Purpose of Report: <ol style="list-style-type: none">1. The report provides an update current significant strategic risks to achieving the Council’s objectives as set in the Corporate Strategy 2018-2023 and summarises progress in managing the risks and actions being taken as at Quarter 2 2022-23.			
Evidence Base: Context <ol style="list-style-type: none">1. The Corporate Risk Report (CRR) is a key document in the council’s approach to the management of risk; it captures strategic risks set out in the Corporate Strategy 2018-2023. It also provides a context through which Directorates construct their own high-level risk assessments and is used to inform decision making about business planning, budget setting, transformation and service delivery.2. The CRR provides assurance to management and Members that Bristol City Council’s significant risks have been identified and arrangements are in place to manage those risks within the tolerance levels agreed. It should be noted that ‘risk’ by definition includes both threats and opportunities, which is reflected in the CRR.3. The Accounts and Audit Regulations 2015 require that the council to have in place effective arrangements for the management of risk. These arrangements are reviewed each year and reported as part of the Annual Governance Statement (AGS). Ensuring that the Service Risk Registers (SRR), Directorate Risk Reports (DRR) and the Corporate Risk Reports (CRR) are soundly based will help the council to ensure it is anticipating and managing key risks to optimise the achievement of the council’s objectives and prioritise actions for managing those risks.4. The registers and reports are a management tool. They need regular review to ensure that the occurrence of obstacles or events that may put individual’s safety at harm, impact upon service delivery and the council’s reputation are minimised, opportunities are maximised and when risks happen, they are managed effectively to minimise the impact.5. The CRR summary of risks is attached to this report at Appendix A and is the latest position following a review by managers and Directors.			

Corporate Risk Report - Summary of Corporate Risks:

6. Cabinet is asked to note the CRR as a working summary report of the critical and significant risks from the Service Risk Registers as at September 2022.
7. The CRR sets out the critical, significant and high rated threats and opportunity risks. All other business risks reside on the Service Risk Registers.
8. Members of EDM's and the Corporate Leadership Board reviewed the DRRs in September 2022 to form the CRR. Cabinet is asked to accept the attached CRR as a working summary report of the critical and significant risks from the Service Risk Registers.
9. The Q2 22-23 Corporate Risk Report (CRR) as at 2nd September 2022 contained:

- 'OPP2 – Corporate Strategy'. This risk has closed as it has been delivered; the appropriate frameworks/processes are in place and approved.

Additional Information:

- A review of the council's risk maturity, culture and appetite will be conducted in Q3 2022-2023. This will feed into a review of the wider Risk Management Assurance Policy.
- For more detail on individual risks and their management, please see the attached Appendix A.
- The closed risks are now reflected within individual risks across the Council's Service Risk Registers.
- All risks on the CRR have management actions in place.
- It is not possible to eliminate the potential of failure entirely without significant financial and social costs. The challenge is to make every reasonable effort to mitigate and manage risks effectively, and where failure occurs, to learn and improve.

Required information to be completed by Financial/Legal/ICT/ HR partners:

1. Finance Advice: The CRR is a live document refreshed regularly following consultation across the organisation, and aims to provide assurance that the council's main risks have been identified and appropriate mitigations are in place to ensure they are managed within agreed tolerances. This includes, as set out in the annual budget report, measures to ensure appropriate financial provision is made through the budget planning process and reserves. The Council should ensure it has sufficient resource available to implement actions required to bring risks down to a tolerable level.

Finance Business Partner: Ravi Lakhani, Head of Strategic Finance

2. Legal Advice: The Corporate Risk Register enables the Council to monitor and manage identified risks and mitigations to ensure good governance and compliance with its statutory and other duties. Advice will be given separately in relation to any specific legal issues that may arise from the risks identified.

Legal Team Leader: Nancy Rollason, Head of Legal Service and Deputy Monitoring Officer

3. Implications on IT: The Digital Transformation Team remain committed to undertaking the mitigation activities pertaining to the service risks. We are instigating additional dialogue around the Corporate approach to 'roll-up' risks

such as Suitability of LOB systems, Cyber Security, and IT Resilience whereby ownership and mitigation activity should be led by the responsible service areas and reported individually. We are working with Risk colleagues to improve the alignment of different risk registers and approaches and gain a single view of risk within the new risk management software tool.

IT Team Leader: Gavin Arbuckle, Head of Service Improvement and Performance

4. HR Advice: It is essential that staffing resources are appropriately deployed to manage risks and bring them to a tolerable level and in particular the critical risks that are identified in the report. There are no other HR implications arising from the CRR report.

HR Partner: Mark Williams, Head of Human Resources
