

Question 6 – Cllr Gary Hopkins

For independent auditor

Re: Bristol energy

There seems to have been a significant change of policy and purpose for the company early on in its operational life. It moved to become a mass account seller.

Can we pinpoint the decision making and who was aware of the change?

Answer: I can confirm that the BE matters queried by Councillor have been specifically addressed in our further work on BE. I am currently considering the draft report and will shortly be in a position to issue it to officers for their comments, prior to updating members.
