

**Eco Impact Checklist**

<b>Title of report:</b> Adult Carers' Services recommissioning				
<b>Report author:</b> Sonia Davies				
<b>Anticipated date of key decision</b> 02/11/21				
<b>Summary of proposals:</b>				
Will the proposal impact on...	Yes/No	+ive or -ive	If Yes...	
			Briefly describe impact	Briefly describe Mitigation measures
Emission of Climate Changing Gases?	Yes	-ive	Day to day running of the provider/s has an associated energy cost through buildings usage, operations, and staff travel all leading to emissions.	Through the procurement process, encourage the provider/s to consider implementing policies to reduce its energy consumption and promote active travel wherever possible.
Bristol's resilience to the effects of climate change?	No	+ive	Adequately supporting Bristol's population of unpaid carers relieves pressure on other Health and Social Care services which are likely to be under greater strain in future due to the negative effects of climate change on health and wellbeing.	
Consumption of non-renewable resources?	No			
Production, recycling or disposal of waste	No	-ive	Day to day running of the provider/s has an associated level of waste production, primarily of IT equipment and office waste.	Through the procurement process, encourage the provider/s to consider implementing policies to apply the waste hierarchy when disposing of IT and other equipment. They should also consider providing information to carers about the reuse opportunities for equipment, or the correct disposal of waste medicines or packaging relating to care provision.

Appendix F

The appearance of the city?	No			
Pollution to land, water, or air?	No			
Wildlife and habitats?	No			
<b>Consulted with:</b> N/A				
<b>Summary of impacts and Mitigation - <u>to go into the main Cabinet/ Council Report</u></b>				
<p>There are no significant impacts associated with this proposal.          Whilst the net effects of the proposals are minimal, there is an opportunity to encourage the provider/s to consider implementing policies (if not already in effect) to reduce consumption of energy, and production of waste.</p>
