| Purpose  | of Report:  |  |  |  |  |
|  | at enables different IT systems to conne  | s for a 3-year support and maintenance contract for TIBCO, a ct. |  |  |  |
| 2. T<br>ir<br>fc<br>3. T<br>4. A<br>5. T<br>6. T | <ul> <li>Bristol City Council (BCC) has a perpetual licence for use of TIBCO Integration Software which is a low code/no code platform for writing integrations between different systems.</li> <li>The TIBCO platform is mainly used by Finance (ABW) and Housing (CivicaCX and Click) integrations. Other integrations include various web forms, Itrent, gas safety certificates, Fix My Street and property licensing forms.</li> <li>The current contract expires in June 2024.</li> <li>A compliant contract needs to be put in place to ensure continuity of the system integrations.</li> <li>There are alternative platforms available but currently not considering them for following reasons: <ul> <li>a. Housing system – a new Housing system is being implemented and when completed, will not need an integration platform as it will be built into the new system. It would be wasted effort/cost to move Housing to a different integration platform while waiting for the new housing system to be implemented.</li> <li>b. It would be significant work to move all integration to another platform. Housing for instance is estimated at 4 months' work using multiple resources. To move to another platform would need to be considered by the IT strategy and planned in based on other planned activities in the organisation with plenty of lead-in time considered.</li> <li>c. Rewriting all the current integrations will be costly, use significant resource, require further training and there may be a skills gaps depending on the alternative platform.</li> </ul> </li> <li>TIBCO proposed a 3-year &amp; 5-year renewal: <ul> <li>a. 3 year – f536,140 (12% increase each year)</li> <li>b. 5 year - f898,821 (8% increase each year)</li> </ul> </li> </ul> |  |  |  |  |
|  | he cost is greater than > £500k and requi   |  |  |  |  |
| 8. R   | ecommendation:  |  |  |  |  |
|  |   |  |  |  |  |

may possibly consider an alternative corporate integration platform therefore we recommend that the 3-year option is secured to allow the Council sufficient time to explore and implement any changes.

# Cabinet Member / Officer Recommendations:

That Cabinet:

- 1. Approve the re-procurement of a compliant maintenance contract for TIBCO for a period of 3 years a total value of approximately £536,000.
- Authorises the Director Policy, Strategy and Digital in consultation with the Deputy Mayor Finance, Governance, Property and Culture, to take all steps required to procure and award the contract for TIBCO for 3 years, in line with procurement routes and maximum budget outlined in this report.
- 3. Authorises the Head of Procurement & Contract Management to approve appropriate procurement routes to market where these not fully defined, or if changes to procurement routes are subsequently required.

#### **Corporate Strategy alignment:**

This aligns with our corporate strategy by enabling the standardisation of processes, enhancing communication and optimising resources required to deliver services.

#### City Benefits:

Enables systems to provide improved access to Council services via online channels, and better customer service across all channels.

## **Required information to be completed by Financial/Legal/ICT/ HR partners:**

**1. Finance Advice:** This report seeks approval to follow the specified procurement pathway to renew and award the maintenance and support contract for TIBCO Integration Software, with a revenue cost assessed to be £536k over three years.

It should be noted that the three-year contract option is proposed instead of the five-year option. Other providers can supply a similar capability to TIBCO, although not a like for like equivalent. Therefore, a shorter contract option is suggested to allow time for cost analysis of additional components that may be needed plus an estimated years' worth of development work. This gives the council flexibility to consider the most appropriate contract options after three years rather than five.

The current contract for TIBCO is forecast to spend £142k in 23/24, an increase of £11k from 22/23 due to an 8% inflationary increase. The new three-year contract will have a 12% per annum increase, confirming the payments over the next three years as follows:

| 24/25 | £159k |
|-------|-------|
| 25/26 | £178k |
| 26/27 | £199k |

The original budget allocation for TIBCO has not increased in line with inflation and by 26/27 there would have been a circa £80k in-year budget pressure, however, a maintenance contract within the Integrations cost centre ceased in June 2023 releasing £80k per annum back into the budget from 24/25.

In summary, there will be no additional pressure to the Integrations budget by extending the TIBCO contract for a further three years.

Finance Business Partner: Kathryn Long, Finance Business Partner: Resources and Shareholding, 25 January 2024

**2. Legal Advice:** The procurement process must be conducted in line with the 2015 Procurement Regulations and the Councils own procurement rules. Legal services will advise and assist officers with regard to the conduct of the procurement process and the resulting contractual arrangements.

Legal Team Leader: Husinara Jones, Team Manager/Solicitor, 11 March 2024

**3.** Implications on IT: IT are supportive of this approach as the crucial functionality provided by TIBCO cannot easily be transferred to a new platform. Enterprise Architecture are supporting this by reviewing ESB technology currently in use across BCC's IT estate.

IT Team Leader: Alex Simpson, Lead Enterprise Architect, 19 January 2024

4. HR Advice: No HR Implications

HR Partner: Bryn Williams, HR Business Partner: Resources, 19 January 2024
