<b>Purpose of Report:</b> <ol style="list-style-type: none"><li>1. The report provides an update on the current Growth and Regeneration significant strategic risks to achieving the Council's objectives as set in the Corporate Strategy 2018-2023 and summarises progress in managing the risks and actions being taken as at Quarter 22 2021-22.</li></ol>			
<b>Evidence Base:</b> <b>Context</b> <ol style="list-style-type: none"><li>1. The Corporate Risk Report (CRR) is a key document in the council's approach to the management of risk; it captures strategic risks set out in the Corporate Strategy 2018-2023. It also provides a context through which Directorates construct their own high-level risk assessments and is used to inform decision making about business planning, budget setting, transformation and service delivery.</li><li>2. The CRR provides assurance to management and Members that Bristol City Council's significant risks have been identified and arrangements are in place to manage those risks within the tolerance levels agreed. It should be noted that 'risk' by definition includes both threats and opportunities, which is reflected in the CRR.</li><li>3. The Accounts and Audit Regulations 2015 require the council to have in place effective arrangements for the management of risk. These arrangements are reviewed each year and reported as part of the Annual Governance Statement (AGS). Ensuring that the Service Risk Registers (SRR), Directorate Risk Reports (DRR) and the Corporate Risk Reports (CRR) are soundly based will help the council to ensure it is anticipating and managing key risks to optimise the achievement of the council's objectives and prioritise actions for managing those risks.</li><li>4. Ensuring that the Service Risk Registers (SRR), Directorate Risk Reports (DRR) and the Corporate Risk Reports (CRR) are soundly based will help the council to ensure it is anticipating and managing key risks to optimise the achievement of the council's objectives and prioritise actions for managing those risks.</li><li>5. The registers and reports are a management tool. They need regular review to ensure that the occurrence of obstacles or events that may put individual's safety at harm, impact upon service delivery and the council's reputation are minimised, opportunities are maximised and when risks happen, they are managed and communicated to minimise the impact.</li><li>6. The CRR summary of risks is attached to this report at Appendix A is the latest position following a review by managers and Directors.</li></ol>

**Required information to be completed by Financial/Legal/ICT/ HR partners:**

**1. Finance Advice:** The CRR is a live document refreshed regularly following consultation across the organisation, and aims to provide assurance that the council’s main risks have been identified and appropriate mitigations are in place to ensure they are managed within agreed tolerances. This includes, as set out in the annual budget report, measures to ensure appropriate financial provision is made through the budget planning process and reserves. The Council should ensure it has sufficient resource available to implement actions required to bring risks down to a tolerable level.

**Finance Business Partner:** Michael Pilcher, Chief Accountant 02/12/2021

**2. Legal Advice:** The Corporate Risk Register enables the Council to monitor and manage identified risks and mitigations to ensure good governance and compliance with its statutory and other duties. Advice will be given separately in relation to any specific legal issues that may arise from the risks identified.

**Legal Team Leader:** Nancy Rollason, Head of Legal Service and Deputy Monitoring Officer 02/12/2021

**3. Implications on IT:** The Digital Transformation Team remain committed to undertaking the mitigation activities pertaining to the service risks. We are instigating additional dialogue around the Corporate approach to ‘roll-up’ risks such as Suitability of LOB systems, Cyber Security, and IT Resilience whereby ownership and mitigation activity should be led by the responsible service areas and reported individually. We are working with Risk colleagues to improve the alignment of different risk registers and approaches and gain a single view of risk within the new risk management software tool.

**IT Team Leader:** Simon Oliver, Digital Transformation Director 02/12/2021

**4. HR Advice:** It is essential that staffing resources are appropriately deployed to manage risks and bring them to a tolerable level and in particular the critical risks that are identified in the report. There are no other HR implications arising from the CRR report.
