

Equality Impact Assessment [version 2.9]

Title: Supplemental Funding 23-25 (Drug and Alcohol Treatment Systems)	
<input type="checkbox"/> Policy <input type="checkbox"/> Strategy <input type="checkbox"/> Function <input checked="" type="checkbox"/> Service <input type="checkbox"/> Other [please state]	<input checked="" type="checkbox"/> New <input type="checkbox"/> Already exists / review <input type="checkbox"/> Changing
Directorate: People	Lead Officer name: Ashley Ward
Service Area: Public Health	Lead Officer role: Senior Public Health Specialist ADDER

Step 1: What do we want to do?

The purpose of an Equality Impact Assessment is to assist decision makers in understanding the impact of proposals as part of their duties under the Equality Act 2010. Detailed guidance to support completion can be found here [Equality Impact Assessments \(EqIA\) \(sharepoint.com\)](http://sharepoint.com).

This assessment should be started at the beginning of the process by someone with a good knowledge of the proposal and service area, and sufficient influence over the proposal. It is good practice to take a team approach to completing the equality impact assessment. Please contact the [Equality and Inclusion Team](#) early for advice and feedback.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Describe who it is aimed at and the intended aims / outcomes. Where known also summarise the key actions you plan to undertake. Please use plain English, avoiding jargon and acronyms. Equality Impact Assessments are viewed by a wide range of people including decision-makers and the wider public.

The purpose of the proposal contained in the paper titled "Supplemental Funding 23-25" is to seek approval to accept the new funding allocated to Bristol for the provision of drug and alcohol treatment services and rough sleeper drug and alcohol treatment and to establish a collaborative commissioning board to agree and take all necessary steps to spend the funding in line with local and national drugs and alcohol strategies.

1.2 Who will the proposal have the potential to affect?

<input type="checkbox"/> Bristol City Council workforce	<input checked="" type="checkbox"/> Service users	<input checked="" type="checkbox"/> The wider community
<input checked="" type="checkbox"/> Commissioned services	<input type="checkbox"/> City partners / Stakeholder organisations	
Additional comments:		

1.3 Will the proposal have an equality impact?

Could the proposal affect access levels of representation or participation in a service, or does it have the potential to change e.g. quality of life: health, education, or standard of living etc.?

If 'No' explain why you are sure there will be no equality impact, then skip steps 2-4 and request review by Equality and Inclusion Team.

If 'Yes' complete the rest of this assessment, or if you plan to complete the assessment at a later stage please state this clearly here and request review by the Equality and Inclusion Team.

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	[please select]
--	------------------------------------	-----------------

This EqIA accompanies the Cabinet Report for information titled "Supplemental Funding 23-25" which details the additional funding streams available for expansion of Bristol Drug and Alcohol Treatment systems. These services

are commissioned under the umbrella term “ROADS”; Recovery Orientated Drug and Alcohol Services. We are currently in the analysis phase of the ROADS commissioning cycle. A Substance Misuse needs assessment for Bristol is underway to support a further paper to Cabinet in Autumn 22 seeking authorisation for re-procurement. The aim of the needs assessment is to inform the business case for recommissioning services delivered from 2025. The needs assessment will illustrate the population profile of existing service users in context of the wider city population, as a process of investigating any protected characteristic groups who may appear to be underrepresented and any apparent barriers to accessing services that may be associated with these characteristics. The central question of the needs assessment is to establish accessibility of ROADS services to Equalities groups. The results will inform a full Equality Impact Assessment to accompany the recommissioning paper in Autumn 22. This will help identify service changes that may be necessary due to unmet need, changing trends in the profile of drug and alcohol treatment users and also changes in trends of substances, including new substances, where problematic use has developed.

Step 2: What information do we have?

2.1 What data or evidence is there which tells us who is, or could be affected?

Please use this section to demonstrate an understanding of who could be affected by the proposal. Include general population data where appropriate, and information about people who will be affected with particular reference to protected and other relevant characteristics: <https://www.bristol.gov.uk/people-communities/measuring-equalities-success>.

Use one row for each evidence source and say which characteristic(s) it relates to. You can include a mix of qualitative and quantitative data e.g. from national or local research, available data or previous consultations and engagement activities.

Outline whether there is any over or under representation of equality groups within relevant services - don't forget to benchmark to the local population where appropriate. Links to available data and reports are here [Data, statistics and intelligence \(sharepoint.com\)](#). See also: [Bristol Open Data \(Quality of Life, Census etc.\)](#); [Joint Strategic Needs Assessment \(JSNA\)](#); [Ward Statistical Profiles](#).

For workforce / management of change proposals you will need to look at the diversity of the affected teams using available evidence such as [HR Analytics: Power BI Reports \(sharepoint.com\)](#) which shows the diversity profile of council teams and service areas. Identify any over or under-representation compared with Bristol economically active citizens for different characteristics. Additional sources of useful workforce evidence include the [Employee Staff Survey Report](#) and [Stress Risk Assessment Form](#)

Data / Evidence Source [Include a reference where known]	Summary of what this tells us
Theseus is a treatment record system for ROADS service users.	We are working closely with the Senior Analyst using a range of questions to establish specific service user populations by protected characteristic and employment status. We are also looking at the modern trends which are beginning to illustrate an ageing opiate user cohort and a shift in demand towards services for problematic alcohol use.
Systematic reviews of evidence for drug and alcohol services have been undertaken by Public Health England in 2017 and 2018. We will search for papers published after that date that may be relevant to specific themes. The main body of evidence is the Dame Carol Black Review Part 2.	The Kings Fund commented on Part 2 of the Review “She makes a strong case for significant investment in a ‘health’-based approach (focused on treatment and recovery) as opposed to a ‘criminal justice’-based one (focused on conviction and imprisonment), in which extra money is accompanied by increased accountability and new arrangements for collaborative

commissioning in local areas using a budget ringfenced for drugs”.

Additional comments:

Regional and National data on prevalence of substance misuse will also be used as a comparator to help illustrate Bristol’s profile.

2.2 Do you currently monitor relevant activity by the following protected characteristics?

- | | | |
|--|---|--|
| <input checked="" type="checkbox"/> Age | <input checked="" type="checkbox"/> Disability | <input type="checkbox"/> Gender Reassignment |
| <input checked="" type="checkbox"/> Marriage and Civil Partnership | <input checked="" type="checkbox"/> Pregnancy/Maternity | <input checked="" type="checkbox"/> Race |
| <input checked="" type="checkbox"/> Religion or Belief | <input checked="" type="checkbox"/> Sex | <input checked="" type="checkbox"/> Sexual Orientation |

2.3 Are there any gaps in the evidence base?

Where there are gaps in the evidence, or you don’t have enough information about some equality groups, include an equality action to find out in section 4.2 below. This doesn’t mean that you can’t complete the assessment without the information, but you need to follow up the action and if necessary, review the assessment later. If you are unable to fill in the gaps, then state this clearly with a justification.

For workforce related proposals all relevant characteristics may not be included in HR diversity reporting (e.g. pregnancy/maternity). For smaller teams diversity data may be redacted. A high proportion of not known/not disclosed may require an action to address under-reporting.

We currently record “sex at birth” on referral data. Gender reassignment is not in use as a standalone category. The options in use are Male, Female, Not Known, Not Specified. The Theseus database is able to be configured to capture more options than this. It is not in place because we are governed by the requirements of the NDTMS (National Drug Treatment Monitoring System) who set out the rules for how and what we submit on a monthly basis, and they only allow the above options. It is possible that more detail is recorded in the individual service users case notes. We also include recording of when someone describes themselves as having a learning disability.

2.4 How have you involved communities and groups that could be affected?

You will nearly always need to involve and consult with internal and external stakeholders during your assessment. The extent of the engagement will depend on the nature of the proposal or change. This should usually include individuals and groups representing different relevant protected characteristics. Please include details of any completed engagement and consultation and how representative this had been of Bristol’s diverse communities. See <https://www.bristol.gov.uk/people-communities/equalities-groups>.

Include the main findings of any engagement and consultation in Section 2.1 above.

If you are managing a workforce change process or restructure please refer to [Managing change or restructure \(sharepoint.com\)](#) for advice on consulting with employees etc. Relevant stakeholders for engagement about workforce changes may include e.g. staff-led groups and trades unions as well as affected staff.

Ongoing work involved in the Substance Misuse Needs Assessment includes inviting service users to respond to an online survey with a small monetary award to incentivise participation. We are also inviting staff in treatment systems to respond to a survey.

2.5 How will engagement with stakeholders continue?

Explain how you will continue to engage with stakeholders throughout the course of planning and delivery. Please describe where more engagement and consultation is required and set out how you intend to undertake it. Include any targeted work to seek the views of under-represented groups. If you do not intend to undertake it, please set out your justification. You can ask the Equality and Inclusion Team for help in targeting particular groups.

A Substance Misuse Collaborative Commissioning Board is being established in July 22 to act as a stakeholder and steering group.

Step 3: Who might the proposal impact?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered above and the characteristics protected by the Equality Act 2010. Also include details of existing issues for particular groups that you are aware of and are seeking to address or mitigate through this proposal. See detailed guidance documents for advice on identifying potential impacts etc. [Equality Impact Assessments \(EqIA\) \(sharepoint.com\)](https://sharepoint.com)

3.1 Does the proposal have any potentially adverse impacts on people based on their protected or other relevant characteristics?

Consider sub-categories (different kinds of disability, ethnic background etc.) and how people with combined characteristics (e.g. young women) might have particular needs or experience particular kinds of disadvantage.

Where mitigations indicate a follow-on action, include this in the 'Action Plan' Section 4.2 below.

GENERAL COMMENTS (highlight any potential issues that might impact all or many groups)	
At this stage we have not identified any significant equality impact from the proposal. Please note, at this stage the only proposals in the Supplemental Funding paper are to accept the additional funding and follow the recommendations from the Dame Carol Black review. Recommissioning options and recommendations will be taken to Cabinet in Autumn 22. We will answer all the questions below on completion of the needs assessment in the EQiA that accompanies recommendations for recommissioning.	
PROTECTED CHARACTERISTICS	
Age: Young People	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Age: Older People	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Disability	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Sex	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Sexual orientation	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Pregnancy / Maternity	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Gender reassignment	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Race	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Religion or Belief	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
Marriage & civil partnership	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Potential impacts:	
Mitigations:	
OTHER RELEVANT CHARACTERISTICS	

Socio-Economic (deprivation)	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input type="checkbox"/>
Potential impacts:	
Mitigations:	
Carers	Does your analysis indicate a disproportionate impact? Yes <input type="checkbox"/> No <input type="checkbox"/>
Potential impacts:	
Mitigations:	
Other groups [Please add additional rows below to detail the impact for other relevant groups as appropriate e.g. Asylums and Refugees; Looked after Children / Care Leavers; Homelessness]	
Potential impacts:	
Mitigations:	

3.2 Does the proposal create any benefits for people based on their protected or other relevant characteristics?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our Public Sector Equality Duty to:

- ✓ Eliminate unlawful discrimination for a protected group
- ✓ Advance equality of opportunity between people who share a protected characteristic and those who don't
- ✓ Foster good relations between people who share a protected characteristic and those who don't

The ongoing needs assessment and study of ROADS population profile will help us understand where services may need to be reconfigured.

Step 4: Impact

4.1 How has the equality impact assessment informed or changed the proposal?

What are the main conclusions of this assessment? Use this section to provide an overview of your findings. This summary can be included in decision pathway reports etc.

If you have identified any significant negative impacts which cannot be mitigated, provide a justification showing how the proposal is proportionate, necessary, and appropriate despite this.

Summary of significant negative impacts and how they can be mitigated or justified:
The paper recommends we accept the supplemental funding available.
Summary of positive impacts / opportunities to promote the Public Sector Equality Duty:
The report states that "RSDATG funding was specifically aimed to support homeless drug users, while ADDER funding was intended to support people in criminal justice services who use drugs. The new funding is not tied to these cohorts and will allow us to spend on a much wider range of services and demographic groups." Acceptance will therefore enable treatments services to expand. The EqiA process will ensure services are responsive to local needs and actively monitor and address any underrepresentation of protected characteristic groups within ROADS.

4.2 Action Plan

Use this section to set out any actions you have identified to improve data, mitigate issues, or maximise opportunities etc. If an action is to meet the needs of a particular protected group please specify this.

Improvement / action required	Responsible Officer	Timescale
Any actions will accompany the recommissioning options paper and will be written after the Needs Assessment concludes.	Leonie Roberts / Ashley Ward	Autumn 22

4.3 How will the impact of your proposal and actions be measured?

How will you know if you have been successful? Once the activity has been implemented this equality impact assessment should be periodically reviewed to make sure your changes have been effective your approach is still appropriate.

We will incorporate review and evaluation measures when we are informed by an up to date needs assessment.

Step 5: Review

The Equality and Inclusion Team need at least five working days to comment and feedback on your EqIA. EqIAs should only be marked as reviewed when they provide sufficient information for decision-makers on the equalities impact of the proposal. Please seek feedback and review from the Equality and Inclusion Team before requesting sign off from your Director¹.

Equality and Inclusion Team Review: <i>Reviewed by Equality and Inclusion Team</i>	Director Sign-Off: Christina Gray, Director for Communities and Public Health 
Date: 11/7/2022	Date: 11/7/2022

¹ Review by the Equality and Inclusion Team confirms there is sufficient analysis for decision makers to consider the likely equality impacts at this stage. This is not an endorsement or approval of the proposal.
