

Eco Impact Checklist

Title of report: Re-tender of the Network and Telephony contract				
Report author: Iain Godding				
Anticipated date of key decision: 13th July Cabinet				
Summary of proposals:				
<ul style="list-style-type: none"> • The council requires network and telephony services to carry out its day to day operations and statutory requirements. Almost all areas of the business are now reliant on technology to carry out their service, the network and telephony infrastructure underpins all this technology. • Following a review of our procurement options with Crown Commercial Services and BCC procurement, it was clear that we would not be able to fully re-procure our network and telephony estate and rollout new connectivity before the expiry of the current Virgin Media contract in September 2021. • To maintain critical services and reduce disruption to the organisation, we have concluded that we need to seek a tactical re-procurement extension of one year of the Virgin Media contract. This will allow us to maintain current services whilst running a future competition through CCS Network Services 2 Framework to secure a contract that will support our future network and telephony services. • The previous approval was given to this contract in 2014 for a period of 7 years until September 2021. 				
Will the proposal impact on...	Yes/ No	+ive or -ive	If Yes...	
			Briefly describe impact	Briefly describe Mitigation measures
Emission of Climate Changing Gases?	N			
Bristol's resilience to the effects of climate change?	N			
Consumption of non-renewable resources?	N			
Production, recycling or disposal of waste	N			
The appearance of the city?	N			
Pollution to land, water, or air?	N			
Wildlife and habitats?	N
