## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
11	Slightly wild green space 1 good cycle route		
12	It's a very unspoilt place full of nature & good walks		
13	1. Its a beautiful and diverse landscape. 2. There are no livestock		
14	The view over green space from the hill tops and being in the old woods. Foraging for blackberries and apples.		
15	Views How many different places to explore		
16	Open space wildlife		
17	Views Open natural landscape		
18	Big open space, location		
19	Beautiful area lovely place for walking the dog		
20	I have been using this park for 3 years and i am still finding new areas to explore, paths, features etc. it is an amazing place to visit on our doorstep		
21	Perfect place for family time with kids. Big enough to have a few hours walk/other activities		
22	Open to everyone. Space		
23	Yellow House Cycle path Open space		
24	I love that it's a quiet, food-free large space where I can walk my dog and interact with other dog owners.		
25	Space Vistas		
26	The range of areas to explore with woodland, fields and lovely views towards the house. Its accessibility from where I live.		
27	Peace and quiet. The pond		
28	Variety of habitat for wildlife and the sculpture trail		
29	open green space, wildlife,		
30	open space for kids to enjoy away from traffic		
31	the events and the educational activities		
32	1) The fact that there are no roads and few paths, once you enter the park, you don't have to worry about kids running out into roads or dodging cars. You don't have to stick to a path, you can feel free to walk wherever you fancy! 2) The variety of terrain - whether it's a woodland walk you can get lost in, or a lush grassy meadow, combined with the views - Wow! In the summer, the long grass is perfect picnic and balloon watching territory, in the winter, it's still a fantastic place to go for a run in.		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
33	1. The natural environment and wildlife - it's very hard to find this in North Bristol and it's so important for health and wellbeing, as well as education. 2. The variety of opportunities for recreation, which again is hard to find elsewhere in North Bristol and wider Bristol. The woodland, variety of fields and fishing lake are all fantastic and very much appreciated. The park always has a variety of people using it, dog walkers, runners, cyclists, fishermen, families etc.		
34	The peace and quiet, and variety of woodland and parkland, as well as gradient change.		
35	Big sweep of meadow with lake and woodlands. Fantastic view.		
36	A mix of forest and open space		
37	Nature		
38	Nature and other people enjoying it.		
39	hills woodland paths		
40	The view and the fact I know the place inside out.		
41	The open spaces and the wild life		
42	Open green space		
43	Safety away from cars Open views		
44	Proximity and Open Green Spaces		
45	It's easy to get to and is really big.		
46	Size of this green space Mix of grassland and trees		
47	Open space Quiet		
48	Open area and the play		
49	nice views, wooded areas		
50	Nature and wildlife		
51	Large open spaces and the woodland trails		
52	Woodland and natural open space		
53	Views, open scenery, a hill to run up		
54	Open and natural		
55	The sense of space The countryside		
56	It's size and varied terrain		
57	Lovely walks		
58	Allows an off road route that avoids busy, scary roads to Frenchay Open space without trees too see the sky		
59	Open spaces Wood anemones		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
60	The tranquility of the woods That it is not as busy as other areas, such as Blaise Castle and Oldbury Court		
61	The fishing lake/duck pond, and the yellow mansion		
62	OPEN SPACE WALKS		
63	It's very large, and there is a lot of wildlife & nature to enjoy.		
64	Open spaces and area where I can let the dog run.		
65	Green space		
66	The variety of woodland and open parkland. Usually peaceful and uncrowded		
67	The fact it feels like countryside ie no visitor centre / not too much management - and how easy it is to get away from the motorway noise		
68	It's unspoilt (i.e. No play park) so feels very natural  It's generally very quiet		
69	It's views		
70	The interconnecting woodland paths The views		
71	The woods and the views from the top by the BT tower.		
72	Quietness and its lack of manicure		
73	The peace and calm		
74	Views, big old trees, more wild/unmannicured than other parks, wildlife, bluebells & wild garlic, lack of people, it's near my house		
75	The shape of the landscape dramatic! The nature trees.		
76	Views and natural setting		
77	It's a big, safe place to walk the dog and let her run around, and it's a beautiful place to just be - the landscape is interesting and it makes me feel good to be in it.		
78	The meadow flowers on Purdown and to the west of Duchesses pond, and the fantastic views		
79	Quiet Less children than other local areas which means the dogs can run free.		
80	big space		
81	Space, peace		
82	trees and wildlife		
83	Range of terrain Views		
84	Wildlife quality of the fishing lake

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
87	The variety of landscape - from woodland, to open grassland, to marshy bits and water.		
88	Its countryside feel. It is green. The presence of many varied trees.		
89	wilderness trees		
90	It is a local space for local people It has so much history		
91	The woods and the old park features.		
92	The lakes and it's country park feel		
93	large area of open ground and forested parts makes this a perfect place for my children.		
94	Wildflower woods, views		
95	Open green space.		
96	The wide open spaces. The lack of fencing and cordoning areas off.		
97	The variety of terrain, including woods and open spaces. The path network.		
98	Open space and long distance views		
99	It is a wonderful space so close to a large city and the history of the ww2 battery I feel very strongly should be promoted		
100	1. Great open space to walk the dog. 2. Diversity of landscape - no 2 walks are the same.		
101	Heritage		
102	Green space within the city Look for bugs		
103	Quietness, natural beauty		
104	Fishing lake and open space		
105	Green open space to walk wild life		
106			
107	peace, diversity of the landscape		
108	vast open space which is great for dog walking		
109	The open space with room for everybody to do their own thing and the friendliness of other visitors		
110	The nature. The peace.		
111	Its landscape		
112	the fields and the woods		
113	The wide open views. Wild woodland with hidden archaeology features.		
114	variety, historic elements		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
115	Views. Relatively quiet		
116	Easily accessible. The views.		
117	Rolling green spaces. Woodland patches.		
118	The beautiful ancient woodland and the open fields		
119	The views. Long walks without traffic, and we've never been troubled by motor bikes.		
120	It links up with other green spaces really well. From boiling wells in St Werburghs right through to Snuff Mills and Eastville Park. I start by Easton Leisure Ctr and walk in a big loop, back through Greenbank cemetery and down side of M32 through Fox Park and to Riverside Park  It's not too manicured. It's quite 'wild' right in the centre of a city.		
121	Open, safe and varied space Views are best in Bristol It connects to loads of other walking and areas. I used to walk across to get to work.		
122	open space, nature, wildlife, fairly good pathways		
123	Accessible landscape with historic and wildlife interest.  It maintains a wildness and is not a tame landscape like many city parks.		
124	the archaeology, , follies and ponds all the open quiet space		
125	1. I love to be able to walk in an area of such variety - fields, woods, beside the lake, high on the ridge. Every season has its wonders - the wood anemones, then the bluebells and celandine followed by the wild garlic. The green grass then the long waving golden grass. 2. And then there are the birds - both on the lake and in the woods, and the animals - deer, foxes, fish, even snakes. The area is a constant source of interest and amazement.		
126	Space Views		
127	The vast open unspoilt space Views		
128	It is beautiful and retains its original pre war character. I grew up local so have always known the history. I love it		
129	The variety different habitats present.  Having so much open countryside in the city		
130	The House as a backdrop The range of natural environments		
131	The wooded areas & the open spaces		
132	Views Peace and quiet		
133	The landscape  The sense of freedom		
134	The beautiful specimen trees. The wonderful view of Bristol from up by the com tower.		
135	All of it		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
136	The views and the history.		
137	The wildlife & scenery		
138	Tranquillity Varied habitats		
139	It's a large continuous belt open fields and woodland which is easily accessed from the city, it is large enough to get away from other users		
140	1) Expanse/size 2) Vistas into and across		
141	Large open spaces/views across bristol AA battery		
142	Beautiful open space Open-ness		
143	Large, open spaces where I can walk anywhere. Variety of landscapes and habitats - woods, fields, hills.		
144	Big open space. View from the top.		
145	It's a really attractive park. You get a sense of what it used to be. More open space is much appreciated.		
146	Bluebell woods Sculpture trail		
147	Green space Historic sites		
148	The landscape The nature		
149	The variety in the space - woodland , open space, hilly, flat open bits, summer meadows, muddy wet bits in winter! The flora and fauna throughout the year It is not over used so there aren't too many people who use it - so selfishly I would like it if you don't make it too popular		
150	The open space and tranquility		
151	1. The natural landscape 2. Natural paths - I would be very disappointed if lots of tarmac or hardcore paths were introduced - it would need to be done sensitively and well.		
152	Walking in the woods/doing the nature trail/wild life spotting with our 2 children and blackberry picking in summer (my little boys love the picking and then making the jam)		
153	NICE OPEN SPACE, QUIET, NATURAL WILDLIFE HAVEN..		
154	The woodlands are a great asset and I would like to see the Forestry Commission Woodland management plans fully implemented. Developing scrub in a biodiversity asset and should only be selectively cleared in favour of rich grassland habitat. Other areas should be allowed to develop.		
155	The diverse open space I.e. Grassland, Lake, Woods and the nature it attracts. The beauty and history of the area.		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
156	The varied spaces and vistas The size of the spaces		
157	It has lovely walks and views over the city		
158	its history and beauty		
159	The wilder areas and lack of development		
160	The wooded sections. The ability to let the dog off the lead		
161	Wide open spaces, contoured and varied with a stately centre piece of the house		
162	You can still enjoy what was a beautiful historic landscape. Open space		
163	Peace and quiet		
164	Long, varied paths through the park, so walks can be varied  "Wild" wooded areas		
165	That it remains untouched and it's connection to other green spaces ie. snuff mills and old bury court.		
166	The feeling of being in open countryside The sculpture trail (tree carvings)		
167	Variety of landscapes - wood and open spaces Ease of access		
168	Large area where I can let my dog off the lead Getting a view over the city		
169	Quiet and peaceful		
170	Open space & views Trees		
171	Excellent Views Traffic Free		
172	It's nearby and easily accessible. It's not over managed. I like it's slightly wild.		
173	Quiet to walk in and views across the city.		
174	The views and the amount of plants growing there		
175	Fantastic open space with lots of potential and a way to connect with the local community		
176	Uninterrupted open land of all varieties - woodland, heathland, lakes and fields. Unrestricted for dog walking. Great views of Bristol.		
177	Views, nature		
178	Nature fresh air. Green space.		
179	The views across the city and beyond are fabulous The 'unspoilt' nature in the environment this could be enhanced by the return of grazing cattle and the haymaking.		
180	The views, The sweep of the landscape		
181	Duchesse pond Berry laden bushes		

## 5. What two things do you like best about Stoke Park?

		Response Percent	Response Total
182	It's a unique bit of greenland to walk around, very good for the local neighbourhood. Also the history, ruins and great views over the city.		
183	I used to come to park runs here until they were stopped		
184	wildlife and landscape		
185	I love the views towards east Bristol especially on a sunny day. I also like the modern history of the site; Stoke Park Colony and the World War Two Battery.		
186	Being able to walk in high up open space and wandering through the woods		
187	It's size and the mixture of woodland/open fields.		
188	The main path that runs from top to bottom is smooth and free of debris. I also like the views of the city and the amazing skies you can see when you visit at different times.		
189	Rolling terrain / views Semi-wild habitat		
190	Open spaces and close proximity to my house		
191	The space the views		
192	Green space. Great views. Monuments.		
193	Natural wild rugged beauty & historic feature of ww2 gun emplacements		
194	The feel of Freedom in the Open high space, views		
195	Open views. Solitude.		
196	Sense of open space, but easy to access		
197	The Pond and the View		
198	That is has not been interfered with and no 'improvements have been made. It feels like actual countryside, which is incredibly rare and precious in our city.		
199	The beautiful feeling of countryside		
200	Scenery Tranquility		
201	Feels like a big area, greenery near city centre.		
202	Purdown Repeater Station-Bristol's finest landmark. Visible from all over the city and from as far away as Bath and The Severn Bridges		
203	The woods		
204	Wildflower grasslands and other wildlife habitats  The sense of space		
205	The open views The green aspect		
206	Beautiful grassland park in an urban area		
207	how open it is and how natural it feels		
208	The view and open space		
209	I have known it since achild and it fascinated me and just enjoy the walking and the view from Purdown and the Oblisk.

30	1) The lack of investment or care given to it by BCC, resulting in overgrown areas and vandalism of the work locals do. Even BCC have said in the past that it wasn't part of Bristol and it was south Glos, despite the fact that it is very much BCC! They didn't even know it was one of their assets to care and protect. 2) How few people know about it. It's a real hidden treasure which leaves it vulnerable.

375	Very muddy in wet weather (although understandable!) dog mess/dogs off leads who are overly 'friendly'		
376	<p>1. Graffiti problems - there are several areas that have been covered with graffiti in the park. The main area where this has occurred, is the WWII battlements. Almost everything there is absolutely covered in graffiti. As a local resident, I would be happy to help clean the graffiti, but I fear this will simply keep happening. It is important, in my view, that these pieces of history are open and accessible for everybody, so I do not want to see these areas fenced off (this will not solve the problem anyway). Security cameras may deter people from doing this, but I accept this is a solution that may be expensive.</p> <p>2. Litter problems - this is actually a minor issue, as the amount of litter, that I encounter, is small. This could probably be almost completely stopped by adding just two or three extra bins to the park.</p>		
377	Mud in winter can make walking difficult and ..er cant think of anything else

391	Littering, anti social behaviour		
392	Not enough people can get there by bus and therefore not enough people can use it.		
393	The rubbish in some parts and the dog mess		
394	It is difficult for a person who doesn't know it is there to find it tucked away at the top of Lockleaze with no dedicated car park.  Vandalism by some local young adults who try to spoil the sculpture trail and other places of beauty by riding motorbikes etc in the park and by starting fires / leave barbeques which may harm wildlife.		
395	Dodgy folk from the nearby council estate Burnt out motorbikes/ rubbish.		
396	Fly tipping and unnecessary destruction by people who use the space - bbq scorch marks, moped racing etc.		
397	Professional dog walkers with too many dogs The muddy entrances to park

423	expansion of scrub Motorway Noise - worse in places		
424	i am not convinced that the Council should be promoting access to the park by car. I suggest that much greater effort should be made to encourage access from all directions by bicycle/ There is potential for a high quality cycle route, entering the park at the South end via st John's Lane, containing on the existing surfaced driveway to the Purdown tower, and then continuing northwards along a reasonably flat route and emerging in Cheswick village. the barriers at the access points (especially the extremely obstructive barrier on St John's lane) need to be removed or significantly modified to promote easy access by cyclists and disabled wheelchair users.		
425	Do you ever get it right!  We have a lovely area in Stoke park and i do hope you are NOT going to commercialize this area with cafes etc. If people want to eat they can take a picnic!!!  Don't waste this money if you get it- you have wasted enough in this City. You are a disgrace.

1	Open-Ended Question	100.00%	344
1	sign posted off road running trails. dog mess and litter bins by gates. better route sign posting , including maps and links through to other similar spaces		
2	More facilities		
3	Visitor centre/shelter of some sort for use in inclement weather would be good.		
4	Anything that helped screen the M32 from the park so you are less likely to notice it		
5	more information - on boards re wildlife/maps/history giving it more a sense of community - designated paths / trails would make me more likely to take friends up there, as sometimes i get lost!		
6	An exercise area, more wildlife (that would probably need a green corridor across the park as at the moment it has too many open fields and few woods.		
7	All that stops me going is not having the car.		
8	Better cycle routes Better facilities for kids Less intrusion from the motorway Improved feeling of safety More things to do Keep the wild feel though!		
9	I live within walking distance but if i didn't the parking would be a problem		
10	I already visit every day.		
11	I think it would be great to have a rail link for visitors, but also benefit isolated local people massively!		
12	Better paths		
13	map at the entrance showing how big it is - I walk through everyday and don't know many of the areas		
14	Maybe more benches and litter bins for those who use the park in the summer for picnics. Often rubbish is left and more bins may help this		
15	Weather :)		
16	Parking		
17	A local cafe near to the main part of the park, if sound mitigation was erected along the motorway, if monuments and places of interest were looked after better (i.e. the gun emplacement, the historical features - monuments, house etc) with information points. Although a beautiful place to visit, it feels as though it has been neglected over the years by various owners.		
18	accessible footpaths like in Ashton court estate, so I can take whole family out, with prams, wheelchairs, people who don't own walking boots.		
19	Improvement to path, parking, reduction in M32 noise and restoring the landscape/heritage features.

38	More wild secluded areas out of the way of foot traffic. However, I think the addition of a cycle track running the length of area 6 from the Stoke Park housing estate to St. Johns Lane via the established path and linking to Concord way & the city centre would be a beneficial addition linking people with bikes in North Bristol & S. Glos to the Centre		
39	I would visit more with a bit of rejuvenation! A cure for arthritic knees!

138	Better nearby parking (as long as none of the existing green space is taken for this)		
139	Better awareness of what it has to offer and how to get there.		
140	If it were of historical significance.		
141	Now I know about it, nice weather on a week-end would prompt me to go and have a look around.		
142	General improvements would improve frequency of visiting		
143	Easy access, somewhere to park, way-marked trails		
144	Less slippery steep slopes		
145	BETTER WALKS BETTER INTERPRETATION BETTER CONDITION		
146	Accessible paths (pushchair friendly)		
147	toilet facilities limited dog section more described circular walks with things to find more benches refreshments available		
148	better bus connection		
149	Knowing that I can		
150	Having more free time.		
151	Toilets, small play area, place to get a drink?		
152	Good parking for Bristolians from further afield, possible income stream if charged the same as Ashton Court?		
153	To keep it natural		
154	My children get older and more willing to walk there!		
155	Hiding the M32. Screening. Nature trails. A cafe.		
156	It needs to be disabled friendly as my wife cannot walk far		
157	Better paths on the sloped hills , no dogs		
158	on a bus route		
159	Better connections to other Frome Valley parks at Eastville and Snuff Mills, including advertising bus links, appropriate parking provision for the complex of parks and improved connectivity of the Frome Valley Greenway		
160	More wildlife		
161	Tidied up a little, especially area around the gun emplacements. Make it feel more loved!		
162	This exercise will encourage me to visit		
163	If something could be interpreted, or something made of the gun emplacement. Some bicycle parking - some available information.		

## 9. What would make it more likely for you to visit Stoke Park?

		Response Percent	Response Total
164	Parking		
165	Parking would make it so much easier to use. Café facilities. Decent all weather paths for use all year round		
166	A car park would be ideal		
167	Even more wildlife		
168	More activities for children, i.e. Play area.		
169	Better access especially parking, improved pathways and more biodiversity. Better woodland management and I would like to see grazing to increase native plant species.		
170	I didn;t realise how much more there was to it until just looking at the map so better mapping and directional signs would be helpful and make the visit more interesting		
171	Leaflets eg like those available for Clifton Downs etc. Circular paths accessible from Eastville Park side. (Maybe they exist already.)		
172	if I owned a car !!!		
173	If I lived closer		
174	Curiosity now, and parking		
175	More amenities		
176	better parking		
177	A museum about the house and grounds.		
178	At this time I am not sure as to how you would get there.		
179	More community events- like sculpture trail which are aimed for children as I am a parent of a 3 and 6 year old		
180	More for children		
181	Nicer paths more woods with wildlife, better steps or gravel in some parts it is very muddy so difficult to navigate around		
182	Already visit regularly		
183	Improve drainage on open space footpaths put down hard surfaces, just for pinch points plant more trees in open spaces noise barriers along M32		
184	More freetime		
185	clearer linkage of the different areas BUT not making it too organised, pathed etc which also takes away much of the fun of this semi-wild area. Please don't tidy it up too much and take away its heart.		
186	Better drainage along footpaths.		
187	Unfortunately, better access by car. I usually park just off Muller Road or next to Barn Wood.		
188	More parking		
189	No motorway		
190	IF parkrun were allowed to operate here		
191	Greater visitor facilities, and more information about what the park has to offer.		

## 9. What would make it more likely for you to visit Stoke Park?

		Response Percent	Response Total
192	a guided walk by [REDACTED], more opportunities to join in on activities such as coppicing/wildlife surveys/archaeology, when the meadows are in full flow i visit more often [Redacted – identifies individual]		
193	I go so often, nothing really - keep it wild		
194	better facilities such as toilets and cafe, educational facilities and information on walks , local history and wildlife.		
195	café, less dog poo (wouldn't take my children)		
196	More benches and dog poo bins.		
197	Better accessibility and more facilities		
198	Play area Exercise group / equipment		
199	less mud! better paths		
200	We already visit it a couple of times a week.		
201	Better weather. More places to sit down.		
202	Better weather! ;-)		
203	Better facilities and access Muddy wash stations Events		
204	I already visit regularly as I walk through it on my way to work and take my family to the woods for walks, but I'd attend more if there were a playpark.		
205	More wildlife enhancement and interaction with this for kids		
206	I would visit more only if I had more time, I love the park as it is but recognise it might benefit from some improvement to make it more accessible and inviting for a wider section of the public		
207	Na		
208	No dogs off leads, but know it's a great place for those who have dogs to walk them too, I just don't feel safe going with the children.		
209	Nothing		
210	For the park to be closer to me, as I mainly travel by foot.		
211	If they had a Parkrun on Saturday mornings - Ashton court has 400 - 500 people visiting every week for its parkrun. Also if there were interesting events - a may day fair, fireworks. Or if I knew what of interest I might see there. Oh and I'm a sucker for good coffee and homemade cakes as well.		
212	better paths that don't get too muddy.		
213	Having it's garden walks, ponds and monuments restored.		
214	Occasional hosting of events there. Park run. Cross country race venue.		
215	Easier access from Stoke Lane.		
216	A cafe and a kids play area		
217	a swimming spot		
218	Better foot paths. Less destruction and money wasting by management.

224	If I decided to keep fit and walk <input type="checkbox"/>		
225	N/A		
226	Some.sort of coffee shop along the way/toilet facilities I guess would be good. Would also be good for the fishing lake to have intact fencing the whole way around. We've not walked down near the lake for a while now, not since we walked through with our dog, who got in through an opening in the fence and got a hook stuck in his leg. Ensuring an intact fence would mean we would know it was safe down there for everyone, if we have to run off to get the dog, what do we do with our kids?		
227	A new concrete skatepark		
228	Nothing. It's perfect the way it is.		
229	I will visit now that it has been brought to my attention through this consultation		
230	knowledge of what facilities are there		
231	A children's play area like snuff mills (I think this is the one I mean, it has a sand pit and water fall)		
232	Better signposted paths/maps		
233	if it was a road		
234	I've heard the idea of some outdoor gym equipment floated, I think that would be great even if it's some monkey bars, jumps etc :)		
235	if it was in south bristol		
236	If there were toilet facilities / mobile coffee and snack van allowed it would be easier to plan family trips and picnics there.		
237	Less dog poo more dog bins dig warden visiting area		
238	Café facilities and car parking		
239	I feel a little unsafe jogging there alone, its an under used space and should be frequented much more like Ashton Court in South Bristol. Encourage mountain bikes and kids.		
240	More historical facts, better maintenance of the historical gun battery		
241	Activities and community events		
242	Less motorway noise		
243	Dogs under control, less dog mess. More ability to picnic/play without dog intrusion		
244	I already visit the park frequently.		
245	Stop building near it		
246	More gravel on muddy areas by gates. It has improved massively over the years but still could do with a bit more gateway gravel.		
247	working less so I can visit when it is light during the day

248	Walking paths more accessible. More events. More focal points. More community engagement. Less dog fouling.		
249	More covered existing pathways for the wet mud.		
250	If I lived locally I would visit more often.		
251	If it is left in a natural state,no development.		
252	Nothing - I enjoy the park daily,		
253	Social Housing,playgrounds,shops..		
254	Easier access		
255	Entrances to be less muddy during the winter. The mainroutes in and out of the park - except for the cycle path - are very slippery for an older person.		
256	Toilets, play area, cafe		
257	Knowing I was helping to protect its future		
258	I already enjoy it on a daily basis		
259	all dogs to be on leads and no dog mess		
260	Knowing where it can be accessed eg a map and info about where to park and what's there.		
261	Weekday evening meet ups for wildlife/ bushcraft		
262	If it was kept tidier and was a bit more 'cared for'		
263	would be great if it had a Parkrun		
264	Something exciting, new interesting. Cafe		
265	A cycle path between Broomhill and Romney Avenue		
266	Anything that encourages wildlife there. Good wildflower meadow. Dedicated wildlife lake.		
267	Car park and visitor centre		
268	If I lived nearer by and didn't have a job :)		
269	Toilets available More picnic benches		
270	Nice cafe, themed garden's and adult outdoor gym		
271	younger lets, inconspicuous seating,  way marking-discreet		
272	On your website I was expecting to see a visual display at 'The Hub' all it was, was 2 boards on the wall!! I am most disgusted!!		
273	n/a		
274	A small cafe with outdoor seating space would be a welcome addition, perhaps a few picnic tables in certain spots.		
275	Better cycle access and cycle paths, including a zig-zag path south of the park through or near to Allot Gardens Recreation Ground to enable step-free and traffic-free access up the slope between Muller Road and Sir John's Lane.

281	If there were something there worth visiting - all I understood about it before this consultation was that it was parkland with the M32 running through.		
282	We used to have event days like wild walks, camp fires talks about history of the park but now nothing.		
283	More time!		
284	A central location for information about activities taking place.		
285	Bigger car park		
286	Better signposting and naming the entrances to make it easier to meet friends there. Proper signposting of the sculpture trail and more sculptures over a wider area (2-4 miles total). More waymarked trails.		
287	Probably visit this year		
288	Designated bicycle / cyclocross route.		
289	not a lot		
290	Being able to get involved in preserving what is already there		
291	Toilets and refreshments availability and better dog poo bin placement and regular collections		
292	coffee shop with a view.		
293	Smarten up anti-aircraft battery area and add info signs		
294	stop the motorway. take down the tower.		
295	Some gravel/hard core around the areas that get too muddy in the rain (around the lake) and more access routes to Lockleaze.

Other (please specify): (129)						
1	Bins Repair/replace all the damaged gates Stop vehicle access off Long Down Ave into Hermitage Wood (the security bollards have been removed)					
2	Think about anything that could screen the M32 from view/noise pollution					
3	Remove the massive antenna and other metal fencing in the park.					
4	Bins					
5	Dog's under control.					
6	Having a park manager and dog warden to keep on top of regular issues in the park and have a person to report to. This could be funded by selling felled wood from woodland management (as National Trust do) and from fundraising activities and cafe profits.					
7	A ranger to look after the park.					
8	The car park is a god idea, however it depends on how much natural space it would involve taking up.					
9	Drinking water taps. I know there were many and that they still exist but are now covered.					
10	Cycle paths					
11	Please no more signs and please do not tarmac paths through the woods or parkland

		1	2	3	4	5	Response Total
12	Provide good map in preference to excessive signage						
13	<p>maintain and restore Purdown Percy</p> <p>I am horrified by question 12, which does NOT tie up to the nuanced and careful coverage in the report. I want it restored and still accessible, At least one of the concrete and brick structures (gun positions 1, 2,3, or 4 in the archaeological report) , which formed the shelters to the guns should be retained as accessible as part of the scheme, although the others could be banked over with earth following careful recording, but one should remain as part of the interpretation centre.</p> <p>An oral history project should be established urgently, to ensure the memories of those who manned the battery and of the children from Lockleaze who played there in the post war period are captured. It is noted that there is oral history from those who lived in the Camp, but not from others who knew the site well.</p> <p>The plan as included in the papers, and the report fail to record the elements of the work which lie to the east on the edge of the slopes, just north east of 12. These lie just outside the hedge line on the top of the slope and are a pattern of concrete footings, different from those marked on the plan. We thought they are position 1 on the plan, but in fact they are between small gun position 1 and position 6 - in the hedge to the right of the footpath, but before position 6. If this is position 6, then fine, but it looks to be in a different location.</p> <p>I attach some photos of that element. These need to be included in the schedule.</p> <p>the conservation report at 2.6 talks about post war use by squatters. If this were true, it was only true briefly, as my husband lived in a house backing onto putdown from the early 1950s and he, his friends and his older brother had unrestricted access to the Command Post, which they called the dungeons, as well as to the circular more open areas. The children found an old tin helmet there, and the site was not at that point occupied by anyone, and they did not find remains of habitation, except the military helmet. The Camp, referred to in para 2.6 and 3.5 were not actually in the buildings we now have surviving. it is important to distinguish the Camp and the archaeological site items 6 - 12 on the Draft Proposals Masterplan.</p>						
14	Toilet facilities						
15	I 100% agree with replanting trees..but a woodland has grown up..that was not on the original plans...to remove that would be devastating...especially since tree removal seems to have only resulted in an abundance of brambles and nettles.						
16	Planting more trees - yes, not sure it needs scrub removing unless it prevents tree establishment. The attraction of it is that it doesn't look like someones manicured garden. If you make Stoke Park a place rich in natural wildlife and history, and where people feel like they can escape busy city life rather than be reminded of it with signs and cafes, then it'll be a place that will automatically attract people. A fairly discrete cycle way from Stoke Park to St. Johns lane via the established path will link people to the park in a green way - don't build a car park where people can loiter, drink, do drugs, and leave litter to blow over the park etc. Put in a few cycle lock-ups and bus stops/routes near by.						
17	Provide a space for outdoor learning activities and an area dedicated to independent forest school providers to enable young people to experience the woodland in a safe and exciting way.						
18	Encourage use of public transport/cycling/walking for access. Show bus stops and entry points on maps & guides						
19	Plant more wildlife friendly trees. Especially with the onset of ash die back.						
20	Install a permanent orienteering course						
21	A museum type area around the ww2 battery site						
22	Kids play area - picnic benches dotted around - sculptured art in natural environment - more dynamic and inspiring than what's proposed						
23	Although signage is very useful I do enjoy the opportunity that the park provides for 'getting lost' in the woodland.						

**10. The Conservation Management Plan identifies areas for improvement. To help us prioritise can you rate how important you think the following are (1=Not important, 5= Very important):**

		1	2	3	4	5	Response Total
24	Control the dogs. Like every other open space in Bristol, this park belongs to the dogs and their owners. You do not stand any chance whatsoever of encouraging more people to visit (and support) this park unless and until you have addressed the threat to their physical safety posed by dogs and their (often violent) owners. People will not visit this place while there is a risk of going home injured, or worse still ending up in hospital. Until BCC removes the blinkers and pulls it's collective head out of the sand and recognises the dog problem, you are wasting your time with consultations such as this.						
25	Don't make it too sterile and managed. It's nicely wild.						
26	as many area as possible should be disabled access,						
27	There is a lot of walking about through the woods (not on paths) and this is slightly concerning as the spring flowers could be crushed before they have a chance to bloom. How can they be protected?						
28	Regular security patrols. Lone women vulnerable.						
29	Ensure gangs of youths don't hang out making it feel unsafe Some sort of noise barrier scene from the motor way						
30	I would like the Council to adopt a minimal intervention approach, to avoid destroying or damaging Stoke Park's key characteristics.						
31	I would like the structures made more conspicuous, cleaned and provided with information boards but I don't think that money should be spent on trying to return structures (especially the obelisk) to its original form. I would also like to see benches provided at viewing points and, possibly, more dog waste disposal points.						
32	Creative publicity and social media to raise awareness of what's there						
33	The park would really benefit from a hedgehog conservation project. ~25-50 hog homes throughout the area? [Redacted – identifies individual]						
34	Natural Play / Art trail to attract families and engage younger visitors, such as the one in the woodland at Tyntesfield National Trust site.						
35	This area was designed by Thomas Wright more should be made of it.						
36	THERE IS A DISTINCT LACK OF RUBBISH BINS... this is most important if the area is to stay nice with the encouragement of more visitors they must have plenty of rubbish bins!!!!						
37	More dog poo bins....						
38	Try to keep the wild nature of this space						
39	Provide an outdoor LIDO, clear out the overgrowth, develop a programme of commercial events for local residents. install a child's play park						
40	Consider a section like Go Ape						
41	Litter bins						
42	Provide a large graffiti wall for young people						
43	Woodland 'natural' themed adventure play area						
44	Get rid of the "monument" to war. Move with times, and commission works of art to foster peace. Remember. The British bombed German cities, before the Germans bombed here. To "glorify" war is unwise.						
45	Include a Visitors Centre in the plan.						
46	Sort the drainage under the M32						

**10. The Conservation Management Plan identifies areas for improvement. To help us prioritise can you rate how important you think the following are (1=Not important, 5= Very important):**

47	Give people the opportunity to hold events at the location so if there is a cafe there can be some education rooms for healthy eating programmes and grow your own food areas.						
48	Consider using trees as screen for motorway.						
49	'Good management' is highly subjective. If it was done in accordance with permaculture principles it would be worth a go, otherwise the usual short-term-ism will likely prevail. Also it would be wretched if more trees were removed- too many have gone from Bristol already and the city desperately needs the remainder, especially near the motorway, to aid with air quality.						
50	As a parent at Fairfield School, I would like to see the playing field developed for shared school and community use.						
51	Clean up the shit						
52	Cycle parking points. Organised one off events to get people familiar.						
53	Toilet facilities						
54	Transport links from central Bristol						
55	Consider putting in some small bike trails and encouraging local events sporadically.						
56	I did not actually know the names of the areas of the park.....						
57	Cycle access should be permitted on all new paths to provide space for families to be able to ride together.						
58	Toilets and waste bins						
59	clear cycle tracks						
60	Just to say when you restore the pathways careful consideration needs to be given to all park users. If faster cycling is going to be encouraged this needs to be separated from pedestrian pathways.						
61	Bins for dog poo						
62	Good transport						
63	Consideration of providing a path that would be of a good enough surface for pushchairs, prams, wheelchairs and mobility aids to increase access for all. This would encourage more visitors.						
64	Signage & notice boards need to extend beyond the park too - eg maps at nearby bus stops to encourage & direct visitors; Info in park about where to catch bus home & cycle routes. Access from Stapleton needs to be considered as well as Lockleaze						
65	Restore the structures, at least partly, including the obelisk. I remember when the obelisk was still stood to a significant height - not the stump that is there today.						
66	maps and marketing and information generally available to the public. IT's not a well known of place.						
67	It would be amazing if the WWII area could be improved and some signage, pictures etc to show what it was like and the importance of it.						
68	Develop the park with partners who will provide disabled young adults with meaningful, long term opportunities for supported employment to manage the grounds and proposed grazing. Use the land to bring on local breeds of cattle. Use their meat in our local schools and food outlets. Provide arable opportunities for enterprises in CICs to develop food production opportunities. Provide apprenticeships in coppicing an woodland management for the benefit of this parkland, and its Bristol park neighbours from Manor Woods, to Eastwood Park.						
69	provide bins						
70	More organised events for children, parents, grandparents and everyone.						
71	Car parking will encourage dogs and fouling, cafe will cause more litter.

72	In no way should council funds be used in this manner						
73	Toilets						
74	it would be good to work with artists to interpret the many and natural and historical assets of the park and map out it's many features with local people. i would also like to see more controls on dog use and a limit on how many dogs at once that dog walkers can walk (there have been regulations set to limit this in areas of london). also in places they should be put on leads.						
75	The is a lot of land in the jurisdiction of Stoke Park that could provide jobs for local people to manage. Food can be grown and sold within the city walls. People can be employed by managing food growing projects and maintain the tradition of farming the land.						
76	stoke park is not micro managed and has a wild feel which is the best thing about it. making it into parkland would spoil the unique wildness of the area						
77	Would prefer it left wild as when owned by hospital and as I remember it from my time working in both Purdown and Stoke Park						
78	Bins for users to dispose of litter safely						
79	segregate cyclists from pedestrians						
80	Childrens centre						
81	I don't think a car park is necessary. There is lots of on street parking and we should really be encouraging people to walk or use public transport. Equally, there are two brilliant cafes nearby, and we should be encouraging use of those rather than opening another social enterprise as competition. Surely we want people to visit the park, not a visitor centre :-) If we need to generate income for the park, we should look at alternatives. In my experience, social enterprises take a long time to generate profit to feed back into the original aim.						
82	I think scrub is an important wildlife habitat and that there needs to be a balance of woodland, meadow and scrub to maximise biodiversity. This is more important to me than how the site looks, or restoring it to how how it might have looked at any one historical time.						
83	Provide visitors with brochures and promote the park to both tourists and locals, also emphasize on what makes it unique to other/nearby parks. i.e. coverage from rain, bad weather, a place to socialise, friendly staff, secure and safe at both day and night, student-friendly (discounts).						
84	If you are considering improved car parking you MUST also make sure you provide loads of good quality bike parking as well - and also ensure that the cycle paths to and into the park are fit for purpose and safe						
85	Improve drainage under M32 underpass						
86	Improve the space for wildlife and clean air.						
87	Play equipment						
88	Bins and better litter collection						
89	Seasonal activities, educational and youth activities to support nature appreciation and learning						
90	Stoke Park makes a magnificent entrance and exit to Bristol for the thousands/?millions who use the M32. It may have been a crime to build the M32, but since its there, Bristol should make the most of it as a rather wild but stately landscape surrounding the Dower House, Respect the rural grandeur of the landscaped park. Please do not allow greenery to grow up the fence and stop motorists enjoying the view of the park. The new fence near the bus exit looks like a prison fence - horrible!						
91	This park is large enough to incorporate a recreational space for young people such as a concrete skatepark. This would help bring a new and wider age range to the park and help to promote social inclusion. The skatepark could be landscaped into the park to make it a really attractive space, both for wheeled sports users and the general public passing by or spectating.

95	It would be nice to give the park another use. I think Stoke Park could learn from numerous case studies where art and architecture are introduced into the landscape to encourage and engage more people to the area. Bristol as history of landscape artists.						
96	Do SOMETHING about the site of the battery guns on Purdown before this bit of history is completely lost. So sad that so much is cordoned off.						
97	Dog waste bins to be put at entrances to the park.						
98	More bins! Litter and dog waste!						
99	A bus service which is regular from all over the city-then you wouldn't need car park !!!						
100	Warden or other to make sure Duchess Pond is protected and well run by the fishing group. Habitats were spoilt last year by random clearing at the wrong time of year. Entrances to be designed so that motorbikes cannot gain access. Fences and gates to be redesigned for this.						
101	More commercial enterprises if possible, but only if viable. Horse riding? Cafe if financially viable. Bike rides. Open up proposals to private enterprise.						
102	More litter bins around the park.						
103	I think replant trees is a good idea, but not necessarily the removal of existing trees						
104	More litter bins / litter picks						
105	Childrens plant a tree program School involvement... play area						
106	New cyclepath						
107	Recreation facility for physically disabled like accessible fishing platforms						
108	Involve local school in the signage design						
109	5= Very important: Remove barriers at entry points which restrict access by cyclists, mothers with pushchairs & wheelchair users. 4= Important: Provide zig-zag path south of the park through or near to Allot Gardens Recreation Ground to enable step-free and traffic-free access up the slope between Muller Road and Sir John's Lane.						
110	Make the access points known and obvious - signage to the park from surrounding areas.						
111	increase police patrols in area to make it safer						
112	Employ someone that knows the history, give talks and someone that you can call for complaints etc, pointless ringing council they haven't a clue.						
113	Maintain feeling of wildness, not to allow taming of the park						
114	Create a cycle track						
115	introduction of education and informative events in the park.

116	I went on the tour of the park with the council and at the obelisk it was discussed whether recreating the full obelisk would be a good idea. Having seen photos on the walks leaflet I would really like to see this and it would give another good monument to encourage people to visit.						
117	Signage to Stoke Park from other nearby sites such as Snuff Mills, where there is currently parking. Publicity on the bus that serves Stoke Park (24) about Stoke Park. Also buses to Snuff Mills. Signage to existing cafes in the area.						
118	Buy Lockleaze community centre from administration and make this the new Library and park cafe and community facility. Sell the temporary library building plat to make this all possible. Win win and use income from the new centre to help pay for the park..						
119	Get rid of those TA garages. They are an absolute eyesore and have no benefit whatsoever to the local community.						
120	Environmentally friendly low level lights along the path to help create a more secure feel at night. But not at the expense of the wildlife.						
121	Links to public transport e.g. Metro bus, links to existing cycle routes. Create 'walking' routes e.g across to Frenchay and Frome Valley, via Purdown to St Werburgh's and Ashley Down.						
122	What the park needs most is people being involved from the local community and feeling involved. What it does not need is an over-managed woodland where the very essence of it's 'wildness' is destroyed by too many over-engineered paths and signs everywhere. One of the main reasons that the park is so bio-diverse is because nature is mostly managing it the way it sees fit, not so that it looks the way that certain humanbeings think it should						
123	I like stoke park because there are no signs and its wild but maintained and having a giant metal sigh will ruin that						
124	improved access,improved paths						
125	Toilets and bike racks						
126	clearer signage for location of dog poo bins, a few more benches for resting places. I would not want to see a commercial cafe operation unless it was by a community organisation and it should be through open tender where only specific community organisations or very small local businesses were eligible to bid, not 'chains' whether Bristol-based or not.						
127	toilets would mean that people might stay for longer.						
128	Bike path from bottom of stoke lane to heath house lane bridge						
129	Cycle paths

If no, why not? (146)

1	This would be a disaster for dog walkers. The appeal to me of Stoke Park is that it's a huge area where my dog can run around without bothering anyone. It's like a beautiful piece of the countryside but without any livestock to worry about. If there were livestock to worry about I would probably stop coming :( So would lots of other people. If it has to be done, I don't think cattle should ever be in the main House Park or Purdown areas as these are most used by dog walkers. If they were confined to other areas with fences that would be ok.
2	Gates would make access harder for bikes and prams Cow pats
3	Concern over fencing and security of the cattle. The site is a wonderful site for people to walk their dogs safely at the moment and it would be sad to see this status change.
4	Yes - it would be nice for city children to experience
5	would limit use of the park?
6	Cows can appear quite threatening for visitors and discourage dog walkers
7	As long as you can still let the dog off the lead in don't mind
8	Stupid idea. Would restrict access to the park for bikes using it for commuting and people walking dogs in the park. Ridiculous idea. It's 2017 not 1927!
9	The area is one of the few places in Bristol where dogs can walk off-lead in a relatively safe and enclosed environment, without a large number of picnics or animals. The introduction of cattle, even in a restricted area, would really affect that and we would have to stop visiting the area.
10	However I do remember being chased by angry cows during cross country runs when at school. Question 12...restore but DO NOT BURY!! The arsenal bunkers need to be seen. Restore the metal roofs, install purdown percy and fire blanks at the people on the rope slide.
11	It would restrict freedom of movement to walk around the whole park easily
12	If this is to happen i would like to see an environmental impact assessment to take place as we need to be considering the impact on the environment of having cattle on the site.
13	It would restrict the freedom of dog walkers to let their dogs run freely, and there would be cow pats everywhere too.
14	Cattle are not best placed next to a motorway with fluoride emissions and pollutants, they are also a greater risk in an urban environment and can be threatening, goats or sheep might be more suitable
15	I sometimes walk at the National Trust Frenchy Common they used to graze there but stopped it as idiots used to vandalize the fences and the cattle would escape and theirs and others safety would be compromised.
16	However, being vegan we would not want this should the cows be then sent to slaughter!

17	Don't mind, so long as gates still allowed easy bike passage from blackberry hill up to Frenchay.		
18	I am scared of cattle due to being chased multiple times with my dog. I would not be able to walk in areas where cattle were and my dog would probably bark at them. If this occurred I would no longer visit Stoke Park. The only way this would be ok would be if they were in a fenced, relatively small area that I could easily avoid. I most often use the area around Long Woods and its surrounds, so if they were far away from there it wouldn't be too bad.		
19	Restricts walking and some people dislike herds of cattle. The area is ideal as it is.		
20	makes it difficult for dog walkers, and at present this is a site where dogs can eb walked with confidence		
21	There are fewer and fewer places in Bristol where dogs are allowed. Priority seems to be given to families with children. This is a very popular place for dog walkers and restricting access just makes exercising dogs even more difficult		
22	Cow are dangerous..also I would worry that they would be victims of torment		
23	Cattle do what you suggest, but they also churn up the ground leaving lots of mud - generally I find most people don't like walking through herds of cows, the mud, having their dog roll in cow pats, having to have their dog overly controlled, and a lot of people are scared of them. Boundaries for cattle would spoil the view. In the middle of Bristol is not the place for cattle. However, seeing a few wild deer in the Park, which I do see from time to time, is always welcome as long as they aren't doing too much damage to the habitat - which I don't see evidence of currently. I'd rather see the woodland expanded with tree planting		
24	Would this generate an income? RE Purdown Percy, SAM: I think it should ALL be cleaned up, then protected from vandalism.		
25	We could no longer walk the dogs there as we have a collie who would herd the cattle.		
26	Cows and dogs are not a good mix. May be harmed by "lovely" locals		
27	I enjoy the park as an open space to walk and exercise my dogs off lead. Defeats the object if they have to be kept on a lead.		
28	I have strong vegetarian principles.		
29	Anything that places further restriction on where dogs can be off lead is unwelcome. There are few enough places already.		
30	myself and family members have been frightened by cows in the past.		
31	I think cows act as a deterrent as they can be intimidating!		
32	The only reason being that this would limit dog-walking		
33	One of the things I enjoyed here is that people were able to let their dogs roam free (even though I'm not a dog owner myself!). If you were to do this please consider having "leash free" zones so that pets and their owners can enjoy the park stress free.		
34	The dogs will attack the cattle. They would be sitting ducks for dog attack. See my comments above. This city needs to address it's dog problem before even thinking about schemes such as this. The text of your question clearly implies that dogs WOULD be allowed into grazing areas with an expectation of them being controlled. Are you joking? Have you walked through a Bristol park recently? Do you know how arrogant, irresponsible and selfish the dog owners are in Bristol? The cattle would be chased down and ripped to shreds.		
35	High ongoing costs.

36	Bit big. Goats or sheep instead.		
37	I think the amount of dogs using the park would be detrimental to health of cattle.		
38	but is kissing gates the answer... I use a mobility scooter/wheel chair, so a sprung large gate would be required for people like me to gain access...		
39	Several reasons: Livestock and significant numbers of people seldom mix well. Sooner or later there will be an injury to either a visitor or animal. The majority of dog owners are responsible but there are those who are not - dogs and livestock can be a potentially deadly mix. Livestock in a public parkland setting are liable to theft or injury.		
40	In parkland open 24 hours a day the chance of a mishap to either visitor or cow is potentially quite great.		
41	Only in limited areas		
42	Because it is impossible to walk my big active dog on the lead for more than a few minutes without dislocating my shoulder.		
43	Having to dodge cow pats when playing on the grass with children or having a picnic.		
44	There are very few places I can let my dog off the lead without risk.		
45	Point 12 - include a Visitors Centre over the site.		
46	Prefer hay meadow bio-diversity / non-farmland character / would require additional infrastructure that would diminish open nature / plays cowpats!		
47	Depends on how large the herds would be		
48	Provided that the footpaths did not get lounged I by the cattle		
49	Because if the cattle poison the pond with their effluent it will kill the fish		
50	It would depend on how this was achieved... it would probably probably entail fencing, so hindering access... though traditional hedge laying would possibly be an acceptable conservation compromise...		
51	Because the noise and pollution from the motorway wouldn't be nice for the cattle to have to listen to all day long.  Also, and without wanting to sound like a broken record, animals=shit		
52	Very good idea.		
53	Dangerous beasts!		
54	I use the park to walk my dog. There are limited places to walk with dogs off lead and having livestock would limit the ability to exercise my dog.		
55	It would be very difficult with the dog. We avoid Leigh Woods for this exact reason.		
56	BUT , in light of recent accidents with stampeding cattle, the area of grazing will need more substantial fencing than an electric fence, for public confidence.		
57	But access for people on bikes would need to be retained at all times. Access controls should be avoided

58	Not sure about safety. If they were fenced off and kept away from the public then yes.		
59	But not on the bike path area		
60	Cattle are an environmental hazard in themselves. Sheep would be fine or deer.		
61	Being selfish - my dog not good with cows so would have to very careful and would be less carefree		
62	As long as there was still access in the park by horseback.		
63	cows are quite destructive, they pull grass up leaving area of very muddy land. Sheep and/ or deer are much better for the grassland.		
64	depends on breed. would they be used for meat? against that. dogs under control or on leads? latter agree with		
65	I think preservation of diversity is the most important thing for Stoke Park. I'm not bothered about whether the park is preserved to the original historic design.		
66	Cow 'emissions' is more damaging to the planet than CO2 emission from cars		
67	Not just cattle could be considered, maybe goats, sheep or deer.		
68	I would like to see the money used to improve local parks that are closer to housing £3,000,000 would make many improvements in such parks.		
69	Primarily I use the area to dog walk		
70	I do not want to see part of the ww2 gun battery buried and nor do I want it to be allowed to continue to degrade over time. I feel this is an important historical site and the whole area should be maintained		
71	more faff for dog walkers		
72	Stoke Park (especially the woods) is a doggy haven. Also, children are able to run around without too much worry about what they might step in.		
73	this is a tentative yes- i don;t know enough about this to really give a an informed answer-		
74	reduced areas to walk dogs off the lead		
75	Would restrict access for horse riders and make access to certain areas difficult for runners and dog walkers		
76	But only if good accessibility can also be maintained with gates suitable for all		
77	Frightened to death of cattle		
78	Love cows ( and grazing benefits ) but fences / hedgerows will make the park feel segmented/restricted and lose its "open and free" feeling		
79	I like to be able to walk my dogs without worrying about cattle		
80	I think cattle could benefit the site but what is more important in my opinion is planting more native trees and not removing too much of the scrub.		
81	It would be restrictive for my dog. The great thing about the park is that he can be off lead for the whole walk (sometimes almost 2 hours)		
82	As long as cycle movement was not restricted

83	Grazing animals would potentially reduce how family friendly the park is for taking young children there.		
84	I like the idea of grazing but cattle can be scary. Sheep would be a safer option.		
85	Cows can be dangerous even when dogs are on a lead. There is no need.		
86	I'm unsure but if it is the best for all wild life and has been researched probably then it would be a yes.		
87	It is a great place to let dogs free without lots of bikes, children's play areas etc. There are fewer and fewer places where this is possible.		
88	Not sure		
89	I don't like cows - why not sheep?		
90	The cow poo that would be left behind. Cows are unpredictable and dangerous and stoke park is not big enough		
91	Cows might put people off walking through certain areas Would the cows be safe?		
92	but why cattle? Sheep may be nicer and create less mud.		
93	It sounds lovely - but as a dog owner it would worry me - if it was clear where the cattle would be so you know when to put dogs on leads then it would be fine.		
94	This is a good place for dogs to run so I would not want to have to restrict them.		
95	Reduced access for dog walkers and runners		
96	Because of conflict with dogs		
97	It would restrict my use as a dog owner.		
98	NB the question below (12) has unfairly loaded answers		
99	I would worry about my dog - it's great that he can run off lead for an hour & a half stress free for us both.		
100	I'm not sure. I agree in principle however I am concerned how much of the park would then be inaccessible for those with young children as well as those with dogs.		
101	This would disrupt many dog walkers who specifically use and most rely on the freedom and space to let their dogs exercise.		
102	Dogs and people need to be able to use all of it.		
103	I'm scared of cows!		
104	Fear that lots of extra hedges/fences will take some of what makes this open space special away		
105	There are fewer and fewer places to take dogs for a run and think that cattle could present challenges for walkers even without dogs. It's a park and should be kept so.		
106	Depends on how it is done and how much restriction there is when running re gates etc.		
107	Would be yes if dog proof fencing is used - I love walking my dogs in Stoke Park, but they are uncontrollable (not aggressively) once they see livestock, so I would otherwise have to stop walking them there, which would be a HUGE disappointment.

108	possibly I would, but would need to really consider the fencing and make it dog proof! It's really nice to be able to walk the dogs without the worry of coming across livestock.		
109	The dogs love having such a free and large space to sprint around in		
110	Restricted use		
111	Restricting access to the areas of the path.		
112	BUT, if any gates are located on main paths, they should permit easy access by cyclists, mothers with pushchairs & wheelchair users (i.e. probably not kissing gates)		
113	Kissing gates are a nightmare for cyclists why cattle whats wrong with deer goats or sheep less management is required for these		
114	It's not a farm		
115	Animals would not be able to be kept safe		
116	Difficult access already and unable to use buggy.		
117	Huge numbers of dog walkers use area for off lead walking. Introducing cattle will mean access would be restricted for areas to walk dogs.		
118	Cattle management is a difficult and hard task, I do not believe the Council or Council run projects have the relevant knowledge or experience to properly maintain a herd of cattle.		
119	I like the open space		
120	Need careful segregation of dog exercising and grazing animals		
121	I do not think that this could be managed due to irresponsible dog owners and people who have no respect for livestock.		
122	I would be unable to walk my dogs off lead if there were cattle grazing		
123	I like the fact that dogs can roam free		
124	Who would own the cows and would they be killed for food?		
125	However it would need careful restrictions on the areas available for grazing - cattle can be quite intimidating!		
126	Not sure as most of the people walk dogs they would feel restricted.		
127	Without onsite supervision & a paid warden this will be a disaster. Hundreds of people use the site to walk dogs every week & there will always be some whose dogs cause a nuisance - this will be increasing problems in the park. Spend money actually looking after it rather than trying to find cheap solutions which will actually cause new problems.		
128	I think goats would be better for this idea, not cattle.		
129	I have ticked 'no' but I would be in favour of cattle being re-introduced IF it would still be possible for small children to move around the park without having to walk past herds of cattle, which can be very intimidating. Signage about how to safely walk past cattle would be helpful, and signage giving information about the herd, effect of grazing etc would be interesting.

130	Concern about damage to sensitive areas and also the ground - the park can get very boggy the cattle will make these issues worse. The fencing could be damaged which could lead to them running loose in other areas of the park. Many people walk their dogs in the park and cattle would cause a problem with this.		
131	I like how I can let my dogs roam freely over a long walk.		
132	Because I'd have to put my dog on the lead.		
133	Like so many dog walkers, I don't like walking with my dog where cattle are. Moving them around would mean I'd never know where they were. I feel my access would be restricted.		
134	Cattle = a problem where dogs are involved and they tend to churn up any ground they graze on. Just because it historically happened does not make it the right thing to do now		
135	Cattle and city dogs do not mix well. Will cause trouble for owners and the cattle alike		
136	I like Stoke Park because I can let my dog off and don't need to put him on the lead for ages and having cows will just be a worry also I have cows by me just below the Priory in the summer.		
137	We need the meadows for the encouragement of wild life species and plant species		
138	Dogs would be a problem when off leash with some people not in control		
139	Restrictions on dogs, people can also be afraid of them		
140	n/a		
141	would need to know where cattle are. and signs to warn people. and someone to keep eye on		
142	I do think the scrub should be cleared by grazing but given that a large proportion of current park users are local dogwalkers, I would like some consultation should be made with local people on the rollout of this.		
143	Restrictions when walking dog. Cow muck		
144	Only if this is done in a way so as to increase the wildflower population in the park.		
145	I enjoy exercising my dogs across the whole of the parkland. I feel safe with them here. I avoid going to open countryside to avoid livestock. I would be disappointed if I was now restricted here.		
146	Cows are in the way of bike path I want between bottom of Stoke Lane to Heath House Lane bridge		

**12. The park has a historic WW2 anti-aircraft gun battery. How would you like to see this managed?**

		Response Percent	Response Total
1	Leave it open for public , allowing continuing degradation over time	33.33%	220
2	Save it for future generations by burying less important parts under soil, whilst stabilising most parts for visitors and schools to see, and provide interpretation.	66.67%	440
