

Environmental Impact Assessment [version 1.0]

Proposal title: The leaseholder residential property insurance for 2024/2025			
Project stage and type: Initial Idea Mandate 	Outline Business Case	Full Business Case	
□ Policy □ Strategy □ Function □ Service	🗆 New	Changing	
Other [please state]	\Box Already exists / review		
Directorate: Finance	Lead Officer name: Richard Y	′oung	
Service Area: Strategic Finance	Lead Officer role: Head of St	rategic Finance	

Step 1: What do we want to do?

The purpose of this Environmental Impact Assessment is to help you develop your proposal in a way that is compliant with the council's policies and supports the council's strategic objectives under the <u>One City Climate</u> <u>Strategy</u>, the <u>One City Ecological Emergency Strategy</u> and the latest <u>Corporate Strategy</u>.

This assessment should be started at the beginning of the project proposal process by someone with a good knowledge of the project, the service area that will deliver it, and sufficient influence over the proposal to make changes as needed.

It is good practice to take a team approach to completing the Environmental Impact Assessment. See further <u>guidance</u> on completing this document. Please email <u>environmental.performance@bristol.gov.uk</u> early for advice and feedback.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Please use <u>plain English</u>, avoiding jargon and acronyms.

To seek approval to procure and award insurance arrangement for the Councils Leasehold and Right to Buy Scheme for a period of one-year and retender in the subsequent year.

1.2 Will the proposal have an environmental impact?

Could the proposal have either a positive or negative effects for the environment now or in the future? If 'No' explain why you are sure there will be no environmental impact, then skip steps 2-3 and request review by sending this form to <u>environmental.performance@bristol.gov.uk</u>

If 'Yes' complete the rest of this assessment.

The proposal will not have any direct environmental impacts and payment of the insurance cover is going to an organisation that is demonstrably reducing its direct and indirect carbon impacts, with targets that are in line with the Paris protocol and independently verified greenhouse gas accounts.

1.3 If the proposal is part of an options appraisal, has the environmental impact of each option been assessed and included in the recommendation-making process?

If 'Yes' please ensure that the details of the environmental impacts of each option are made clear in the pros and cons section of the <u>project management options appraisal document</u>.

□ Yes □ No □ Not applicable	[please select]	
-----------------------------	-----------------	--

If 'No' explain why environmental impacts have not been considered as part of the options appraisal process.

Step 2: What kinds of environmental impacts might the project have?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered. See detailed <u>guidance documents</u> for advice on identifying potential impacts.

Does the proposal create any benefits for the environment, or have any adverse impacts?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our corporate environmental objectives and the wider <u>One City Climate and Ecological Emergency</u> <u>strategies</u>.

Consider how the proposal creates environmental impacts in the following categories, both now and in the future. **Reasonable efforts should be made to quantify stated benefit or adverse impacts wherever possible.**

Where the proposal is likely to have a beneficial impact, consider what actions would enhance those impacts. Where the proposal is likely to have a harmful impact, consider whether actions would mitigate these impacts.

Enhancements or mitigation actions are only required when there is a likely impact identified. Remember that where enhancements or mitigation actions are listed, they should be assigned to staff and appropriately resourced.

GENERAL COMMENTS (highlig	ght any potent	ial issues th	at might impact all	or many categories)	
ENV1 Carbon neutral: Emissions of climate changing gases					
BCC has committed to achieving net zero emissions for its direct activities by 2025, and to support the city	Benefits				
in achieving net zero by 2030.					
Will the proposal involve transport, or the use of energy in buildings? Will the proposal involve the purchase of goods or	Enhancing actions				
services? If the answer is yes	Persistence	of effects:	🗆 1 year or less	🗌 1 – 5 years	5 🗆 5+ years
to either of these questions, there will be a carbon					
impact.	Adverse impacts				
Consider the scale and timeframe of the impact,	mpuero				

particularly if the proposal will lead to ongoing emissions beyond the 2025 and 2030 target dates. <u>Further guidance</u>	Mitigating actions				
🗌 No impact					
	Persistence	of effects:	1 year or less	1 – 5 years	□ 5+ years
ENV2 Ecological recovery: Wildlife and habitats BCC has committed to 30% of its land being managed for nature and to halve its use of pesticides by 2030.	Benefits				
Consider how your proposal can support increased space for nature, reduced use of pesticides, reduce pollution to waterways, and reduce	Enhancing actions				
consumption of products	Persistence	of effects:	1 year or less	🗌 1 – 5 years	5+ years
that undermine ecosystems around the world. If your proposal will directly lead to a reduction in habitat within Bristol, then consider how your proposed	Adverse impacts				
mitigation can lead to a biodiversity net gain. Be sure to refer to quantifiable changes wherever possible.	Mitigating actions

Step 3: Action Plan

Use this section summarise and assign responsibility for any actions you have identified to improve data, enhance beneficial, or mitigate negative impacts. Actions identified in section two can be grouped together if named responsibility is under the same person.

This action plan should be updated at each stage of the project. Please be aware that the Sustainable City and Climate Change Service may use this action plan as an audit checklist during the project's implementation or operation.

Enhancing / mitigating action required	Responsible Officer	Timescale

Step 4: Review

The Sustainable City and Climate Change Service need at least five working days to comment and feedback on your impact assessment. Assessments should only be marked as reviewed when they provide sufficient information for decision-makers on the environmental impact of the proposal.

Please seek feedback and review by emailing <u>environmental.performance@bristol.gov.uk</u> before final submission of your decision pathway documentation¹.

Where impacts identified in this assessment are deemed significant, they will be summarised here by the Sustainable City and Climate Change Service and must be included in the 'evidence base' section of the decision pathway cover sheet.

Summary of significant beneficial impacts and opportunities to support the Climate, Ecological and Corporate	
Strategies (ENV1,2,3,4):	

Summary of significant adverse impacts and how they can be mitigated:
