Monday 23 rd September - Thursday 26 th September	Event De-rig

ABOUT KINETICS ISLAND FESTIVAL

In 2024 Circular Productions, the team behind Motion and Document are hoping to host Kinetics Island Festival in Bristol at Eastville Park for a 2-day festival with a 15,000 capacity. Both events will be over 18's only.

By taking on the responsibility of curating a festival, we are looking to build upon, encourage and develop grassroots acts by bringing them up through the ranks of Motion, Document and into Kinetics Island. We hope to give artists, local and far, to play at our venues to help give them experiences to build on in their careers.

We hope to use local suppliers for infrastructure and staffing support.

COMMUNITY ENGAGEMENT

A meeting to discuss the event with local residents will be held virtually on **Microsoft Teams on Wednesday, the 21st of February, at 18:00**. To register your interest, please email community@kineticsisland.co.uk.

NOISE MANAGEMENT

Some level of noise will be audible for residents living nearby, but we are committing significant resources in order to minimise our noise.

A Noise Management Plan will be prepared and will be agreed in advance of the event. We will be working with independent acoustic consultants, who will be monitoring noise levels throughout the live event, both within the site and at the agreed monitoring points at the nearest residential properties, ensuring the decibel levels agreed with the Local Authority are not exceeded.

During the event if you experience any nuisance caused by noise during the event, please inform us. We will have a Community Hotline where residents feedback will be received. The number will be shared closer to the event and will only be live during **Saturday 21st September and Sunday 22nd September**.

SECURITY AND POLICING

Security at the event will be provided by specialist festival contractors who have considerable experience in this type of event. Security personnel will be on duty both within the festival site and wider park, as well as routes to local transport hubs and the wider community. The Avon and Somerset Police have been involved in the event planning process.

WASTE MANAGEMENT

A dedicated external cleansing team will be in place and their responsibility is litter clearance in the areas surrounding the park, including roads and pavements. A separate internal cleansing in team is in place to keep the festival site clean during the festival and after the event.

During the Event if you see a build-up of litter due to the event, please feel free to inform us so our litter-picking team are able to respond.

TOILET PROVISION

As well as toilets within the festival site, additional toilets will be placed at locations within the park to ensure that park facilities are not overrun.

TRAFFIC MANAGEMENT AND TRANSPORT

A detailed Traffic Management Plan is being drafted by a specialised Traffic Management company with experience at previous events in Eastville Park. This plan includes the deployment of additional event directional signage and pedestrian route signage; the creation of dedicated pick-up and drop-off (PUDO) locations for taxis, other cars and the shuttle bus service. Traffic Management Plans for the event will be shared in a second letter drop once finalised with Bristol Council and the highways team

GROUND MANAGEMENT

We have invested in infrastructure to ensure that as little disruption to the site is done as possible. We will work closely with the parks team to ensure we leave the space in as good a condition as possible. Any reinstatement works will take place following the handover.

FURTHER INFORMATION

If you would like any further information regarding the festival, please contact us by email community@kineticsisland.co.uk

Yours Sincerely,
The Kinetics Island Festival Team
