

Environmental Impact Assessment [version 1.0]

Proposal title: Dedicated Schools Grant (DSG) 2024/25 Budget Proposals				
Project stage and type: Initial Idea Mandate	Outline Business Case	Full Business Case		
□ Policy □ Strategy □ Function □ Service	🗆 New	Changing		
Other [please state]	🗆 Already exists / review			
Directorate: Finance	Lead Officer name: Travis Yo	oung		
Service Area: Accountancy, Risk and Insurance	Lead Officer role: Finance Bu	isiness Partner – Children		
	and Education			

Step 1: What do we want to do?

The purpose of this Environmental Impact Assessment is to help you develop your proposal in a way that is compliant with the council's policies and supports the council's strategic objectives under the <u>One City Climate</u> <u>Strategy</u>, the <u>One City Ecological Emergency Strategy</u> and the latest <u>Corporate Strategy</u>.

This assessment should be started at the beginning of the project proposal process by someone with a good knowledge of the project, the service area that will deliver it, and sufficient influence over the proposal to make changes as needed.

It is good practice to take a team approach to completing the Environmental Impact Assessment. See further guidance on completing this document. Please email <u>environmental.performance@bristol.gov.uk</u> early for advice and feedback.

1.1 What are the aims and objectives/purpose of this proposal?

Briefly explain the purpose of the proposal and why it is needed. Please use <u>plain English</u>, avoiding jargon and acronyms.

The Dedicated Schools Grant (DSG) is the ring-fenced grant from Government that provides each local authority with an allocation of funding for schools and services for pupils.

This proposal sets out the use of the DSG and how associated grants are to be applied during 2024/25. The Bristol Schools Forum must be consulted on all aspects of the use of the Dedicated Schools Grant (DSG) and the School Funding Regulations limit the scope for how funding may be used. Schools Forum has some responsibilities to determine a small number of specific budgets and the decisions on the amount of funding to distribute to schools and early years settings. The distribution mechanisms, the proposed spend on central services and the High Needs budget are matters to be determined by the Council.

1.2 Will the proposal have an environmental impact?

Could the proposal have either a positive or negative effects for the environment now or in the future? If 'No' explain why you are sure there will be no environmental impact, then skip steps 2-3 and request review by sending this form to <u>environmental.performance@bristol.gov.uk</u>

If 'Yes' complete the rest of this assessment.

🗌 Yes	🖾 No	[please select]
-------	------	-----------------

The proposal relates to the allocation of central government funding for education, which BCC has a legal duty to carry out. The funding allocation is to cover core operations of schools and the precise spending choices reside with each institution.

1.3 If the proposal is part of an options appraisal, has the environmental impact of each option been assessed and included in the recommendation-making process?

If 'Yes' please ensure that the details of the environmental impacts of each option are made clear in the pros and cons section of the <u>project management options appraisal document</u>.

If 'No' explain why environmental impacts have not been considered as part of the options appraisal process.

Step 2: What kinds of environmental impacts might the project have?

Analysis of impacts must be rigorous. Please demonstrate your analysis of any impacts of the proposal in this section, referring to evidence you have gathered. See detailed <u>guidance documents</u> for advice on identifying potential impacts.

Does the proposal create any benefits for the environment, or have any adverse impacts?

Outline any potential benefits of the proposal and how they can be maximised. Identify how the proposal will support our corporate environmental objectives and the wider <u>One City Climate and Ecological Emergency</u> <u>strategies</u>.

Consider how the proposal creates environmental impacts in the following categories, both now and in the future. **Reasonable efforts should be made to quantify stated benefit or adverse impacts wherever possible.**

Where the proposal is likely to have a beneficial impact, consider what actions would enhance those impacts. Where the proposal is likely to have a harmful impact, consider whether actions would mitigate these impacts.

Enhancements or mitigation actions are only required when there is a likely impact identified. Remember that where enhancements or mitigation actions are listed, they should be assigned to staff and appropriately resourced.

GENERAL COMMENTS (highlight any potential issues that might impact all or many categories)					
ENV1 Carbon neutral: Emissions of climate changing gases					
BCC has committed to achieving net zero emissions for its direct activities by 2025, and to support the city	Benefits				
in achieving net zero by 2030.					
Will the proposal involve transport, or the use of energy in buildings? Will the proposal involve the purchase of goods or	Enhancing actions				
services? If the answer is yes	Persistence of	of effects:	□ 1 year or less	🗌 1 – 5 years	□ 5+ years

to either of these questions, there will be a carbon impact. Consider the scale and timeframe of the impact,	Adverse impacts				
particularly if the proposal will lead to ongoing emissions beyond the 2025 and 2030 target dates. <u>Further guidance</u>	Mitigating actions				
└┘ No impact	Persistence	of offects:	□ 1 year or less	□ 1 – 5 years	S+ years
	Persistence	of effects.			
ENV2 Ecological recovery: Wildlife and habitats BCC has committed to 30% of its land being managed for nature and to halve its use of pesticides by 2030.	Benefits				
Consider how your proposal can support increased space for nature, reduced use of pesticides, reduce pollution to waterways, and reduce	Enhancing actions				
consumption of products	Persistence	of effects:	1 year or less	🗆 1 – 5 years	5+ years
that undermine ecosystems around the world. If your proposal will directly lead to a reduction in habitat within Bristol, then consider how your proposed	Adverse impacts				
mitigation can lead to a biodiversity net gain. Be sure to refer to quantifiable changes wherever possible.	Mitigating actions				
🗌 🗌 No impact	Persistence	of effects:	□ 1 year or less	🗌 1 – 5 years	□ 5+ years
ENV3 A cleaner, low-waste city: Consumption of	Benefits				
resources and generation of waste					
Consider what resources will be used as a result of the proposal, how they can be minimised or swapped for	Enhancing actions				
	Persistence	of effects:	1 year or less	🗌 1 – 5 years	5+ years

less impactful ones, where they will be sourced from, and what will happen to any waste generated	Adverse impacts				
<u>Further guidance</u>	Mitigating actions				
🗌 No impact	Persistence	of effects:	□ 1 year or less	🗌 1 – 5 years	□ 5+ years
	 	[
ENV4 Climate resilience: Bristol's resilience to the effects of climate change	Benefits				
Bristol's climate is already changing, and increasingly					
frequent instances of extreme weather will become more likely over time.	Enhancing actions				
Consider how the proposal	Persistence	of effects:	□ 1 year or less	🗌 1 – 5 years	□ 5+ years
will perform during periods of extreme weather (particularly heat and flooding).	Adverse impacts				
Consider if the proposal will reduce or increase risk to					
people and assets during extreme weather events.	Mitigating actions				
□ No impact					
	Persistence	of effects:	\Box 1 year or less	🗌 1 – 5 years	□ 5+ years
Statutory duty: Prevention of Pollution to air, water, or land	Benefits				
Consider how the proposal will change the likelihood of	Enhancing actions				
pollution occurring to air,	Persistence	of offectes	□ 1 year or less	🗌 1 – 5 years	5+ years

water, or land and what steps will be taken to prevent pollution occurring.	Adverse impacts				
Further guidance	Mitigating actions				
	Persistence of	of effects:	1 year or less	🗌 1 – 5 years	🗌 5+ years

Step 3: Action Plan

Use this section summarise and assign responsibility for any actions you have identified to improve data, enhance beneficial, or mitigate negative impacts. Actions identified in section two can be grouped together if named responsibility is under the same person.

This action plan should be updated at each stage of the project. Please be aware that the Sustainable City and Climate Change Service may use this action plan as an audit checklist during the project's implementation or operation.

Enhancing / mitigating action required	Responsible Officer	Timescale

Step 4: Review

The Sustainable City and Climate Change Service need at least five working days to comment and feedback on your impact assessment. Assessments should only be marked as reviewed when they provide sufficient information for decision-makers on the environmental impact of the proposal.

Please seek feedback and review by emailing <u>environmental.performance@bristol.gov.uk</u> before final submission of your decision pathway documentation¹.

Where impacts identified in this assessment are deemed significant, they will be summarised here by the Sustainable City and Climate Change Service and must be included in the 'evidence base' section of the decision pathway cover sheet.

Summary of significant beneficial impacts and opportunities to support the Climate, Ecological and Corporate Strategies (ENV1,2,3,4):

Summary of significant adverse impacts and how they can be mitigated:

¹ Review by the Sustainable City and Climate Change Service confirms there is sufficient analysis for decision makers to consider the likely environmental impacts at this stage. This is not an endorsement or approval of the proposal.
