

Eco Impact Checklist

Title of report: Adult Social Care Community Support Services				
Report author: John Readman				
Anticipated date of key decision August 10th 2016				
Summary of proposals: For BCC to set up a new Community Support Service specification & CS Performance Management Framework to improve quality, consistency & pricing standards. To transition to an outcomes based service that promotes independence & by association reduces costs, in a context of reducing budgets & increasing demand.				
Will the proposal impact on...	Yes/ No	+ive or -ive	If Yes...	
			Briefly describe impact	Briefly describe Mitigation measures
Emission of Climate Changing Gases?	Yes	-ive	Travel & transport across the city associated with assessments & delivery of com sup services	Social Care BCC teams & service providers should produce Travel Plans that incorporate sustainable travel choices & travel reduction strategies.
Bristol's resilience to the effects of climate change?	Yes	+ive	Good com sup services will enable best resilience for vulnerable citizens	
Consumption of non-renewable resources?	No			
Production, recycling or disposal of waste	No			
The appearance of the city?	No			
Pollution to land, water, or air?	No			
Wildlife and habitats?	No			
Consulted with:				
Summary of impacts and Mitigation - <u>to go into the main Cabinet/ Council Report</u>				
<p>This key decision to set up a new Community Support Service specification & CS Performance Management Framework to improve quality, consistency & pricing standards of community support provision does not in itself have any significant environmental impacts.</p> <p>Service delivery will incur environmental impacts specifically relating to travel around the city & it's associated impacts on air quality, congestion & noise pollution. Effective travel plans should be made by BCC teams & each commissioned service provider to minimise these impacts.</p>				

The service delivery will provide the positive environmental impact of enabling **better resilience** to climate change & weather shocks such as flooding or heat waves, by it's work to support & enable vulnerable citizens.

The net environmental impacts of the proposal to improve service provision are not significant.

The net environmental impacts of service delivery will be positive, if travel impacts are well mitigated.
