Equality Impact Assessment [version 2.9]

Title: 2022/23 Corporate Business Plan and Performance Framework		
☐ Policy ☐ Strategy ☐ Function ☐ Service	⊠ New	
☐ Other [please state]	☐ Already exists / review ☐ Changing	
Directorate: Resources	Lead Officer name: Tim Borrett	
Service Area: Policy, Strategy and Partnerships	Lead Officer role: Director, Policy, Strategy	
	and Partnerships	

Step 1: What do we want to do?

The purpose of an Equality Impact Assessment is to assist decision makers in understanding the impact of proposals as part of their duties under the Equality Act 2010. Detailed guidance to support completion can be found here Equality Impact Assessments (EqIA) (sharepoint.com).

This assessment should be started at the beginning of the process by someone with a good knowledge of the proposal and service area, and sufficient influence over the proposal. It is good practice to take a team approach to completing the equality impact assessment. Please contact the <u>Equality and Inclusion Team</u> early for advice and feedback.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Describe who it is aimed at and the intended aims / outcomes. Where known also summarise the key actions you plan to undertake. Please use <u>plain English</u>, avoiding jargon and acronyms. Equality Impact Assessments are viewed by a wide range of people including decision-makers and the wider public.

The aim of the Business Plan is to show what actions Bristol City Council will take in 2022-23 to meet the commitments that have been made in the <u>Corporate Strategy 2022-2027</u>. For each of the seven key themes in the Corporate Strategy, the Business Plan summarises high level actions and success measures that will make sure we spend our money, time and resources as effectively as possible. The Performance Framework is a more detailed set of measures used to measure, gauge, report upon, support and challenge performance from an operational managerial level up to the highest strategic levels of the council.

The seven themes within the Business Plan/Corporate Strategy are: Children and Young People, Economy and Skills, Environment and Sustainability, Health and Wellbeing, Homes and Communities, Transport and An Effective Development Organisation.

These actions and activities are drawn from the detailed contents of Service Plans created by every service. Service Plans also incorporate their Equality Action Plans (EAP) into their planning and the final Business Plan includes specific actions informed by these EAPs. The Performance Framework is a more detailed set of measures used to measure, gauge, report upon, support and challenge performance from an operational managerial level up to the highest strategic levels of the council.

1.2 Who will the proposal have the potential to affect?

☐ Bristol City Council workforce	⊠ Service users	□ The wider community
		keholder organisations
Additional comments:		

1.3 Will the proposal have an equality impact?

Could the proposal affect access levels of representation or participation in a service, or does it have the potential to change e.g. quality of life: health, education, or standard of living etc.?

If 'No' explain why you are sure there will be no equality impact, then skip steps 2-4 and request review by Equality and Inclusion Team.

If 'Yes' complete the rest of this assessment, or if you plan to complete the assessment at a later stage please state this clearly here and request review by the Equality and Inclusion Team.

⊠ Yes	□ No	[please select]

Step 2: What information do we have?

2.1 What data or evidence is there which tells us who is, or could be affected?

Please use this section to demonstrate an understanding of who could be affected by the proposal. Include general population data where appropriate, and information about people who will be affected with particular reference to protected and other relevant characteristics: https://www.bristol.gov.uk/people-communities/measuring-equalities-success.

Use one row for each evidence source and say which characteristic(s) it relates to. You can include a mix of qualitative and quantitative data e.g. from national or local research, available data or previous consultations and engagement activities.

Outline whether there is any over or under representation of equality groups within relevant services - don't forget to benchmark to the local population where appropriate. Links to available data and reports are here <u>Data, statistics</u> and intelligence (sharepoint.com). See also: <u>Bristol Open Data (Quality of Life, Census etc.)</u>; <u>Joint Strategic Needs Assessment (JSNA)</u>; <u>Ward Statistical Profiles.</u>

For workforce / management of change proposals you will need to look at the diversity of the affected teams using available evidence such as <u>HR Analytics: Power BI Reports (sharepoint.com)</u> which shows the diversity profile of council teams and service areas. Identify any over or under-representation compared with Bristol economically active citizens for different characteristics. Additional sources of useful workforce evidence include the <u>Employee Staff Survey Report</u> and <u>Stress Risk Assessment Form</u>

Data / Evidence Source	Summary of what this tells us				
[Include a reference where known]					
Corporate Strategy	The Corporate	e Strategy 202	2-27 sets out	the Council's o	corporate and city vision and
2022-27	outlines its to	p-level prioriti	ies and strateខ្	gic themes. Th	e vision outlined in the
	Corporate Str	ategy is equal	ity focussed a	nd the seven s	trategic themes make
	numerous ref	numerous references to delivering positive change for equalities groups.			
Census 2011 and	As the Business Plan is a citywide document, the statistics used mostly relate to Bristol				
<u>Census 2021</u>	as a whole. The Census details the demographic profile of Bristol. The first results of				
	the 2021 census will not be available until Spring 2022, so demographic data is still				
	informed by 2011 census and other population related documents (listed below).				
Census 2011: Key	Age	Number	%	England +	
Statistics About				Wales %	
Equalities Communities	0-17 years	87,503	20.4	21.3

The Population of	Updated annu	ually. The rep	ort brings toge	ether statistics	on the current estimated
<u>Bristol</u>	population of	Bristol, recer	it trends in po	pulation, futur	e projections and looks at the
	key character	istics of the p	eople living in	Bristol.	
Wards: Data Profiles	The Ward Pro	files provide	a range of dat	a-sets, includir	ng Population, Life Expectancy,
	Premature M	ortality and E	ducation for e	ach of Bristol's	34 electoral wards.
Indices of Deprivation	The Indices of Deprivation measure relative levels of deprivation in 32,844 small areas				
(2019)	or neighbourhoods across England, called Lower Layer Super Output Areas (LSOAs).				
1====7	LSOA's are a smaller geographical area than an electoral ward; there may be 8-10				
	LSOAs in an electoral ward. The indices of deprivation indicate the parts of the city				
	· · · · · · · · · · · · · · · · · · ·				
	where poverty and disadvantage are most acute. In brief, Bristol has 41 LSOAs in the most deprived 10% in England for Multiple Deprivation (one less than in 2015),				
		_	•	•	-
	_		•		3 less than in 2015).
	The 10 most deprived neighbourhoods in Bristol in 2019 are all in the South Bristol				
	areas of Hartcliffe, Whitchurch Park and Knowle West. At ward level, the greatest				
	levels of deprivation in Bristol are in the wards of Hartcliffe & Withywood, Lawrence				
	Hill and Filwood, the same as identified in 2015				
Joint Strategic Needs	Brings together detailed information on health and wellbeing needs within Bristol and				
Assessment (data	looks ahead at emerging challenges and projected future needs. In brief, inequalities				
profiles)	in health outcomes are clearly linked to socio-economic deprivation and the parts of				
			-		lso the most socio-
	economically	_			
Quality of Life Survey				ual randomise	d sample survey of the Bristol
	The Quality of Life (QoL) survey is an annual randomised sample survey of the Bristol population, mailed to 33,000 households (with online & paper options), and some				
	additional targeting to boost numbers from low responding groups. In brief, the 2021/22 QoL survey indicated that inequality and deprivation continue to affect				
	*	•	•		
0::: /	<u> </u>		•		by the survey.
Citizens' Assembly	The Citizens' Assembly was composed of 60 randomly selected participants. The				
	group reflected the diversity of the population in terms of age, sex, ethnicity,				
	disability, employment status, and geographical location. Bristol Citizens' Assembly				
	was part of a process created by the city of Bristol to gather public input to inform its				
	COVID-19 rec	overy plan.

the Council Heads of Service may have used a variety of other data or evidence sources to inform their key					

Additional comments: Individual actions within the Business Plan have been derived from Service Plans across the Council. Heads of Service may have used a variety of other data or evidence sources to inform their key actions.

2.2 Do you currently monitor relevant activity by the following protected characteristics?

⊠ Age	□ Disability	□ Gender Reassignment
	□ Pregnancy/Maternity	⊠ Race
□ Religion or Belief	⊠ Sex	

2.3 Are there any gaps in the evidence base?

Where there are gaps in the evidence, or you don't have enough information about some equality groups, include an equality action to find out in section 4.2 below. This doesn't mean that you can't complete the assessment without the information, but you need to follow up the action and if necessary, review the assessment later. If you are unable to fill in the gaps, then state this clearly with a justification.

For workforce related proposals all relevant characteristics may not be included in HR diversity reporting (e.g. pregnancy/maternity). For smaller teams diversity data may be redacted. A high proportion of not known/not disclosed may require an action to address under-reporting.

Census data is currently collected every 10 years – and data from the most recent census in 2021 will not become available until late spring 2022. The ONS has also published mid-2020 population estimates. Gaps in data will exist as it becomes out of date or is limited through self-reporting.

Data on the overall number of disabled people is based on residents self-reporting limiting long-term illness or impairment. The 2011 census asks 'Are your day-to-day activities limited because of a health problem or disability which has lasted, or is expected to last, at least 12 months? Include problems related to old age?' As it is a self-reported figure, the actual number of disabled people in the city may be higher.

The 2021 Census asks similar health-related questions:

- How is your health in general?
- Do you have any physical or mental health conditions or illnesses lasting or expected to last 12 months or more?
- Do any of your conditions or illnesses reduce your ability to carry out day-to-day activities?
- Do you look after, or give any help or support to, anyone because they have long-term physical or mental health conditions or illnesses, or problems related to old age?

But issues of self-reporting still remain, and the Census data will not become available until 2022.

The number of LGB people in the city is based on the DTI Final Regulatory Impact Assessment: Civil Partnerships Act 2004 national percentage estimate (5-7%) applied to Bristol. As it is a national estimate applied to Bristol population figures, the actual numbers of LGB people in the city may be higher or lower.

The 2021 Census asks a number of questions relevant to LGBT statistics:

- Which of the following best describes your sexual orientation?
- Is the gender you identify with the same as your sex registered at birth?

These questions should give us a clearer picture of the number of LGBT in the city, but issues of self-reporting remain, and data will not be available until 2022.

2.4 How have you involved communities and groups that could be affected?

You will nearly always need to involve and consult with internal and external stakeholders during your assessment. The extent of the engagement will depend on the nature of the proposal or change. This should usually include individuals and groups representing different relevant protected characteristics. Please include details of any completed engagement and consultation and how representative this had been of Bristol's diverse communities. See https://www.bristol.gov.uk/people-communities/equalities-groups.

Include the main findings of any engagement and consultation in Section 2.1 above.

If you are managing a workforce change process or restructure please refer to <u>Managing change or restructure</u> (<u>sharepoint.com</u>) for advice on consulting with employees etc. Relevant stakeholders for engagement about workforce changes may include e.g. staff-led groups and trades unions as well as affected staff.

Whilst there has not been direct engagement or consultation about the production of the Business Plan and Performance Framework themselves, these documents detail delivery of the Corporate Strategy 2022-27 and how this is measured. This Corporate Strategy was subject to extensive internal development, including the Mayor, Cabinet, Corporate Leadership Board, Executive Director Meetings, Directors, Heads of Service, a cross-party Elected Members working group, Young Professionals Network, Youth Council, and embRACE staff network. Offers were also made to attend to the Disabled Colleagues Network and LGBT+ Group. The Corporate Strategy was also subject to a full public consultation and received input from many individuals, interest groups and experts and organisations including from Mayoral Women's Commission and the Chair of the Bristol Disability Equality Commission.

2.5 How will engagement with stakeholders continue?

Explain how you will continue to engage with stakeholders throughout the course of planning and delivery. Please describe where more engagement and consultation is required and set out how you intend to undertake it. Include any targeted work to seek the views of under-represented groups. If you do not intend to undertake it, please set out your justification. You can ask the Equality and Inclusion Team for help in targeting particular groups.

The Business Plan is a thematic summary of top-level actions and the most important measures of our success only. On this basis, Equality Impact Assessments will be carried out for specific actions and proposals on a case-by-case basis, including engagement and formal consultation where appropriate.

The actions summarised in the Business Plan touch on all aspects of council business and therefore bring all Bristol citizens in to scope, particularly vulnerable people who receive the most critical services. We will ensure that due regard is given to any potential impact of specific proposals on protected characteristics by conducting Equality Impact Assessments for specific actions and proposals as required. This process is designed to help maximise positive impacts and ensure we are thoughtful and intentional about designing inclusivity and equity in to our work. It also helps us identify potential negative impacts and how we can eliminate, minimise or mitigate these.

The final version of the Business Plan is subject to scrutiny via the Council's Overview and Scrutiny Management Board.

Step 3: Who might the proposal impact?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered above, and the characteristics protected by the Equality Act 2010. Also include details of existing issues for particular groups that you are aware of and are seeking to address or mitigate through this proposal. See detailed guidance documents for advice on identifying potential impacts etc. Equality Impact Assessments (EqIA) (sharepoint.com)

3.1 Does the proposal have any potentially adverse impacts on people based on their protected or other relevant characteristics?

Consider sub-categories (different kinds of disability, ethnic background etc.) and how people with combined characteristics (e.g. young women) might have particular needs or experience particular kinds of disadvantage.

Where mitigations indicate a follow-on action, include this in the 'Action Plan' Section 4.2 below.

GENERAL COMMENTS (highlight any potential issues that might impact all or many groups)

The Business Plan contains a number of high-level actions and corresponding measures of success but is not intended to give detailed delivery plans for service projects. These would be contained within the plans made by each service. That being said, our aim is to maximise equality and inclusion across all of the council's work, and to minimise direct and indirect adverse impacts on our communities through the successful delivery of the Business

Plan. In doing so, particular regard given to people's protected characteristics, and also to carers and people experiencing socio-economic deprivation.

Many of the actions address intersecting issues of inequality, inclusiveness, participation and resilience, such as protecting children from violence, abuse and other adverse childhood experiences, reducing educational inequality at all stages, tackling food insecurity, tackling health inequalities and the wider determinants of health, improving city accessibility, building more affordable housing (including social housing), increasing digital inclusion in more deprived parts of the city and developing skills and routes into employment that tackle structural inequalities.

In the specific proposals or services emerging from these actions, we will highlight and mitigate particular adverse impacts on protected characteristics, and these are set out in those proposals' own Equality Impact Assessments.

3.2 Does the proposal create any benefits for people based on their protected or other relevant characteristics?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our <u>Public Sector Equality Duty</u> to:

- ✓ Eliminate unlawful discrimination for a protected group
- ✓ Advance equality of opportunity between people who share a protected characteristic and those who don't
- √ Foster good relations between people who share a protected characteristic and those who don't

The Business Plan reflects five key principles, all of which are focussed on creating a fairer Bristol, where everyone can share in the city's success. Reducing inequality runs throughout the themes and key priorities for which the Business Plan is structured around. Its ambitions, therefore, are clearly aimed at creating positive outcomes and advancing opportunity for disadvantaged groups/communities and fostering good relations with people who do not share a protected characteristic.

Each of the seven themes within the Business Plan - as well as the priorities which sit underneath each theme - contain a range of Key Performance Indicators (KPIs) which are designed to help us measure our progress on delivering the city's key priorities. Directors will be required to report back on progress against these KPIs, either on a quarterly or annual basis.

The delivery of many of these KPIs will bring about very specific benefits for people with protected or relevant characteristics. Below is a list of some:

- Improve the percentage of 17–18-year-old care leavers in Employment, Education or Training
- Reduce the percentage of children living in low-income families
- Improve the employment rate in areas of deprivation
- Black, Asian and minority ethnic-led businesses supported
- Increase the percentage of adults with learning difficulties known to social care who are in paid employment
- Increase the number of people enabled to live independently through home adaptations
- Reduce the pay gap

Step 4: Impact

4.1 How has the equality impact assessment informed or changed the proposal?

What are the main conclusions of this assessment? Use this section to provide an overview of your findings. This summary can be included in decision pathway reports etc.

If you have identified any significant negative impacts which cannot be mitigated, provide a justification showing how the proposal is proportionate, necessary, and appropriate despite this.

Summary of significant negative impacts and how they can be mitigated or justified:

There are no negative impacts identified as arising from the proposals within the Business Plan.

Summary of positive impacts / opportunities to promote the Public Sector Equality Duty:

Tackling inequality has been a 'golden thread' running throughout the refreshed Corporate Strategy and Business Plan. As noted, many of the priorities seek to address issues of inequality and promoting inclusivity, such as protecting children from violence, abuse and other adverse childhood experiences, reducing educational inequality at all stages, tackling food insecurity, tackling health inequalities and the wider determinants of health,

targeting regeneration schemes in more deprived areas, building more affordable housing (including social housing), tackling homelessness, promoting safer and accessible neighbourhoods, making more people-centred services within communities, increasing the increasing digital inclusion in more deprived parts of the city, promoting safe and active travel and developing skills and routes into employment that tackle structural inequality.

4.2 Action Plan

Use this section to set out any actions you have identified to improve data, mitigate issues, or maximise opportunities etc. If an action is to meet the needs of a particular protected group please specify this.

Improvement / action required	Responsible Officer	Timescale
Update data sources following results of Census 2021	Guy Collings	Spring 2022

4.3 How will the impact of your proposal and actions be measured?

How will you know if you have been successful? Once the activity has been implemented this equality impact assessment should be periodically reviewed to make sure your changes have been effective your approach is still appropriate.

Each of the seven themes within the Business Plan will have Key Performance Indicators which will be measured on an annual basis (e.g. *Percentage of procurement spend with 'Small and Medium sized Enterprises' (SME's)*). Each priority under that theme will include a number of relevant Key Performance Indicators which will be measured on a quarterly basis (e.g. *Increase % of adults with learning difficulties known to social care who are in paid employment*). These measures will provide us with quantitative and qualitative measures of achievement, which will be used to identify whether specific initiatives or interventions are providing tangible benefits to disadvantaged groups/communities. This evidence-based approach will allow us to identify the approaches that will yield greatest benefit and to modify and/or stop initiatives that are proving less successful.

Step 5: Review

The Equality and Inclusion Team need at least five working days to comment and feedback on your EqIA. EqIAs should only be marked as reviewed when they provide sufficient information for decision-makers on the equalities impact of the proposal. Please seek feedback and review from the <u>Equality and Inclusion Team</u> before requesting sign off from your Director¹.

Equality and Inclusion Team Review:	Director Sign-Off:
