| Project | Status | Non-Financial Benefits | Benefits Realised | Notes |
|---|---|--|---|--|
| Third Party Contracts | Closed: BAU work continues | Updated clear schedules and volumes for DR and Software licence contracts | In progress | |
| | Closed: BAU | An improved mobile telephony and data service tailored to the council's | p. eg. eee | |
| Third Party Contracts | work continues | current needs | Yes | |
| Third Party Contracts | Closed: BAU work continues | Fully understood and tailored DR capability for on premise services. | In progress | |
| | Closed: BAU | Simplified estate due to reduction/removal of Windows 7 and simplified | in brediens | |
| Third Party Contracts | work continues | licence management | Yes | |
| | | Supporting the digital transformation projects as well as delivering various training interventions which demonstrate functionality of the new | | |
| | | technology, including signposting to guidance and self-serve learning | | |
| Adoption and Change Management (ACM) | Ongoing | packages | Yes | |
| Adoption and Change Management (ACM) | Ongoing | Recruitment of 400+ digital champions to provide digital support with services areas | Yes | |
| Adoption and Change Management (ACM) Cloud Migration | Open | Simplifies the Council's IT infrastructure | To be delivered | |
| | | | | |
| Cloud Migration | Open | Removes the tie (and cost to relocate) to offices housing data centres Reduces network loads as many applications accessible directly over the | To be delivered | |
| Cloud Migration | Open | internet | To be delivered | |
| | | Improved overall security through moving to zero trust (i.e. users have to | | |
| | | authenticate specifically for each interaction with a system – this is largely | | |
| Cloud Migration | Open | invisible to the user but achieved through device security measures and multi factor authentication) | To be delivered | |
| | | , | | |
| Claud Missatian | 0 | Overall improvement in security and security issues easier to detect as the | To be deliced | |
| Cloud Migration | Open | platforms provide consolidated security incident reporting Quicker to deploy new and upgraded systems as not dependent on the cost | To be delivered | |
| Cloud Migration | Open | of and need to install specific infrastructure | To be delivered | |
| | | | L | Still relevant and likely to be listed in the OBC as a deliverable or SMART |
| Channel Shift | Open | Increase citizens' ability to engage with Bristol Council services online | To be delivered | objective Still relevant and likely to be listed in the OBC as a deliverable or SMART |
| Channel Shift | Open | Potential reduction in complaints regarding our online services | To be delivered | objective |
| | | Increase in volume and pace of IT delivery capacity, and reduced time in | | |
| Digital Strategic Partner (DSP) | Closed | commissioning new IT projects | Yes | Robust evaluation to validate and confirm the benefit too early in the partnership to provide robust evaluation of this benefit; |
| Digital Strategic Partner (DSP) | Closed | Knowledgeable and capable partner | Yes | will require result of initial CSAT |
| | | | | The DSP arrangement provides an additional source of resourcing whilst |
| Digital Strategic Partner (DSP) | Closed | Increased flexibility in resourcing of IT projects | Yes | being non-exclusive and keeping other options open to us |
| Digital Strategic Partner (DSP) | Closed | Skills-share & learning opportunities for staff | To be delivered | It is too early in the partnership to provide robust evaluation of this benefit. |
| Digital Strategic Fartilet (DSF) | ciosea | Switz share & learning opportunities tot Statt | no pe delivered | penene. |
| End User Compute (EUC) Optimisation | Open | Improves the security of BCC using secure cloud platforms | In progress | No |
| End Hear Compute (EHC) Optimization | 0000 | Fachles the future Digital Strategy and programme | In measures | |
| End User Compute (EUC) Optimisation | Open | Enables the future Digital Strategy and programme | In progress | |
| End User Compute (EUC) Optimisation | Open | Improving availability, resilience and DR capabilities | In progress | |
| Ford House Community (FILC) Continuing | 0 | Classification and the second second | | |
| End User Compute (EUC) Optimisation | Open | Simplify EUC estate to make it easier to manage | In progress | |
| End User Compute (EUC) Optimisation | Open | Reduction in on-prem infrastructure | To be delivered | NO |
| Networks Replacement | Open | Increased resilience to buildings, customers and services | To be delivered To be delivered | |
| Networks Replacement Networks Replacement | Open Open | Reduced number of IT Network outages occurring Increased confidence on the security and integrity of our network | To be delivered | |
| | | Compliant contracts in place to support the authority's IT network and | | |
| Networks Replacement | Open | telephony infrastructure Reduced network management overhead allowing staff to focus efforts on | Yes | |
| Networks Replacement | Open | continual service improvement | To be delivered | |
| | | | | |
| Project Management Tooling | Closed | | Yes | Formal Evaluation to take place in October 2023 |
| Project Management Tooling | Closed | Greater efficiency in programme and project delivery through elimination of manual tasks | Yes | |
