

Question: CQ12.01&02

Cabinet – 26th January 2021

Re: Agenda item 12 - Parking Services Tariff Review

Question submitted by: Ed Plowden

- 1) Additional revenue from the increased parking charges is estimated at £950k per annum; please can this be placed in context of how much is the total revenue from the current parking charges for these sites, what are the estimated costs to parking services of producing this revenue and what is the contribution of inflation and of amendments to the parking charges themselves?
- 2) how many parking spaces have been taken out as a result of the COVID-19 measures, at what cost to BCC and how has the lost revenue been recovered (or not)?
