterprise area and Enterprise Zone. The growth is transferred to the Council's General Fund before being pooled with other participating authorities.

City Region Deal

Background

Under the City Region Deal, Bristol City, Bath & North East Somerset, North Somerset and South Gloucestershire Councils ("the Authorities") are part of a Business Rates Retention Scheme, introduced by the Government in April 2013, allowing Authorities to retain a proportion of the business rates collected locally. The Authorities are allowed to retain 100% of the growth in business rates raised in the City Regions network of Enterprise Areas over a 25 year period ending on 31/3/2039 to create an Economic Development Fund for the West of England and to manage local demographic and service pressures arising from economic growth.

A 'baseline' level of rates for each Authority has been agreed with the government for the areas designated within the Non-Domestic Rating (Designated Areas) Regulations 2015. Rates collected up to this figure (the baseline) are subject to the national rates retention system. Rates collected in excess of this figure (the 'growth figure') are retained by the Authorities under the Non-Domestic Rates Designated Area Regulations 2013 and 2014 in a pooling arrangement. The governance of the distribution of retained pooled funds will occur through a Business Rates Pooling Board constituted under the Business Rates Pooling Principles Agreement (BRPPA) signed by the four Authorities.

Transactions

Each participating Council pays an annual growth figure to South Gloucestershire Council, as the Accountable Body for the BRP, representing business rates collected in the Enterprise Areas in excess of an agreed baseline figure. Retained funds will be distributed or invested annually in accordance with the 2014 Regulations and the BRPPA as:

- Tier 1: to ensure that no individual Council is any worse off than it would have been under the national local government finance system,
- Tier 2: to an Economic Development Fund (EDF) for reinvestment within the designated areas through approved programmes,
- Tier 3: for the relief of demographic and service pressures associated with growth.

Cash receivable and disbursements payable by the BRP and the Council's share of these are reflected under "Cash Transactions" in the table below. Expenditure and revenue recognised in the Council's CIES is also disclosed.

	CASH TRANSACTIONS		REVENUE & EXPENDITURE	
	Business Rates Pool Total	of which the Council's share	Council Expenditure	Council Revenue
	£'000	£'000	£'000	£'000
Funds held by BRP at 1 April	(29,086)	(7,720)	-	-
Receipts into the Pool in-year				
- Growth sums payable by Council's to BRP in year	(28,172)	(9,047)	8,389	-
Distributions out of the Pool in-year				
- Tier 1 no worse off	10,268	4,339	-	(4,339)
- BRP management fee	36	9	-	-
- EDF management fee	69	17	-	-
- Tier 2 EDF funding	2,362	466	-	(1,813)
-Tier 3 demographic and service pressures	2,834	767	-	(858)
Funds held by BRP at 31 March	(41,689)	(11,169)		
Analysed between:				
Uncommitted cash (Tier 2 inc contingency)	(38,840)	(10,436)	(2,791)	n/a
Committed cash (Tier 3)	(2,849)	(733)	n/a	n/a
Expenditure/(Revenue) recognised	(41,689)	(11,169)	5,598	(7,010)

As stated under the accounting policies, growth paid over to the BRP is recognised as expenditure by each council to the extent that the use of the funds by the BRP has been committed. Uncommitted cash is recognised by each council as a debtor.

The uncommitted cash of £10,436m contributed by the council and held by the BRP is recognised by the council as a debtor and is held in a new earmarked reserve to smooth the impact of City Region Deal transactions, and match the release of revenue support and charges for projects. The BRP has made one payment of £1.813m to Bristol City Council on behalf of the EDF in 2019/20 (2018/19 £1.033m.)

The Council itself has recognised revenue income of £7,010m (2018/19 £4,108m) from the BRP and expenditure of £5,598m (2018/19 £3,298m) to the BRP for the year.

Group Accounts

Introduction

The Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (The Code) requires local authorities with interests in subsidiaries, associates and/or joint ventures to prepare group accounts in addition to their own single entity financial statements, unless their interest is not considered material. The aim of the Group Accounts is to provide the reader with an overall view of the material economic activities of the Council.

The Council has interests in a number of companies that are classified as a subsidiary or joint venture, all of which have been considered for consolidation. Three of these, Bristol Holding Limited, Bristol Waste Company Limited and Bristol Energy Limited are considered to be material to the financial statements. Details of the companies considered for consolidation are shown below. Although not material, Goram Homes Limited, as a subsidiary of Bristol Holdings Limited has also been consolidated into the group financial statements

The Group Accounts contain the core statements similar in presentation to the Council's single entity accounts but consolidating the figures of the Council with, Bristol Holding Limited, Bristol Waste Company Limited, Bristol Energy Limited and Goram Homes Limited. Copies of the individual audited accounts are available from Companies House.

The purpose of each of the core statements is explained in the relevant sections of the single entity accounts. No amendments have been necessary to the accounts of the group entities as a result of material differences arising from the variation in accounting policies.

The following pages include:

- Group Comprehensive Income and Expenditure Statement
- Group Balance Sheet
- Group Movement in Reserves Statement
- Group Cash Flow Statement
- Associated Notes to the Accounts where there are significant differences between the Council's single entity accounts and the consolidated Group.

Group Financial Statements

The Group Comprehensive Income and Expenditure Account as at 31 March 2020

This statement shows the accounting cost in the year of providing the Group's services in accordance with generally accepted accounting practices.

Group Cash Flow Statement for the year ended 31 March 2020

The cash flow statement shows the changes to cash and cash equivalents of the Group during the reporting period. The statement shows how the group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

2018/19		2019/20
	Note	£'000
(51,705) Net surplus on the provision of services		(46,875)
200,546 Adjustment to net surplus on the provision of services for non-cash movements	G6	192,013
(65,029) Adjust for items included in the net surplus or deficit on the provision of services that are investing and financing activities	G6	(89,922)
83,812 Net cash flows from Operating Activities		55,216
(82,010) Investing Activities	G7	(21,085)
(10,361) Financing Activities	G8	24,365
(8,559) Net increase (decrease) in Cash and Cash Equivalents		58,496
29,990 Cash and Cash Equivalents at the beginning of the reporting period		21,431
21,431 Cash and Cash Equivalents at the end of the reporting period		79,927

Notes to the Group Accounts

Accounting Policies

Generally, the accounting policies for the group accounts are the same as those applied to the single entity financial statements, except for the following policies which are specific to the group accounts:

Basis of Identification of the Group Boundary

Group accounts are prepared by aggregating the transactions and balances of the Council and all its material subsidiaries, associates and joint arrangements. In its preparation of these Group Accounts, the Council has considered its relationship with entities that fall into the following categories:

- Subsidiaries – where the Council exercises control and gains benefits or has exposures to risks arising from this control. These entities are included in the group.
- Joint Arrangements (Joint Operations and Joint Ventures) – where the Council exercises joint control with one or more organisations. Where these are material they are included in the group.
- Associates – where the Council is an investor and has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee (stopping short of control or joint control.) It is presumed that holding 20% of the voting power of an investee (either directly or indirectly) brings significant influence but this presumption can be rebutted.
- No group relationship – where the body is not an entity in its own right or the Council has an insufficient interest in the entity to justify inclusion in the group financial statements. These entities are not included in the group.

In accordance with this requirement, the Council has determined its Group relationships as follows:

Bristol Holding Ltd	Direct Subsidiary	Consolidated
Bristol Waste Company Ltd	Indirect Subsidiary	Consolidated
Bristol Energy Ltd (formally Bristol Energy and Technology Services (Supply) Ltd	Indirect Subsidiary	Consolidated
Bristol Energy and Technology Services (Supply) Ltd	Indirect Subsidiary	Not Material – Dormant company
Local Education Partnership	Joint Venture	Not Material
Bristol is Open Ltd	Direct Subsidiary	Not Material
Goram Homes	Indirect Subsidiary	Consolidated

The grounds for exclusion from consolidation of certain entities are not material to the true and fair view of the financial statements or to the understanding of the users.

Basis of Consolidation – Group Accounts

The Group Accounts have been prepared using the group accounts requirements of the Code. Companies or other reporting entities that are under the ultimate control of the Council have been included in the Council's group accounts to the extent that they are material to users of the financial statements in relation to their ability to see the complete economic activities of the Council and its exposure to risk through interests in other entities and participation in their activities.

Subsidiaries have been consolidated on a line by line basis, subject to the elimination of intra-group transactions from the statements, in accordance with the Code. Accounting policies have been aligned where applicable.

Bristol Holding Limited

Bristol Holding is a wholly owned subsidiary of the City Council, incorporated on 12 March 2015. The principal activity of the company is that of a holding company and the activities of the group are the provision of waste services, housing development and a gas and electric supply business in the UK with particular focus on residential customers.

On the 13 July 2015 the company acquired Bristol Energy and Technology Services (Supply) Limited for £100,000 and on 31 March 2016, the company acquired Bristol Waste Limited from Bristol City Council.

As at the 31 March 2020 the Council has invested £37.153m in Bristol Holding Limited. This was made up of £9.228m ordinary shares and £27.925m cumulative redeemable preference shares.

Bristol Waste Company Limited

Bristol Waste Company Limited is a wholly owned subsidiary of Bristol Holding Limited. The company was incorporated on 5 March 2015. From the 8 August 2015 the company has been providing waste collection, street cleaning and other maintenance services in Bristol.

Bristol Energy Limited (formally Bristol Energy and Technology Services (Supply) Limited)

Bristol Energy is a wholly owned subsidiary of Bristol Holding Limited incorporated on 17 July 2014. The company commenced trading on 23 November 2015 and launched its product offering to customers in February 2016. On 14 February 2018 a resolution was passed to authorise the Company to change its name to Bristol Energy Limited.

Bristol Energy and Technology Services (Supply) Limited (formally Bristol Energy Limited)

Bristol Energy and Technology Services (Supply) Limited is a wholly owned subsidiary of Bristol Holding Limited incorporated on 14 March 2016. The company is currently dormant. On 14 February 2018 a resolution was passed to authorise the Company to change its name to Bristol Energy and Technology Services (Supply) Limited.

Goram Homes Limited

Goram Homes is a wholly owned subsidiary of Bristol Holding Limited incorporated on 1 October 2018. The company aims to increase the provision of new homes in the city and to meet housing requirements without compromising on build quality particularly around the provision of affordable housing, space standards and sustainability.

None of the other entities in which the City Council has an interest are considered material enough to merit consolidation into the Council's Group Accounts. Details of these can be found within the Related Parties note in the Council's single entity accounts (Note 38)

Group financial position

The closing net deficit balance of the group is £42,237m which takes into account previous years losses carried forward. This is in-line with the expectations set out in the company's business plan.

Where there are no material changes to the statements the notes are as per the Council's single entity accounts. Where consolidation has resulted in material changes additional notes are set out below.

G1 Net Cost of Services

The Net cost of Services in the consolidated CIES includes gross income of £104.3m and gross expenditure of £150.4m associated outside of the group boundary.

Revenue from Contracts with Customers

Further to a review of this area, the Group can confirm that there is no material contractual revenue income from customers to disclose. There is therefore nothing to disclose in relation to the introduction of IFRS 15-Revenues from Contracts with Customers.

G2 Financing and Investment Income and Expenditure

	2019/20	2018/19
	£'000	£'000
