2. That progress and the challenges be noted.

3. That the Mayor and councillors, in exercising the responsibilities of office, will take action to provide opportunities that support children in care and care leavers and promote the achievement of good outcomes.

5. Motions

Motion 1 – Bristol Sustainability and Transformation Plan (STP) – protect our NHS and social care services

Councillor Kirk moved the following motion:

“Full Council notes that:

1. The government is dividing the NHS in England into 44 areas or 'footprints', each of which has a 'Sustainability and Transformation Plan' (STP).
2. Government requires these STPs to deliver collective cuts of at least £2.5bn nationally this year, and £22bn within the next five years, to wipe out the NHS' 'financial deficit' by implementing 'new models of care'.
3. The former head of NHS commissioning, Julia Simon, has denounced the STP process as 'shameful', 'mad', 'ridiculous' and the plans as full of lies [1].
4. Locally it is envisaged that there will be a cumulative funding gap of about £305 million by 2020-21 and that the STP will need to change service provision to eliminate it [2].
5. Demands for the area STPs have been imposed by NHS England, with short deadlines, and senior health staff and managers have been expected to pull complex plans together, without the time or resources to carry out proper consultation with clinical staff, councillors or the public. This has led to a lack of transparency, and loss of trust in a process that has been imposed top down. The documentation made publicly available has been lacking detail and though an initial report on the STP has been made to council scrutiny committees there has been insufficient clarity about the power of democratically elected councillors to adapt, amend or influence the plan and its implementation.
6. Although closer integration between health services and the local authority is in principle a sound idea likely to result in better outcomes for residents, it cannot be achieved whilst at the same time making the huge cuts demanded by central government. It will be impossible for the STP for the area to make these cuts without measures which will seriously impact on the health and welfare of the local population. Pressure on acute services will not be reduced unless councils get the extra investment in social care, public health and early interventions to prevent ill health.

This Council believes:

1. That the cuts demanded by central government of £305 million are unfeasible and that there is no safe way of implementing such reductions.
2. That the only way to provide adequate integrated health and social care is through adequate funding.
3. That central government should increase NHS funding to at least 10.1% of GDP, to match the average of other EU countries.
4. That the government must address the crisis in social care funding, to allow councils to provide the adult social care needed to keep people well in their own homes and reduce the unnecessary costs of keeping people in acute hospitals when they could be supported in the community.
5. The STP does not have democratic accountability. BCC will have no accountability for the STP as it is 'owned' by Health. We are named as a delivery partner but our only entitlement is to question and scrutinise. We are expected to participate in a cost cutting process that will negatively impact on the health and wellbeing of our citizens, with no democratic power to change it, to pass it or reject it. This disempowers democratically elected councillors and the public.
6. Although the authors of the local STP have tried to minimise the impact of these cuts, published the plan in full and opened it to democratic scrutiny, any consultation on the plan or on individual elements of the plan is essentially meaningless if there is no option to refuse the cuts. The only way to resist these cuts, which will seriously damage the health of the people of Bristol, is for the people of the City to learn what is being planned and to be able to respond vigorously.

Full Council resolves to ask the Mayor to:

1. Write to thank the BNSSG STP group for their efforts in trying to meet impossible demands.
2. Write to the relevant government Ministers to make them aware of this motion and of our opposition to their unreasonable funding cuts.
3. Write to the City's MPs asking for their support. Particularly in pressing for cross party talks to resolve long term issues of health and social care funding and in calling for an increase to NHS funding.
4. Empower the appropriate Scrutiny bodies (being the Health & Wellbeing Board, and People and Neighbourhoods Scrutiny in the case of Bristol) to identify the health impacts of changes outlined in the proposed plan, and to collaborate with neighbouring Councils by establishing a formal joint Scrutiny process to be set up as a matter of urgency.
5. Publicise likely impacts on key services and our opposition to these funding cuts to the people of Bristol and encourage them to make their views known and campaign against the national cuts to the NHS."
