## Expression of Interest notification

**Dear Rebecca Peters**

**Programme:** Museum Estate and Development Fund  
**Applicant name:** Bristol Museums  
**Reference:** MEND-00454715  
**Name of activity:** Bristol Museum & Art Gallery MEND Project

**Thank you for submitting your Expression of Interest for Museum Estate and Development Fund.**

**We have now reviewed your Expression of Interest against our strategic aims and objectives for this programme, and we recommend that you proceed to make a full application.**

**To access the application form, you need to confirm that you have read this notification below, and press 'Submit' on the next screen (Submission summary).**

**Please note that the full application deadline is Monday, 18 October 2021 at 12:00:00.**

**Please read the Guidance for Applicants carefully before submitting your application. This is available to download on our website.**

**Please also note that you will be required to attach mandatory documents to your application, as detailed on pages 32-35 of the Guidance for Applicants. This includes a recent costed condition survey. By 'recent', we mean no older than four or five years. If the document is from prior to that then it is likely that the costs would be out of date and the condition survey would no longer accurately represent the condition of the building.**

**You will be contacted by Historic England to arrange a site visit between 2 August and 24 September 2021. They will ask you to provide your condition survey ahead of the site visit.**

**You will then receive written advice from Historic England, which you should use to inform your application. Historic England will also provide comments to Arts Council England during our assessment of your application, which will include whether their feedback has been incorporated into your application and plans.**

**If you require further assistance please contact us at [enquiries@artscouncil.org.uk](mailto:enquiries@artscouncil.org.uk).**

**I have read the Expression of Interest notification:** Yes
