

# Equality Impact Assessment [version 2.9]

Title: Addressable Spend/Third Party Savings	
<input checked="" type="checkbox"/> Budget Proposal	<input checked="" type="checkbox"/> Changing
Directorate: Resources	Lead Officer name: Lee Hannan
Service Area: Strategic Procurement & Supplier Relations	Lead Officer role: Strategic Supplier Relations Manager/Interim Co-Head of Service

## Step 1: What do we want to do?

The purpose of an Equality Impact Assessment is to assist decision makers in understanding the impact of proposals as part of their duties under the Equality Act 2010. Detailed guidance to support completion can be found here [Equality Impact Assessments \(EqIA\) \(sharepoint.com\)](#).

This assessment should be started at the beginning of the process by someone with a good knowledge of the proposal and service area, and sufficient influence over the proposal. It is good practice to take a team approach to completing the equality impact assessment. Please contact the [Equality and Inclusion Team](#) early for advice and feedback.

### 1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Describe who it is aimed at and the intended aims / outcomes. Where known also summarise the key actions you plan to undertake. Please use [plain English](#), avoiding jargon and acronyms. Equality Impact Assessments are viewed by a wide range of people including decision-makers and the wider public.

#### **Budget context:**

Bristol City Council is required by law to set a balanced budget however we face a potential gap in our core budget next year. With this challenge the budget cannot be balanced without additional funding, making greater efficiencies (doing the same for less money) or by transforming the way we do things.

The Council has defined statutory responsibilities, but deliver against a far broader agenda, providing universal services benefiting the whole community, and targeted services aimed at individuals, communities with particular needs, and businesses – administered by our workforce, city partners, stakeholder organisations and commissioned services.

The COVID-19 pandemic has been far reaching, with a lasting impact on our people and our economy. Our finances are stretched to the limit, and the UK Government has stopped funding local COVID-19 responses. Up and down the country councils are facing this funding crisis with less money to keep services going. This is because more money is needed to: help citizens with the impact of the COVID-19 pandemic; support low-income households and local businesses in need of support post-COVID-19; support more people than ever with mental health and social care services; and meet the rising need and cost of home to school transport for children with special educational needs and disabilities (SEND) etc. At the same time, the pandemic saw us receive less income from business rates, commercial rentals, parking, sports facilities, and our museums, shops and cafes.

The [Medium Term Financial Plan](#) underpins the Council's financial planning process and outlines the approach we will take to meet the challenges presented by focusing primarily on delivering efficiencies, service re-design programmes which cut across directorate boundaries, and increasing external income and Invest to Save revenue.

#### **This Proposal**

The Addressable Spend/Third Party Savings project seeks to create maximum benefit for public money through our addressable third party spend by...

- Deliver in year savings through procurement intervention, commercial negotiations & prevention actions
- Identify recommendations for improvements to feed into wider transformation change programmes e.g. Adult Social Care
- Developing a centralised contract monitoring model and category spend analysis which will be maintained to facilitate continuous improvement

The savings project will look to review all spend with outside organisations, where the review of savings/efficiency opportunities will be assigned to a workstream lead. Progress on discovery and realisation of any savings will be subject to scrutiny and approval from the Third Party Savings Programme Board, who meet monthly and chaired by the Section 151 officer. Any decisions made at programme Board in relation to savings, which result to changes to the way we work, how contracts are delivered, the scope of contracts, contracted services and potential outcomes of negotiation opportunities, will in turn be subject to the appropriate decision making pathway or delegated level of authority, which will be accompanied by an independent EQIA specific to that workstream.

As an example, Third Party Spend Programme Board could seek to review services delivered as part of a service contract, where savings could be achieved by reducing the service scope or standard. As part of the review, an EQIA specific to this service would be completed to ensure that the changes as a result of the reduced service standard are understood and the impact on equalities and inclusion are appropriately considered/controlled/mitigated.

Therefore, this EQIA should be considered an umbrella assessment for the principals of the Addressable Spend/Third Party Savings project, which will be accompanied by supporting EQIAs specific to any proposed changes.

## 1.2 Who will the proposal have the potential to affect?

<input checked="" type="checkbox"/> Bristol City Council workforce	<input checked="" type="checkbox"/> Service users	<input checked="" type="checkbox"/> The wider community
<input checked="" type="checkbox"/> Commissioned services	<input checked="" type="checkbox"/> City partners / Stakeholder organisations	

Additional comments:

Where the impact would be subject to a detailed and more specific EQIA as part of the review of each workstream.

## 1.3 Will the proposal have an equality impact?

Could the proposal affect access levels of representation or participation in a service, or does it have the potential to change e.g. quality of life: health, education, or standard of living etc.?

If 'No' explain why you are sure there will be no equality impact, then skip steps 2-4 and request review by Equality and Inclusion Team.

If 'Yes' complete the rest of this assessment, or if you plan to complete the assessment at a later stage please state this clearly here and request review by the Equality and Inclusion Team.

**Yes**       **No**      [please select]

## Step 2: What information do we have?

### 2.1 What data or evidence is there which tells us who is, or could be affected?

Please use this section to demonstrate an understanding of who could be affected by the proposal. Include general population data where appropriate, and information about people who will be affected with particular reference to protected and other relevant characteristics: <https://www.bristol.gov.uk/people-communities/measuring-equalities-success>.

Use one row for each evidence source and say which characteristic(s) it relates to. You can include a mix of qualitative and quantitative data e.g. from national or local research, available data or previous consultations and engagement activities.

Outline whether there is any over or under representation of equality groups within relevant services - don't forget to benchmark to the local population where appropriate. Links to available data and reports are here [Data, statistics and intelligence \(sharepoint.com\)](#). See also: [Bristol Open Data \(Quality of Life, Census etc.\)](#); [Joint Strategic Needs Assessment \(JSNA\)](#); [Ward Statistical Profiles](#).

For workforce / management of change proposals you will need to look at the diversity of the affected teams using available evidence such as [HR Analytics: Power BI Reports \(sharepoint.com\)](#) which shows the diversity profile of council teams and service areas. Identify any over or under-representation compared with Bristol economically active citizens for different characteristics. Additional sources of useful workforce evidence include the [Employee Staff Survey Report](#) and [Stress Risk Assessment Form](#)

Data / Evidence Source [Include a reference where known]	Summary of what this tells us
<a href="#">Census 2011</a> and <a href="#">Census 2021</a>  <a href="#">2011 Census Key Statistics About Equalities Communities</a>	The Census details the demographic profile of Bristol. The first results of the 2021 census will not be available until Spring 2022, so demographic data is still informed by 2011 census and other population related documents (listed below)
<a href="#">The population of Bristol</a>	Updated annually. The report brings together statistics on the current estimated population of Bristol, recent trends in population, future projections and looks at the key characteristics of the people living in Bristol.
<a href="#">New wards: data profiles</a>  <a href="#">Ward Profiles - Power BI tool</a>	The Ward Profiles provide a range of data-sets, including Population, Life Expectancy, health and education disparities etc. for each of Bristol's electoral wards.
<a href="#">Bristol Quality of Life survey 2020/21 final report</a>  <a href="#">Quality of Life 2020-21 — Open Data Bristol</a>	The Quality of Life (QoL) survey is an annual randomised sample survey of the Bristol population, mailed to 33,000 households (with online & paper options), and some additional targeting to boost numbers from low responding groups. In brief, the 2020 QoL survey indicated that inequality and deprivation continue to affect people's experience in almost every element measured by the survey.  The Open Data 'Equalities View' tool shows at a glance the disparities for each Quality of Life indicator based on people's characteristics and circumstances including protected characteristics, caring responsibility, tenancy, education level, and deprivation.

<p><u>Citizens' Assembly</u></p>	<p>The citizens' assembly is composed of 60 randomly selected participants. The group reflects as far as possible the diversity of the population in terms of age, sex, ethnicity, disability, employment status, and geographical location. Bristol Citizens' Assembly was part of a process created by the city of Bristol to gather public input to inform its COVID-19 recovery plan.</p>
<p><u>Joint Strategic Needs Assessment (JSNA)</u></p>	<p>The Joint Strategic Needs Assessment reports on the health and wellbeing needs of the people of Bristol. It brings together detailed information on local health and wellbeing needs and looks ahead at emerging challenges and projected future needs. The JSNA is used to provide a comprehensive picture of the health and wellbeing needs of Bristol (now and in the future); inform decisions about how we design, commission and deliver services, and also about how the urban environment is planned and managed; improve and protect health and wellbeing outcomes across the city while reducing health inequalities; and provide partner organisations with information on the changing health and wellbeing needs of Bristol, at a local level, to support better service delivery.</p>
<p><u>Final report on progress to address COVID-19 health inequalities - GOV.UK (www.gov.uk) December 2021</u></p>	<p>Multiple sources of data and evidence have highlighted the disproportionate impact of COVID-19 on equalities communities, and the impact of measures taken to address this. This final report highlights the government response to the original recommendations and the long lasting 'take homes'. This highlights the importance of not treating ethnic minorities like a homogenous group and nurturing existing local partnerships and networks for public health programmes. It also gives recommendations around communications, developing and providing materials in multiple languages and working with community partnerships to improve understanding and co-create content for key audiences.</p>
<p><u>HR Analytics: Power BI reports (sharepoint.com)</u> [internal link only]</p> <p><u>Equality and Inclusion Annual Progress Report 2020-21 (pdf, 982KB) Appendix – Workforce Diversity Data – summary analysis</u></p>	<p>The Workforce Diversity Report shows Bristol City Council Workforce Diversity statistics for Headcount, Sickness, Starters and Leavers data. The report is updated once a month with data as at the end of the previous month. It excludes data for Locally Managed Schools/Nurseries, Councillors, Casual, Seasonal and External Agency employees. The report is based on the sensitive information that staff add to Employee Self Service on iTrent (ESS).</p>
<p><u>Designing a new social reality - Research on the impact of covid-19 on Bristol's VCSE sector and what the future should be – Black South West Network 2020</u></p>	<p>Local research has highlighted how long-term underinvestment and lack of equity in funding and procurement has eroded the local Voluntary and community sector – in particular for Black and minority ethnic led organisations. 30% of the organisations surveyed stated to operate on an annual budget below £5,000, and an additional 18% operated on below £25,000. 42% of the organisations sampled had no paid staff at all and fully relied on volunteers to deliver their activities and services.</p>

Additional comments:

## 2.2 Do you currently monitor relevant activity by the following protected characteristics?

- |  |   |   |
|--|---|---|
| <input checked="" type="checkbox"/> Age                            | <input checked="" type="checkbox"/> Disability          | <input checked="" type="checkbox"/> Gender Reassignment |
| <input checked="" type="checkbox"/> Marriage and Civil Partnership | <input checked="" type="checkbox"/> Pregnancy/Maternity | <input checked="" type="checkbox"/> Race                |
| <input checked="" type="checkbox"/> Religion or Belief             | <input checked="" type="checkbox"/> Sex                 | <input checked="" type="checkbox"/> Sexual Orientation  |

## 2.3 Are there any gaps in the evidence base?

Where there are gaps in the evidence, or you don't have enough information about some equality groups, include an equality action to find out in section 4.2 below. This doesn't mean that you can't complete the assessment without the information, but you need to follow up the action and if necessary, review the assessment later. If you are unable to fill in the gaps, then state this clearly with a justification.

For workforce related proposals all relevant characteristics may not be included in HR diversity reporting (e.g. pregnancy/maternity). For smaller teams diversity data may be redacted. A high proportion of not known/not disclosed may require an action to address under-reporting.

Although our corporate approach is to collect diversity monitoring for all relevant characteristics, there are gaps in the available local diversity data for some characteristics, especially where this has not always historically been included in census and statutory reporting e.g. for sexual orientation. We also know there are some under-reporting gaps in our workforce diversity information - where personal and confidential information is voluntarily requested from staff.

## 2.4 How have you involved communities and groups that could be affected?

You will nearly always need to involve and consult with internal and external stakeholders during your assessment. The extent of the engagement will depend on the nature of the proposal or change. This should usually include individuals and groups representing different relevant protected characteristics. Please include details of any completed engagement and consultation and how representative this had been of Bristol's diverse communities. See <https://www.bristol.gov.uk/people-communities/equalities-groups>.

Include the main findings of any engagement and consultation in Section 2.1 above.

If you are managing a workforce change process or restructure please refer to [Managing change or restructure \(sharepoint.com\)](#) for advice on consulting with employees etc. Relevant stakeholders for engagement about workforce changes may include e.g. staff-led groups and trades unions as well as affected staff.

We held a public Budget Consultation from Friday 5 November 2021 until Friday 17 December 2021. Alongside asking for views on different options for Council Tax next year, we shared some of the broad areas where we were looking at to reduce council spend to seek citizen's view. We made it clear in our communications that "We know we may need to consult with you about some of our more detailed saving proposals before we make any final decisions about them in future, and they may include difficult choices."

## 2.5 How will engagement with stakeholders continue?

Explain how you will continue to engage with stakeholders throughout the course of planning and delivery. Please describe where more engagement and consultation is required and set out how you intend to undertake it. Include any targeted work to seek the views of under-represented groups. If you do not intend to undertake it, please set out your justification. You can ask the Equality and Inclusion Team for help in targeting particular groups.

All responses to the Budget Consultation will be analysed and included in a report that will be published on the Bristol City Council website in early 2022. We will take Budget consultation responses into account when developing our final proposals to put to the Cabinet and a meeting of the Full Council for approval. The final decision will be taken by Full Council at its budget setting meeting in February 2022.

### Step 3: Who might the proposal impact?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered above, and the characteristics protected by the Equality Act 2010. Also include details of existing issues for particular groups that you are aware of and are seeking to address or mitigate through this proposal. See detailed guidance documents for advice on identifying potential impacts etc. [Equality Impact Assessments \(EqIA\) \(sharepoint.com\)](#)

#### 3.1 Does the proposal have any potentially adverse impacts on people based on their protected or other relevant characteristics?

Consider sub-categories (different kinds of disability, ethnic background etc.) and how people with combined characteristics (e.g. young women) might have particular needs or experience particular kinds of disadvantage.

Where mitigations indicate a follow-on action, include this in the 'Action Plan' Section 4.2 below.

#### **GENERAL COMMENTS** (highlight any potential issues that might impact all or many groups)

Whilst we have not identified any significant negative impacts for protected characteristic groups from the savings proposal at this stage we are aware there is evidence showing that lack of equity in funding and procurement has eroded the local voluntary and community sector, we need to consider the extent to which any proposed reductions in third party spend for commissioned services, or approaches which aim to 'clawback' savings through increased efficiencies from suppliers, may have a disproportionate impact on smaller organisations which are led by and/or support local equalities communities, or in terms of the range and diversity of providers we commission who can offer flexible, accessible and inclusive services.

The main mitigations for any potential future risks arising from our approach are:

- Ongoing consideration of emerging equality issues is fundamental to the approach taken by the Third Party Savings Programme Board chaired by the Section 151 officer, with Equality as key element of the assessment gateway process, alongside Social Value etc.
- Each individual procurement and supplier relations related proposal is/will be subject to its own separate Equalities Impact Assessment Process as appropriate.
- The Council has a well-established corporate approach to assessing suppliers' understanding and commitment to equality and inclusion, including an assessment of how a providers will operate in accordance with the Equality Act 2010 and the s.149 Public Sector Equality Duty; be an equality opportunities employer; and where appropriate tailor and review services to meet the needs of people with different protected characteristics

Even when we plan to consult in more detail on specific service delivery proposals at a later time, we must ensure that any budget setting decisions that are likely to affect future services are informed by sufficient consultation and proper analysis. This is so that decision makers can have due regard to any likely disproportionate or negative impact for citizens, service users or employees on the basis of their protected and other relevant characteristics at the time the budget is approved – not afterwards<sup>1</sup>.

Decision makers will have the ability to make changes to the individual spending plans following further consultation as appropriate and detailed evaluation of the impact of specific proposals. Within the proposed budget envelope there will be financial mitigation put aside for any non-delivery or amendments to proposals which may occur due to future consideration of equalities issues or other factors.

As well as identifying whether budget changes will have a disproportionate impact on particular groups (e.g. because they are over-represented in a particular cohort of affected service users), we need to pay particular attention to the risk of indirect discrimination: when an apparently neutral decision puts members of a given group at a particular disadvantage compared with other people because of their different needs and circumstances.

<sup>1</sup> [Bristol judgment clarifies Councils' Budget consultation duties — The Consultation Institute](#)

Because the underlying reasons for the Council's budget deficit are very far reaching and likely to impact other public bodies and providers - we need to avoid making any assumptions that people's needs will still be met by other / external provision if we reduce or decommission our existing services.

Where budget proposals are likely to impact on our workforce we will follow the 'Management of Change' guidance for internal consultation and seek advice from diversity consultants in the Equality and Inclusion Team to mitigate risks of discrimination. For proposals which are likely to impact external workforce teams e.g. in commissioned services, we will consider any likely disproportionate impacts of TUPE transfer arrangements etc.

Where proposals relate to changing work locations or conditions we will also consider the impact on those who may be more reliant on car parking or public transport; provide and support access to funding for workplace adaptations and aids to enable disabled employees to obtain and retain their employment; and promote flexible working patterns wherever possible to maximise opportunities for people with caring responsibilities and those from faith groups etc.

### PROTECTED CHARACTERISTICS

Where responses are based on the principals of the Addressable Spend/Third Party Savings Project, and not specific workstreams within the potential scope of the project.

<b>Age: Young People</b>	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

### 3.2 Does the proposal create any benefits for people based on their protected or other relevant characteristics?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our Public Sector Equality Duty to:

- ✓ Eliminate unlawful discrimination for a protected group
- ✓ Advance equality of opportunity between people who share a protected characteristic and those who don't
- ✓ Foster good relations between people who share a protected characteristic and those who don't

None identified

## Step 4: Impact

### 4.1 How has the equality impact assessment informed or changed the proposal?

What are the main conclusions of this assessment? Use this section to provide an overview of your findings. This summary can be included in decision pathway reports etc.

If you have identified any significant negative impacts which cannot be mitigated, provide a justification showing how the proposal is proportionate, necessary, and appropriate despite this.

#### Summary of significant negative impacts and how they can be mitigated or justified:

No significant negative impact identified at this stage – specific commissioning, procurement and supplier relations proposals will be subject to separate equality impact assessment.

#### Summary of positive impacts / opportunities to promote the Public Sector Equality Duty:

None identified

### 4.2 Action Plan

Use this section to set out any actions you have identified to improve data, mitigate issues, or maximise opportunities etc. If an action is to meet the needs of a particular protected group please specify this.

Improvement / action required	Responsible Officer	Timescale
N/A		

### 4.3 How will the impact of your proposal and actions be measured?

How will you know if you have been successful? Once the activity has been implemented this equality impact assessment should be periodically reviewed to make sure your changes have been effective your approach is still appropriate.

N/A

## Step 5: Review

The Equality and Inclusion Team need at least five working days to comment and feedback on your EqIA. EqIAs should only be marked as reviewed when they provide sufficient information for decision-makers on the equalities impact of the proposal. Please seek feedback and review from the [Equality and Inclusion Team](#) before requesting sign off from your Director<sup>2</sup>.

<b>Equality and Inclusion Team Review:</b> <i>Reviewed by Equality and Inclusion Team</i>	<b>Director Sign-Off:</b> <b>Denise Murray: Director of Finance (S151 Officer)</b>
Date: 5/1/2022	Date: 06/01/2022

---

<sup>2</sup> Review by the Equality and Inclusion Team confirms there is sufficient analysis for decision makers to consider the likely equality impacts at this stage. This is not an endorsement or approval of the proposal.
