Introduction

Local authorities up and down the country are facing unprecedented budget pressures, and Bristol City Council is no different. The scale of the gap was announced in November 2021 and since then we have worked hard to come up with saving proposals to close it. During this time, we also received the annual determination of funding to local government which reduced the gap from £23.1m to £19.5m for 2022 to 2023.

Protecting frontline services is our priority and that's why the savings proposals first and foremost are focused on reducing our own internal council costs. The saving proposals contain 89 suggested changes across all council departments. The proposals put forward are not definite.

The saving proposals will be presented to Cabinet on Tuesday 18 January (2022), and Cabinet will decide whether to recommend the budget to Full Council. If it does, Full Council will consider the budget for 2022 to 2023 on 15 February 2022.

The setting of a budget which includes these proposals does not guarantee that they will all happen. Many will be subject to further development, public consultation, and formal Cabinet decision-making. Because they may not all be delivered, we have identified options with a total value that is higher than the budget gap, giving us some ability to substitute or change items later.

Our savings and efficiencies proposals 2022 to 2027

The following list of proposals set out how we hope to bridge our £19.5 million budget gap until March 2027.

There are 89 suggested council-wide proposals to be presented to Cabinet. These cut across multiple themes or areas of council service, and speak to how we organise ourselves, conduct our business and raise income across the board. They are closely linked to our [Corporate Strategy 2022 to 2027](#) priorities for being an effective development organisation, working more closely together in a ‘one council’ approach and taking a corporate approach to issues like property and charging.

Each proposal is presented with its forecast savings for each financial year up until 2026 to 2027.

The list of proposals is broken down in to two sections so that proposals that may require consultation can be reviewed separately to those that do not.

In section three there is a summary table that aligns our autumn 2021 consultation themes with proposals.

Section 1: Proposals that may be subject to consultation

These proposals are ideas based upon several themes that we consulted citizens about in autumn 2021. Many of these will need more work to shape the proposals and confirm if they can go ahead. At this early stage we think it is likely that they will require further public consultation and assessment before final decisions can be made. This may change however as proposals are developed in more detail and we will keep this under review.

Section 2: Proposals where no consultation is required

We don't believe that the proposals in this section will require further public consultation. The reasons for this will vary by proposal, but it will typically be because there is little or no noticeable frontline impact on the services people receive. This may change however as proposals are developed in more detail and we will keep this under review.

Policy, Strategy and Partnerships	Mayor	Redesign, reduce or stop services	Reduce work on international twinning	Reduce our international twinning work and limit coordination with volunteer citizens across the city involved in twinning. Policy, Strategy and Partnerships	Mayor	Redesign, reduce or stop services	Reduce investment in Bristol Brussels Office and seek contributions from national partners	Significantly reduce the council's investment in a dedicated Bristol-Brussels Office, which currently helps support the council's policy development and its relationships with key European networks, partners, and potential funders. Instead, work with the UK's major cities as part of the Core Cities network to share this function and focus it on areas which are of mutual interest to cities. This would reduce the council's investment from £30,000 to £3,000 each year. If other cities do not wish to take part, we would be required to close the office.	-27					-27

All services		Redesign, reduce or stop services	Management and capacity review	Reduce workforce costs and ensure we prioritise our organisational capacity on Corporate Strategy goals. Measures include: a review of the senior leadership structure; offering a succession planning scheme for managers to apply to leave the council; a review of some council teams; and deleting budgeted vacancies, to ensure we retain capacity in priority areas and reduce the impact on employees. These measures will reduce our overall capacity and mean we will focus on our core priorities. Where any jobs are subject to change appropriate staff consultation will take place, and where any roles are at risk, we will make use of our redeployment scheme, which matches employees to other opportunities in the council.	-2,000	-3,500				-5,500
