

# Environmental Impact Assessment [version 1.0]

<b>Proposal title: Overview of Hengrove Park Delivery Approach, and Approval to Draw Down WECA DIF Funding Award for Enabling Infrastructure</b>		
<b>Project stage and type:</b> <input type="checkbox"/> Initial Idea Mandate	<input type="checkbox"/> Outline Business Case	<input checked="" type="checkbox"/> Full Business Case
<input type="checkbox"/> Policy <input type="checkbox"/> Strategy <input type="checkbox"/> Function <input type="checkbox"/> Service <input checked="" type="checkbox"/> Other [please state]	<input type="checkbox"/> New <input checked="" type="checkbox"/> Already exists / review	<input type="checkbox"/> Changing
<b>Directorate:</b>	<b>Lead Officer name: Declan Cooney, Housing Delivery Service</b>	
<b>Service Area: Housing Delivery Service</b>	<b>Lead Officer role: Senior Housing Project Manager City Wide</b>	

## Step 1: What do we want to do?

The purpose of this Environmental Impact Assessment is to help you develop your proposal in a way that is compliant with the council's policies and supports the council's strategic objectives under the [One City Climate Strategy](#), the [One City Ecological Emergency Strategy](#) and the latest [Corporate Strategy](#).

This assessment should be started at the beginning of the project proposal process by someone with a good knowledge of the project, the service area that will deliver it, and sufficient influence over the proposal to make changes as needed.

It is good practice to take a team approach to completing the Environmental Impact Assessment. See further [guidance](#) on completing this document. Please email [environmental.performance@bristol.gov.uk](mailto:environmental.performance@bristol.gov.uk) early for advice and feedback.

### 1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Please use plain English, avoiding jargon and acronyms.

1. To ask Cabinet to note the Council's overall delivery strategy for the redevelopment of Hengrove Park to deliver up to 1435 new homes (up to 50% of which will be Affordable Homes), a c. 22 hectare new public park plus high-quality community, sports and employment facilities, as set out in this and previous Cabinet Reports.
2. To ask Cabinet to note the Council's successful Full Business Case (FBC) submission to WECA which has secured £19.8m of WECA Development Infrastructure Funding (WECA DIF), to deliver enabling infrastructure to accelerate the redevelopment of Hengrove Park.
3. To inform Cabinet of the final agreed funding award, project scope and delivery approach which following in-depth planning and design work, and development of the Full Business Case submission, have now been developed in much greater detail since Cabinet gave initial approval in September 2020 to submit the Outline Business Case (OBC) to WECA.
4. To secure Cabinet Approval to draw down and spend the final agreed WECA DIF Funding Award in accordance with the Full Business Case approved by WECA Committee in September 2022, and as per the details set out in this report, including in relation to the now confirmed project scope, delivery approach, programme, 'funding flows' and amount of the funding award.

## 1.2 Will the proposal have an environmental impact?

Could the proposal have either a positive or negative effects for the environment now or in the future? If 'No' explain why you are sure there will be no environmental impact, then skip steps 2-3 and request review by sending this form to [environmental.performance@bristol.gov.uk](mailto:environmental.performance@bristol.gov.uk)

If 'Yes' complete the rest of this assessment.

<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No	[please select]
-----------------------------------------	-----------------------------	-----------------

## 1.3 If the proposal is part of an options appraisal, has the environmental impact of each option been assessed and included in the recommendation-making process?

If 'Yes' please ensure that the details of the environmental impacts of each option are made clear in the pros and cons section of the [project management options appraisal document](#).

<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input checked="" type="checkbox"/> Not applicable	[please select]
------------------------------	-----------------------------	----------------------------------------------------	-----------------

If 'No' explain why environmental impacts have not been considered as part of the options appraisal process.

## Step 2: What kinds of environmental impacts might the project have?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered. See detailed [guidance documents](#) for advice on identifying potential impacts.

### Does the proposal create any benefits for the environment, or have any adverse impacts?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our corporate environmental objectives and the wider [One City Climate and Ecological Emergency strategies](#).

Consider how the proposal creates environmental impacts in the following categories, both now and in the future.

**Reasonable efforts should be made to quantify stated benefit or adverse impacts wherever possible.**

Where the proposal is likely to have a beneficial impact, consider what actions would enhance those impacts. Where the proposal is likely to have a harmful impact, consider whether actions would mitigate these impacts.

Enhancements or mitigation actions are only required when there is a likely impact identified. Remember that where enhancements or mitigation actions are listed, they should be assigned to staff and appropriately resourced.

#### GENERAL COMMENTS (highlight any potential issues that might impact all or many categories)

This cabinet report seeks approval for funding and further detail on work streams of enabling works for the future housing development at Hengrove Park. Most of the development works in future will be undertaken by Goram Homes and will go through planning application process and statutory Environmental Impact Assessment process and will have a formal waste management plan, so the impacts of the overall housing development are not considered within this appendix. Some highways enabling works will be undertaken by the BCC Transport Team, these works have been considered within a separate cabinet report.

<p><b>ENV1 Carbon neutral: Emissions of climate changing gases</b></p> <p>BCC has committed to achieving net zero emissions for its direct activities by 2025, and to support the city in achieving net zero by 2030.</p> <p>Will the proposal involve transport, or the use of energy in buildings? Will the proposal involve the purchase of goods or services? If the answer is yes to either of these questions, there will be a carbon impact.</p> <p>Consider the scale and timeframe of the impact, particularly if the proposal will lead to ongoing emissions beyond the 2025 and 2030 target dates.</p> <p><a href="#">Further guidance</a></p> <p><input type="checkbox"/> <b>No impact</b></p>	Benefits	No direct – See above

### Step 3: Action Plan

Use this section summarise and assign responsibility for any actions you have identified to improve data, enhance beneficial, or mitigate negative impacts. Actions identified in section two can be grouped together if named responsibility is under the same person.

This action plan should be updated at each stage of the project. Please be aware that the Sustainable City and Climate Change Service may use this action plan as an audit checklist during the project’s implementation or operation.

Enhancing / mitigating action required	Responsible Officer	Timescale

### Step 4: Review

The Sustainable City and Climate Change Service need at least five working days to comment and feedback on your impact assessment. Assessments should only be marked as reviewed when they provide sufficient information for decision-makers on the environmental impact of the proposal.

Please seek feedback and review by emailing [environmental.performance@bristol.gov.uk](mailto:environmental.performance@bristol.gov.uk) before final submission of your decision pathway documentation<sup>1</sup>.

Where impacts identified in this assessment are deemed significant, they will be summarised here by the Sustainable City and Climate Change Service and must be included in the 'evidence base' section of the decision pathway cover sheet.

<b>Summary of significant beneficial impacts and opportunities to support the Climate, Ecological and Corporate Strategies (ENV1,2,3,4):</b>

<sup>1</sup> Review by the Sustainable City and Climate Change Service confirms there is sufficient analysis for decision makers to consider the likely environmental impacts at this stage. This is not an endorsement or approval of the proposal.
